RULEMAKING UPDATE

BOARD ADOPTS REVISIONS TO TIRE MANAGEMENT STANDARDS, R90-9(B)

On February 6, 1992, the Board voted (6-0) to adopt amendments to "Management of Used and Waste Tires" (35 Ill. Adm. Code 848) and to repeal "old" management standards set out at 35 Ill. Adm. Code 849.

The amendments clarify exemptions for certain tire retreading, stamping and die cutting facilities and for sites with tire removal agreements. The amendments also revise the applicability of tire management standards. Businesses which may be affected include those involved in the storage, transportation, disposal and processing of used and waste tires. The amendments were published in the Illinois Register, 16 Ill. Reg. 3114, effective February 14, 1992.

Questions regarding these rules can be directed to Mark P. Miller, 104 W. University Ave., Urbana, IL 61801, (217) 333-5575. Copies can be obtained from the Clerk of the Board, 100 W. Randolph St., Ste. 11-500, Chicago, IL 60601, (312) 814-3620. Please refer to the docket number, R90-9(B), when making requests.

BOARD ADOPTS FINAL NOTICE FOR DIESEL OPACITY, R90-20

On February 27, 1992, the Board adopted the final notice in Diesel Vehicle Exhaust Limits (R90-20). This rulemaking will set limits for diesel opacity for heavy-duty powered vehicles operating in the state of Illinois. The Board has set a standard of 40% peak opacity in 1991 and later model year vehicles and 55% opacity in all other vehicles. The Board made no substantive changes in the rule from second notice to the final notice. Questions concerning this rulemaking should be addressed to the hearing officer, Marie E. Tipsord, 100 W. Randolph, Suite 11-500, Chicago, IL 60601 (312) 814-4925.

BOARD SENDS STAGE II GASOLINE VAPOR RECOVERY RULES TO FIRST NOTICE, R91-30

On February 27, 1992, the Board sent the Agency's proposal to first notice. The proposed rules are intended to regulate the installation and operation of systems for gasoline vapor recovery of emissions from the fueling of motor vehicles. Pursuant to Section 182(b)(3) of the Clean Air Act, as amended in 1990 (CAAA), Illinois is to submit these regulations as a revision to its state implementation plan (SIP) by November 15, 1992. This proposal is directed at both Illinois non-attainment areas. These include the Chicago area counties of Cook, DuPage, Kane, Lake, McHenry, and Will, as well as Oswego township in Kendall County

and Aux Sable and Goose Lake Townships in Grundy County; and the Metro-East area, consisting of Madison, Monroe, and St. Clair Counties.

Also in this docket, the Board is proposing non-substantive changes to Section 215.123 involving the form of the incorporation by reference. Although not part of the Agency's proposal, the Board stated that this docket serves as a means to make that section conform to current requirements.

The Board emphasized that in sending this proposal to first notice, it adopts no substantive position on the merits of the proposal. The Board believes that publishing the proposal at this time will maximize the opportunity for public comment on the proposal, and allow for greater opportunity for amendments to be adopted within the CAAA deadline.

As a reminder, hearings have been set by the hearing officer for:

Monday, March 30, 1992

9:30 a.m., Room 9-031
State of Illinois Center
100 West Randolph Street
Chicago, Illinois

Thursday, April 2, 1992

Collinsville, IL

Persons interested in the proposal should contact the hearing officer, Michelle C. Dresdow, at (815) 753-0947 for further information.

BOARD CONSOLIDATES DOCKETS IN MEDICAL WASTE PROPOSED RULE PROCEEDINGS

On February 27, 1992, the Board consolidated dockets R91-20, (dealing with treatment, storage, and transfer facilities), with Board docket R91-21 (dealing with transportation, packaging, and labeling). The Board stated that the consolidation is necessary due to the overlap of issues in the two proceedings, and is in the interest of administrative economy. The Board accomplished the consolidation by closing the R91-21 docket, and incorporating the material from that docket into docket R91-20. To reflect the action, the title to docket R91-20 was changed to

R91-20, POTENTIALLY INFECTION MEDICAL WASTE (PIMW): TREATMENT, STORAGE AND TRANSFER FACILITIES, and, TRANSPORTATION, PACKAGING AND LABELING.

