No. 476

November 3, 1993

NEW LEGISLATIVE LIAISON JOINS THE BOARD STAFF

The Board proudly welcomes John A. Cross to the staff as our new legislative liaison. John comes to the Board with over eight years of experience as a legislative analyst for the House of Representatives Research and Appropriations Staff. He will be responsible for tracking environmental legislation and drafting proposed bills and legislative amendments. As the legislative liaison, he will also be the Board's point person for constituent and Board member inquiries. Most importantly, John will interface with the Board's sister environmental agencies, the various industry associations, and public interest groups on legislative matters and in the context of advisory committees for proposed rulemaking.

LEGISLATIVE LIAISON continued on page 3.

THE BOARD BIDS A FOND FAREWELL TO MEMBER FORCADE

Board Member Bill S. Forcade announced his resignation from the Board effective November 1, 1993. He was a member of the Board for nearly 10 years. See **FOR YOUR INFORMATION** for more details.

BOARD MEMBERS AND STAFF ATTEND ANNUAL IEC CONFERENCE; CHAIRMAN MANNING SPEAKS AT BPI AND PETROLEUM INDUSTRY SEMINARS

Chairman Claire A. Manning, Board Members Ronald C. Flemal and G. Tanner Girard, and former Member Bill S. Forcade attended the Illinois Environmental Council's (IEC's) 19th Annual Conference in Springfield at Sangamon State University on October 16, 1993. Members of Board staff also attended this conference: our new legislative liaison, John Cross; attorneys Chuck Feinen, Musette Vogel and Marie Tipsord; and Chief Hearing Officer, Phil Van Ness.

ANNUAL IEC CONFERENCE continued on page 3

INFORMATION SERVICES AVAILABLE FROM THE BOARD

See the inside of this page for details on informational items available from the Board. These items include a subscription service for Board opinions and orders and copies of the landfill regulations in electronic format.

The Board also maintains an electronic Bulletin Board System (BBS) at 312-814-1590. There is no charge for access to the BBS. See the inside of this page for details.

RULEMAKING UPDATE

CORRECTIONS TO THE NEW SOURCE REVIEW RULES PROPOSED FOR FIRST NOTICE, R93-26

On October 7, 1993, the Board opened a docket to amend the new source review rules, a segment of the Illinois air pollution control permit regulations. The proposed amendments would correct a typographical error made in an earlier proceeding.

The Board adopted the new source review rules on April 22, 1993, in docket R92-21. (See issue 470, May 19, 1993.) The Agency filed a motion, on October 1, 1993, praying that the Board request a Certification of Correction to the adopted rules from the Joint Committee on Administrative Rules. The Agency stated that the failure to properly underline and strikeout text in its original proposal resulted in an error in Section 203.209(a)(4): emissions of particulate matter are significant if they exceed 25 tons per year (tpy), rather than 15 tpy. The Illinois Steel Group, a trade

association, challenged the Agency's motion, stating that the error was substantive in nature, and that it deprived the public of the opportunity to comment on the intended change.

NEW SOURCE REVIEW continued on page 4

**ENVIRONMENTAL INFORMATION SERVICES
AVAILABLE FROM THE BOARD**

The Board has the following information available:

POLLUTION CONTROL BOARD ELECTRONIC BULLETIN BOARD SYSTEM (BBS). The Pollution Control Board operates an electronic BBS at 312-814-1590. The BBS is available 24 hours a day, 7 days a week, to anyone with access to a computer and a modem - there is no charge for access to the BBS. The best communications settings are 8 data bits (or data length 8), no parity (or parity = none) and 1 stop bit, i.e., 8-N-1. The best terminal emulation is ANSI-BBS or just ANSI. The BBS contains Board Agendas, Environmental Registers, Annual Reports, and various documents about the Board. You may download these documents to your computer. For additional information contact the Board Offices 312-814-3620.

SUBSCRIPTION SERVICE OF BOARD OPINIONS AND ORDERS. The subscription service comprises all the Opinions and Orders issued by the Pollution Control Board in a fiscal year (July 1 through June 30). The Board meets approximately twice monthly in order to issue Opinions and Orders.. Usually no later than the end of each month, a volume is issued containing the Opinions and Orders of the Board from the preceding month.

