INFORMATION SERVICES AVAILABLE FROM THE BOARD

See the inside of this page for details on informational items available from the Board. These items include a subscription service for Board opinions and orders and copies of the landfill regulations in electronic format.

The Board also maintains an electronic Bulletin Board System (BBS) at 312-814-1590. There is no charge for access to the BBS. See the inside of this page for details.

RULEMAKING UPDATE

DRINKING WATER LEAD AND COPPER, PHASE IIB AMENDMENTS PROPOSED, R92-3

On February 4, 1993, the Board proposed amendments to the SDWA drinking water rules that would incorporate major federal amendments that occurred between June 1 and December 31, 1991. These amendments included incorporation of a new program for regulating lead and copper in drinking water and the addition of maximum contaminant levels (MCLs) for five new chemical contaminants: barium, aldicarb, aldicarb sulfone, aldicarb sulfoxide, and pentachlorophenol. The Board will accept public comments on the proposal for 45 days after a Notice of Proposed Amendments appears in the *Illinois Register*.

The lead and copper amendments would immediately impose an obligation for water suppliers to select a pool of consumer taps for monitoring and require the suppliers to obtain samples for testing. If a sufficient number of taps contain lead or above a certain level, the rules could then require the suppliers to engage in various remedial actions, including public education, corrosion control treatment, source water treatment, and removal of lead service lines.

The Phase IIB rules would add five new MCLs to an existing scheme of drinking water monitoring and testing. The federal EPA has stayed the MCLs for the three aldicarbs, and the Board's proposal similarly stays their effectiveness, but suppliers would still be required to commence monitoring and testing for them.

Please submit one original and nine copies of each public comment to the Clerk of the Board, marking docket R92-3 on the top of each copy. Address questions to Michael J. McCambridge, at 312-814-6924. (Please refer to docket R92-3.)

THE AGENCY MUST ANSWER QUESTIONS AT THE SECOND CAAA HEARING; MISREADING A DATE IN A BOARD ORDER IS NOT "GOOD CAUSE" THAT WOULD ALLOW A WAIVER OF THE STATUTORY FILING DEADLINE, R92-21

On January 21, 1993, the Board upheld a hearing officer order that required the Agency to answer questions at the second hearing in the New Source Review rules docket, R92-21. The Agency challenged the hearing officer's order, arguing that

requiring the Agency to answer questions at the second hearing was beyond the scope of new Section 28.5 of the Act (P.A. 87-1213, §50, 1992 Ill. Legis. Serv. (West) 3223, 3233). This states that in Clean Air Act Amendments (CAAA) proceedings the first day of hearings is "confined to" the Agency presentation, and the second day is "devoted to" presentation by "affected entities and all other interested parties" (Section 28.5(g)(2)). The Agency maintained that this language did not allow its participation by subjecting its primary witness to questions at the second hearing, as ordered by the hearing officer.

The Illinois Environmental Regulatory Group, the Steel Group, and Stepan Chemical Company all filed responses in support of the hearing officer's ruling. These groups essentially argued that the Agency position was an extreme interpretation of language of Section 28.5. They argued that adhering to the Agency position could possibly slow down the Section 28.5 rulemaking process, which the General Assembly intended for expedited adoption of CAAA rules.

In affirming the hearing officer order, the Board determined that reading Section 28.5 to allow questions at a second hearing would ensure the development of a complete record. The Board also felt it would comport with the legislative goal of fast-paced rulemaking. Thus, the Board held that the Agency must make its principal supporting witness available at the second day of hearing for questioning by the regulated community.

ENVIRONMENTAL INFORMATION SERVICES
AVAILABLE FROM THE BOARD

The Board has the following information available:

POLLUTION CONTROL BOARD ELECTRONIC BULLETIN BOARD SYSTEM (BBS). The Pollution Control Board operates an electronic BBS at 312-814-1590. The BBS is available 24 hours a day, 7 days a week, to anyone with access to a computer and a modem - there is no charge for access to the BBS. The best communications settings are 8 data bits (or data length 8), no parity (or parity = none) and 1 stop bit, i.e., 8-N-1. The best terminal emulation is ANSI-BBS or just ANSI. The BBS contains Board Agendas, Environmental Registers, Annual Reports, and various documents about the Board. You may download these documents to your computer. For additional information contact Bill Forcade at the Board Offices 312-814-3620.

SUBSCRIPTION SERVICE OF BOARD OPINIONS AND ORDERS. The subscription service comprises all the Opinions and Orders issued by the Pollution Control Board in a fiscal year (July 1 through June 30). The Board meets approximately twice monthly in order to issue Opinions and Orders.. Usually no later than the end of each month, a volume is issued containing the Opinions and Orders of the Board from the preceding month.

