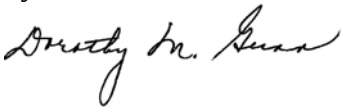
ORDER OF THE BOARD (by T.E. Johnson):

On November 3, 2005, Soyland Power Cooperative, Inc. (Soyland) timely filed a petition asking the Board to review a September 29, 2005 determination of the Illinois Environmental Protection Agency (Agency) to issue a Clean Air Act Permit Program (CAAPP) permit with conditions. *See* 415 ILCS 5/40.2(a) (2004); 35 Ill. Adm. Code 105.302(e). Soyland is challenging numerous conditions, including conditions relating to emission limits, sampling and monitoring requirements, and conditions containing incorrect information. The CAAPP permit application concerns Soyland's electrical power generating station located near the town of Pearl, Pike County. The Board accepted the petition for hearing on November 17, 2005.

In the petition, Soyland requested a stay of the effectiveness of the provisions and conditions appealed in the permit. On November 16, 2005, the Agency filed a motion in support of the requested stay. In the motion, the Agency asserts that because Soyland is seeking limited stay of the CAAPP permit confined only to those permit conditions being challenged in the petition, the Agency is agreeable to the stay. Mot. at 3. Accordingly, the Board grants the motion to stay the effectiveness of the provisions and conditions appealed in the permit.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on January 5, 2006, by a vote of 4-0.



Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