HARD COPIES OF BOARD OPINIONS AND ORDERS FOR FISCAL YEAR 1992 (July 1, 1991 through June 30, 1992) **ARE AVAILABLE FOR IMMEDIATE DELIVERY.** The cost is \$350.00 per set.

Two formats will be offered starting July 1 of this year (FY93): a hard paper copy for \$350.00 per year and an electronic version for \$275.00 per year. The electronic version will consist of Opinions and Orders in the WordPerfect 5.1 format on either 3.5" or 5.25" inch diskettes. The electronic format will allow for word searches and other useful tools provided by the WordPerfect software.

When ordering, please specify the choice of either the hard copy or electronic version. If ordering the electronic version, please specify 3.5" or 5.25" diskettes.

SUBSCRIPTION SERVICE FOR BOARD OPINIONS AND ORDERS

Enclosed is a check in the amount of _____ made payable to the Illinois Pollution Control Board for the subscription service to the Board's opinions and orders.

Name _____ Fiscal Year Ordered _____

(FY92 available in hard copy only).

Address _____

City/State/Zip _____ Hard Copy _____

Hard Copy Cost per FY: \$350.00

Electronic Copy _____

Electronic Copy Cost for FY93: \$275.00

Disk Size _____

Please send to:(5.25" 1.2 MB or 3.5" 1.44 MB)

Joseph D'Alessandro

Illinois Pollution Control Board

100 W. Randolph St., Ste. 11-500

Chicago, IL 60601

COPIES OF ILLINOIS LANDFILL REGULATIONS AND SUPPORTING DOCUMENTS
AVAILABLE ON DISKETTE

Copies of the Illinois landfill regulations and supporting documents are available on diskette. This consists of the Board's landfill regulations and other supporting background documentation. This is offered only in an electronic version which consists of WordPerfect 5.1, on either 3.5" or 5.25" inch diskettes. The electronic format will allow for word searches and other useful tools provided by the WordPerfect software. The cost is \$100.00.

When ordering, please specify the choice of either the 3.5" or 5.25" diskettes.

DISKETTE SET FOR NONHAZARDOUS WASTE LANDFILL REGULATIONS

Enclosed is a check in the amount of \$_____ made payable to the Illinois Pollution Control Board for purchase of _____ set(s) of diskettes at \$100.00 per set.

Send Order to:Size of Diskette:

Name _____ 5.25" (1.2 MB) _____
 Address _____ 3.5" (1.44 MB) _____
 _____ Number of orders _____

Please send to:

LEGISLATIVE LIAISON continued from page 1.

While with the House Staff, John garnered significant experience in the environmental issues facing Illinois. For the last four years he staffed the House Energy and Environment committee, serving as the staff person for several major environmental initiatives: HB 300, the comprehensive rewrite of Illinois' underground storage tank program and RCRA Subtitle D amendments; Employee Commute Options; the 1992 Clean Air Act Permit Program; the 1990 hazardous waste cleanup/chemical storage tax proposal; the Lake Calumet Airport proposal; and the Kerr-McGee West Chicago Thorium Disposal Site bill. He also staffed the Transportation and Motor Vehicles Committee from 1985 to 1989 where he worked on the 1987 and 1989 gas tax proposals, and all Regional Transit Authority matters.

John has completed graduate work in Public Administration at the University of Illinois, Champaign-Urbana and has a B.S. in Political Science and Business Administration from Illinois College (1982). While in school, John also was a research assistant with the Institute of Government and Public Affairs for the University of Illinois, and he served as a Michael Curry Intern for the Illinois Department of Transportation.

John is on staff with the Board's Springfield Office, located at 600 South Second Street, Suite 402, Springfield, Illinois, 62704. He can be reached at the office's main number, 217-524-8500, or on his direct line, 217-524-8504.