HARD COPIES OF BOARD OPINIONS AND ORDERS FOR FISCAL YEAR 1992 (July 1, 1991 through June 30, 1992) **ARE AVAILABLE FOR IMMEDIATE DELIVERY.** The cost is \$350.00 per set.

Two formats will be offered starting July 1 of this year (FY93): a hard paper copy for \$350.00 per year and an electronic version for \$275.00 per year. The electronic version will consist of Opinions and Orders in the WordPerfect 5.1 format on either 3.5" or 5.25" inch diskettes. The electronic format will allow for word searches and other useful tools provided by the WordPerfect software.

When ordering, please specify the choice of either the hard copy or electronic version. If ordering the electronic version, please specify 3.5" or 5.25" diskettes.

ILLINOIS LANDFILL REGULATIONS. Adopted in August, 1990, the Illinois landfill regulations are among the most advanced in the nation. The Board has made the text of the regulations and the supporting documents available on diskette (5.25"-1.2MB or 3.5"-1.44MB) in Wordperfect 5.1 format. The cost is \$100.00 per set. Contact Joe D'Alessandro, at the address below, for copies.

RULEMAKING UPDATE continued from page 1

On February 4, 1993, the Board denied a waiver of the Section 28.5 filing requirements because a misreading of a Board order "does not rise to the level of 'good cause'", as intended by Section 28.5(g). The Chicago Lung Association and the Illinois Chapter of the Sierra Club had requested the waiver because it had not presubmitted its hearing testimony at least 10 days before hearing, as required by the statute. The Lung Association and Sierra Club had submitted their testimony 10 days prior to the date set forth in a Board order for the last possible date for hearing (a Saturday), which was only nine days prior to the actual date for hearing (a Friday). The Board cited its long-standing practice of setting hearing dates by hearing officer order rather than by Board order and the fact that the Board order only set forth the last date allowed by law, rather than the actual hearing date. The Board stated that the Lung Association and Sierra Club could testify, despite the denial of pre-filing, as time allowed at the end of hearing.

After the public hearing of February 5, the hearing officer cancelled the third hearing after the Agency indicated it did not intend to present any additional material. That hearing was scheduled for February 19, in Chicago.

UIC UPDATE ADOPTED, R92-13

On February 4, 1993, the Board adopted a final opinion and order in the UIC Update, R92-13. This docket included amendments to the USEPA rules that appeared in the Federal Register between January 1 and June 30, 1992. This docket included the most recent corrections to USEPA's "third-third" land disposal restrictions. This included an exemption for injection of diluted hazardous waste, which is the subject of pending federal litigation, in *Chemical Waste Management v. USEPA* (D.C. Cir. 1992), 976 F.2d 2. This litigation may result in the repeal or modification of the federal restriction at 40 CFR 148.1(d), from which Illinois Section 738.101(d) derives. The Board added a Board note referencing the federal court decision, stating that the Board views any federal court decision on the effectiveness or enforceability of the USEPA rule as binding with regard to this subsection.

Although USEPA approved use of the water-brine interface mechanical integrity test during this period, no rule change resulted. Existing Section 730.108(d) provides for Agency approval of alternative tests of mechanical integrity. Anyone wanting to use the water-brine interface test in Illinois can apply to the Agency for approval. Therefore, Board action on this test was unnecessary.

The Board will not file the rules until after March 5, 1993, to allow time for post-adoption comments from the agencies involved in the authorization process. Direct questions to Morton Dorothy at 217-333-5575. (Please refer to docket R92-13.)

UST UPDATE DISMISSED, R93-5

On February 4, 1993, the Board dismissed R93-5, a Docket reserved for updating the UST (underground storage tank) rules. This update covered USEPA actions during the period July 1 through December 30, 1992. No USEPA actions requiring Board action occurred during that time. Therefore, the Board dismissed the docket. Direct questions to Morton Dorothy, at 217-333-5575. (Please refer to docket R93-5.)

UNO-VEN SITE-SPECIFIC RULEMAKING PETITION ACCEPTED, R93-8

On February 4, 1993, the Board accepted a petition filed by UNO-VEN for a site-specific rule. In the petition, UNO-VEN seeks to amend 35 Ill. Adm. Code 304.213 for its wastewater treatment at its Lemont refinery. The proposed changes would amend the existing ammonia nitrogen site-specific discharge limitations applicable to Union Oil as follows: 1) They would reflect the change in ownership of the refinery from Union Oil of California to UNO-VEN; 2) they would add a concentration-based limitation for ammonia nitrogen on a monthly basis; 3) they would require reporting on nitrogen in feedstock within 60 days after the end of the calendar year; and 4) they would extend the expiration date for the site-specific rule from December 31, 1993 until December 31, 2001. UNO-VEN currently discharges to the Chicago Sanitary and Ship Canal, a tributary of the Illinois River.

