Subject:	[External] Public Comment: Opposition to CITGO Lemont Refinery Petition (Docket No. AS 2026-001)
Date:	Wednesday, September 9, 2026 2:35:10 PM

Hello,

I have lived in Lemont my entire life and so has my family. We have grown up not far from the CITGO refinery and have had fears that it could affect our health. I am objecting to CITGOs request to adjust carbon monoxide (CO) emission malfunction periods. There are significant concerns regarding the local air quality and the health of the my neighbors and loved ones. We deserve healthy living environments even if we are not a multibillion dollar company.

Thank you for your attention to this matter,
Paulina Zdanowicz