ANNUAL IEC CONFERENCE continued from page 1

The conference was an all-day event featuring a panel discussion in the morning on the Great Flood of 1993 with guest speakers Allen Grosboll, Executive Assistant to the Governor and flood relief coordinator; Paul Hansen, Director of the Izaak Walton League Midwest Office; Bruce Hannon, Department of Geography, University of Illinois; Owen Dutt,

Chief of Planning of the St. Louis District Army Corps of Engineers; and Michael Platt, Executive Director Heartland Water Resources Council. The panelists gave brief speeches on their experience coordinating the flood relief efforts for our state and fielded questions from the audience. Some of the issues covered were whether there is need to rebuild the levees along the Mississippi River, in the short term and the long term; the amount of rainfall versus the flow rates of the Mississippi River; the Governor's proposed land credit program for exchanging federal set-aside land for flood plain farm land; and the merits of allocating federal and state dollars to Illinois' outright purchasing of homes, businesses, and farmland in the flood plains.

In the afternoon, the conference offered break-out sessions on a variety of topics. One was entitled "Conservation Congress & Land and Water Task Force: What Action?" The panelists were Brent Manning, Director, Illinois Department of Conservation; Rebecca Doyle, Director, Illinois Department of Agriculture; Mitch Beaver, Director, Department of Energy and Natural Resources; and Don Vonnahme, Director, Division of Water Resources, Illinois Department of Transportation. Other workshops were on environmental streetfighting, biodiversity in Illinois, and pesticides in Illinois.

In addition to the IEC Conference, Board members and staff attended the Business and Professional Institute's (BPI's) October 21st seminar at the College of DuPage entitled "Surviving Regulations: An Employer's Guide to OSHA and EPA Compliance". Chairman Manning delivered the opening remarks. Board attorney Charles Feinen attended the seminar.

On October 28, the Illinois Petroleum Marketer's Association (IPMA) and the Illinois Petroleum Council (IPC) co-sponsored a program on implementation of Illinois' new underground storage tank legislation, P.A. 88-496 (*see issue 475, Oct. 6 1993*) by the Environmental Protection Agency and Office of State Fire Marshal. Chairman Manning gave the welcoming remarks to over 700 people at the all-day event held in the Rosemont Convention Center. The seminar was a unique opportunity for engineers, attorneys, and businesses in the petroleum industry to ask the Office of the State Fire Marshall (OSFM) and the Illinois EPA (Agency) direct questions about how they intend to implement and administer the comprehensive new provisions on corrective action at leaking UST sites and accessing the UST Fund. Speakers from the Agency included Harry Chappel, Todd Rao, Angela Tin, John Steller, and Ken Page. From the OSFM, Office of Chemical Safety, Jim McCaslin, his administrative assistant, Jim Boone, and various field staff spoke. In addition to Chairman Manning's participation as a speaker, Board attorneys, Chuck Feinen and Musette Vogel, and technical staff member, Anand Rao, also attended.

Two additional IPMA-IPC UST implementation seminars are planned for November. The first is scheduled for November 4th, in Springfield, at Sangamon State University, and the second is scheduled for November 16th, in Mt. Vernon. Chairman Manning has been invited to give the welcoming remarks at both of these seminars and will do so at the Mt. Vernon date. Ms. Vogel will speak on her behalf in Springfield due to the Board's previously-scheduled November 4th Board Meeting in Chicago. Call 217-544-4609 (IPMA) for further information.

Board Members or staff will be speaking at other upcoming environmental seminars. The first is the Northern Illinois University College of Law environmental workshop, entitled "Environmental Law in the 90s: A Practice Workshop", at 2:30, November 11th, in Hoffman Estates. In addition to overviews on liability for hazardous and regulated substances, environmental insurance claims and coverage, and the new UST provisions of P.A. 88-496, the seminar features technical overviews for the environmental practitioner on human toxicology and geology and hazardous substances. Attorney-assistant to Board Member Flemal, Michelle Dresdow, will speak on rule-making, variances, adjusted standards, permits and permit appeals and enforcement before the Board. For more information, call 800-345-9472.