The hearing officer will set a hearing date in this matter. Direct questions to Diane O'Neill, at 312-814-6062. (Please refer to docket R93-8.)

FOR YOUR INFORMATION**UPCOMING PUBLIC AFFAIRS AWARD LECTURE**

A Public Affairs Award lecture titled "Odyssey of a Scientist" will be given by Dr. Walter C. McCrone at the March 19th meeting of the Chicago Section of the American Chemical Society. The lecture will highlight the use of the light microscope in the identification of various forms of asbestos, particles and fibers in air samples and materials from a variety of other environments. The techniques developed by Dr. McCrone have been adapted for use in environmental, forensic and industrial laboratories as well as museums.

The lecture will be presented at 8:00 p.m. at the Como Inn, 546 Milwaukee Ave., Chicago. For additional information, call Mr. Ron Sylotus, 708-647-8405.

UPCOMING ANNUAL ILLINOIS WASTEWATER OPERATORS CONFERENCE

The Illinois Association of Water Pollution Control Operators (IAWPCO) will hold its Annual Conference April 19-22, 1993 at the Holiday Inn East Exhibition and Convention Center, Springfield, Illinois. The 3½ day conference includes a 2½ day technical program and emphasis on wastewater treatment plant operations and maintenance, a first day wastewater treatment plant operation workshop, an equipment exhibition, a spouse's program, and the IAWPCO plant and operator-of-the-year awards.

For further information, contact Jeremiah F. Reynolds, Executive Director, IAWPCO, Box 230, North Aurora, Illinois 60542, or phone (708) 892-6429.

BOARD SCIENTIST AT ENVIRONMENTAL CONFERENCE

Board scientist LouAnn Burnett attended a conference entitled "Air and Waste Management Issues of 1993" on

January 28 and 29, 1993. The conference, held in Chicago and sponsored by the Lake Michigan States Section of the Air & Waste Management Association, considered such topics as pollution prevention, regional environmental issues, liability concerns, pending state and federal regulations, and environmental auditing. The speakers included state and federal regulators, practicing attorneys, consulting engineers, and Bob Kustra, Lt. Governor of Illinois.

CORRECTION

Issue number 464, dated February 3, 1993 listed the Final Actions and New Cases from the Board meeting of February 4, 1993. This should have read as January 21, 1993. Further, the listing omitted a new case, which is listed under New Cases in this issue.

FINAL ACTIONS - February 4, 1993 BOARD MEETING

- | | | | |
|--------|---|--------|--|
| 92-10 | <u>Kelly-Williamson Company v. IEPA</u> - The Board granted the agreed motion for dismissal of this underground storage tank fund reimbursement appeal involving an Ogle County facility. | 92-157 | <u>Greenville Airport Authority v. IEPA</u> - The Board affirmed the Agency's denial of reimbursement for remediation costs incurred by the petitioner for its Bond County facility in this underground storage tank reimbursement determination appeal. J. Theodore Meyer dissented. |
| 92-71 | <u>People of the State of Illinois v. The Valspar Corporation, a Delaware corporation</u> - The Board accepted the stipulation and settlement agreement, imposed a penalty of \$17,500, and ordered the respondent to cease and desist from future violations. J. Theodore Meyer dissented. | 92-182 | <u>Spectrulite Consortium v. IEPA</u> - The Board granted the petitioner's motion to withdraw its petition for an air variance for its Madison County facility. |
| 92-118 | <u>Ideal Heating Company v. IEPA</u> - The Board granted summary judgment in favor of the petitioner and directed the Agency to impose a \$10,000.00 deductible and pay \$2,275.00 in supplemental soil sampling and analytical costs in this underground storage tank reimbursement appeal involving a DuPage County facility. B. Forcade dissented. | 92-185 | <u>People of the State of Illinois v. Maple Park Oil Company, an Illinois partnership, and Robert C. Nelson, as partner</u> - The Board accepted the stipulation and settlement agreement imposed a penalty of \$1,500.00 on the respondent, and ordered the respondent to cease and desist from future violations. J. Theodore Meyer dissented. |
| 92-120 | <u>Amerock Corporation v. IEPA</u> - The Board found that immediate compliance with certain of the effluent standards would impose an arbitrary or unreasonable hardship on the petitioner and granted a variance from various of the water pollution control rules for its Winnebago County facility. | 93-20 | <u>Lawrence Brothers, Inc. v. IEPA</u> - Upon receipt of an Agency recommendation, the Board granted a provisional variance from the 90-day limitation on accumulation of hazardous wastes, allowing accumulation to continue at the petitioner's Whiteside County facility for an additional 30 days, until February 12, 1993. |
| 92-123 | <u>Chemrex, Incorporated v. IEPA</u> - The Board affirmed the Agency's denial of non-reimbursement for remediation costs incurred by Chemrex at its Cook County facility. | 93-21 | <u>Laclede Steel Company, Inc. v. IEPA</u> - Upon receipt of an Agency recommendation, the Board granted a provisional variance from the 90-day limitation on accumulation of hazardous wastes, allowing accumulation to continue at the petitioner's Madison County facility for an additional 30 days, until February 22, 1993. |
| 92-132 | <u>Leroy Brown & Sons, Inc. v. County Board of McDonough County, Illinois</u> - The Board found that the McDonough County Board lacked jurisdiction over this regional pollution control facility siting appeal and vacated the county's denial of siting approval. | 93-22 | <u>Masonite Corporation v. IEPA</u> - Upon receipt of an Agency recommendation, the Board grants a provisional variance from the 90-day limitation on accumulation of hazardous wastes, allowing accumulation to continue at the petitioner's |