The Board anticipates that the Illinois Environmental Protection Agency will be filing a proposal in this docket in the near future. Interested persons may contact the hearing officer, Michelle Dresdow, at 815-753-0947, for information.

BOARD ACCEPTS PROPOSAL IN THE RACT EXPANSION FOR THE CHICAGO AREA PROCEEDING, HEARING SET, R91-28

On February 27, 1992, the Board accepted for hearing the Illinois Environmental Protection Agency's (Agency) proposal in this docket. The proposal is intended to expand the geographical applicability of reasonably available control technology (RACT) regulations to certain stationary sources of volatile organic material (VOM) in Goose Lake and Aux Sable Townships in Grundy County, Illinois, and to Oswego Township in Kendall County, Illinois. On July 25, 1991, the Board adopted revisions to the State implementation plan (SIP) to make it consistent with the existing Federal implementation plan (FIP) (Board docket R91-8). The revised SIP contains a complete set of RACT regulations applying to stationary VOM sources located in the six Chicago area counties of Cook, Lake, DuPage, Kane, McHenry, and Will. However, the RACT regulations do not include Aux Sable and Goose Lake Townships in Grundy County and Oswego Township in Kendall County. The Agency believes that because these townships have now been included within the Chicago area boundaries designated by USEPA as nonattainment for ozone, they also must be included in the SIP.

Pursuant to a provision of the Clean Air Act Amendments (CAAA)(42 USC §7511a(c) and a(b)(2)), Illinois is to submit regulations changing the applicability of parts 215 and 218 as a revision to its SIP by November 15, 1992.

After a review of the proposal, the Board found that the proposal substantially meets the requirements of the Environmental Protection Act (Act) (Ill.Rev.Stat. 1991, ch. 111 1/2, par. 1001 et. seq) and the Board's procedural rules. The Board also noted that the Agency certified, pursuant to Section 28.2 of the Act, that this rule is federally required. The Board accepted that certification.

In addition, a hearing has been set on the proposal

for

TUESDAY, MAY 12, 1992

11:00 a.m.

Oswego Law Enforcement Center,
Community Room 3525,
Route 34 (Across from Fox Bend Golf Course),
Oswego, IL.

Those interested in further information on this proceeding should contact the hearing officer at (815) 753-0947.

BOARD PROPOSES EXTENSION OF EXEMPTIONS FROM THE DEFINITION OF VOM TO INCLUDE ALL SOURCES IN THE CHICAGO METROPOLITAN AND METRO EAST ST. LOUIS AREAS, R91-24

In R91-24, the Board proposed updates to various provisions of Parts 203, 211, 215, 218, and 219 to reflect the most recent pronouncement of USEPA's "Recommended Policy on the Control of Volatile Organic Compounds." In effect, this docket completes the amendments effected in R91-10, effective October 11, 1991. In that proceeding on September 12, 1991, the Board amended the Part 211 and 215 rules in response to USEPA additions to the list of chemicals exempted from the definition of volatile organic materials (VOMs). Unaffected by the R91-10 rulemaking were the definition of "volatile organic compound" at 35 Ill. Adm. Code 203.145 and the definitions of "volatile organic material" at recently-adopted Sections 218.104 and 219.104. Part 203 sets forth the rules applicable to construction and modification of major stationary sources. Part 218 governs emissions of volatile organic material from stationary sources located in the Chicago metropolitan area. Part 219 governs the emissions of volatile organic material from stationary sources located in the metropolitan East St. Louis area. R91-24 extends the exemption to include all federally-exempted compounds for all organic emissions from stationary sources in Illinois.

FOR YOUR INFORMATION

A science and public policy meeting on "Managing Chemicals for Safety, Quality and Productivity" will be presented by the Chicago Section of the American Chemical Society on March 20, 1992 at 5:30 p.m. The speakers are:

5:30 p.m. Dr. Scott Jenkins, "an Effective Chemical Inventory for the 90's", and,

8:00 p.m. Dr. J. W. Mitchell, "Alternative Starting Materials for Industrial Processes".

The meeting will be held at the Como Inn, 546 Milwaukee, Chicago. For information, call Ron Sykstus, (708) 647-8405.