DuPage County facility for an additional 30 days, until February 13, 1993.

AC92-37(B)Sangamon County v. Gerald B. Miller - The Board, having imposed a fine of \$500.00 by its order of December 17, 1992, assessed hearing costs of \$952.25 against the respon-

dent. J. Theodore Meyer dissented.

AS 91-3 In the Matter of: Petition of Peoria Disposal Co. for an Adjusted Standard from 35 Ill. Adm. Code 721. Subpart D - The Board granted the petitioner an adjusted standard that has the effect of delisting a hazardous waste generated at the petitioner's Peoria County facility. The Board will adopt a supporting opinion at a later date.

R92-3 In the Matter of: Safe Drinking Water Act Update, Phase IIB and Lead and Copper Rules (6/1/91 - 12/31/91) - See Rulemaking Update. B. Forcade concurred.

R92-13 In the Matter of: UIC Update, USEPA Regulations (1/1/92 - 6/30/92) - See Rulemaking Update.

R93-5 In the Matter of: UST Update USEPA Regulations (7/1/92 - 12/31/92) - See Rulemaking Update.

NEW CASES - January 21, 1993 BOARD MEETING (Correction)

93-12 H & H Towing - Phillips 66 v. IEPA - The Board accepted this underground storage tank reimbursement determination appeal for hearing involving a Lake County facility.

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
 DIVISION OF WATER POLLUTION CONTROL
 RESTRICTED STATUS LIST

In order to comply with 35 Illinois Administrative Code Section 306.401 Illinois Pollution Control Board Regulations, the Illinois EPA has prepared the following list of facilities which are on Restricted Status. Restricted Status is defined as the Agency determination that a sewer or lift station has reached hydraulic capacity or that a sewage treatment plant has reached design capacity, such that additional sewer connection permits may no longer be issued without causing a violation of the Act or Regulations. Please note that the list is continually being revised to reflect the current situation. Therefore, if you have any questions on the capability of a treatment facility or transport system, please contact this Agency for a final determination. This listing reflects the status as of December 31, 1992.

Facility names followed by an asterisk (*) indicates that construction is underway to ultimately alleviate problems which resulted in imposition of Restricted Status. Facilities followed by a double asterisk (**) are additions to the list.

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
 DIVISION OF WATER POLLUTION CONTROL
 CRITICAL REVIEW LIST

In order to comply with 35 Illinois Administrative Code Section 306.401, Illinois Pollution Control Board Regulations, the Illinois Environmental Protection Agency has prepared the following list of facilities which are on Critical Review. Critical Review as defined as the Agency determination that a sewer or lift station is approaching hydraulic capacity or that a sewage treatment plant is approaching design capacity such that additional sewer connection permit applications will require close scrutiny to determine whether issuance would result in a violation of the Act or Regulations. Please note that these lists are continually being revised to reflect the current situation. Therefore, if you have any questions on the capability of a treatment facility or transport system, please contact the Agency for a final determination. This listing reflects the status as of December 31, 1992.

Facility names followed by a double asterisk are additions to the list.