The second upcoming seminar is an Executive Enterprises environmental regulation course, at the KPMG Quality Institute on 205 North Michigan in Chicago, on December 1st through the 3rd. Board Member Flemal will be one of the guest faculty members of this course. The course will offer in-house training on the federal environmental statutory and regulatory scheme, in addition to overviews on the federal Clean Air Act Amendments (CAAA), the Clean Water Act (CWA), the Resources Conservation and Recovery Act (RCRA), reporting under the Comprehensive Environmental Recovery, Compensation and Liability Act (CERCLA), the Employee Protection and Community Right-to-Know Act (EPCRA), the Toxic Substances Control Act (TSCA), UST liability, compliance audits, regulation of PCBs under TSCA, the Occupational Safety and Health Act (OSHA), and enforcement. For more information, call 800-831-8333.

NEW SOURCE REVIEW continued from page 1

Although the Board agreed with the Agency that the error must be corrected as soon as possible, it did not want to appear to make a substantive amendment using the expedited correction process of Section 5-85 of the

Administrative Procedure Act. For this reason, the Board chose to open a new docket under Section 28.2 of the Environmental Protection Act. The Board will schedule the hearings in this matter to coincide with those in another

Clean Air Act Amendments proceeding, R93-24.

The hearing will be held at the Capitol Building, Room 400, Springfield, Illinois, and will begin at 10:00 a.m. The Board has scheduled the following hearing date:

Wednesday, December 8, 1993

Direct questions to Marie E. Tipsord, at 312-814-4925 or 618-498-9803. (Please refer to docket R93-26.)

SMALLER SOURCE REVIEW RULEMAKING PROPOSED FOR SECOND NOTICE, R93-11

On October 7, 1993, the Board proposed for Second Notice certain amendments to Parts 201 and 211 of the air pollution control regulations. The proposed amendments would extend the applicability of the air rules to include smaller sources emitting as little as 25 tons per year of pollutants. The proposed amendments would add new Subpart E to Part 201 and Section 211.5500 to Part 211 of the Illinois air pollution control regulations.

The Agency filed the proposal on April 2, 1993. In accepting the proposal by an order dated April 6, 1993, the Board noted that it would not be able to meet the March 31, 1993 statutory deadline for adoption of these amendments. (*See issue 469, Apr. 21, 1993.*) The Board proposed these amendments for First Notice on July 22, 1993 (*see issue 473, Aug. 4, 1993*), and the Notice of Proposed Amendments appeared in the August 13, 1993 *Illinois Register*. The Board held public hearings in this matter on May 25, 1993, in Chicago, and on May 26, 1993, in DeKalb. For further information contact Michelle C. Dresdow, at 815-753-0947. (Please refer to docket R93-11.)

FIRST NOTICE AMENDMENTS PROPOSED FOR MARATHON OIL COMPANY SITE-SPECIFIC RULE, R91-23

On October 7, 1993, the Board proposed site-specific amendments to the water pollution control regulations for First Notice. Those proposed amendments would change the existing site-specific limitations on Marathon Oil Company's discharges to an unnamed tributary to Sugar Creek (in the Wabash River basin). The effluent limitation for chlorides would increase from 700 mg/l to 1000 mg/l, and the stream water quality standard for chlorides would increase from 550 mg/l to 750 mg/l. The effluent limitation and the stream water quality standard for total dissolved solids would remain unchanged by the proposed amendments. Direct questions to Michelle C. Dresdow, at 815-753-0947. (Please refer to docket R91-23.)

PETITION TO AMEND GROUNDWATER QUALITY STANDARDS RECEIVED, R93-27

The Agency filed a petition to amend the Illinois groundwater quality standards on October 18, 1993. The petition would amend Part 620 of the Illinois public water supply regulations to add groundwater quality standards for several contaminants and amend those for several others, so that the Illinois groundwater quality standards would incorporate those constituents from the federal Safe Drinking Water Act regulations that are found in Illinois drinking water. The Board held the petition at its October 21, 1993 meeting before taking further action. Direct questions to Michelle C. Dresdow, at 815-753-0947. (Please refer to docket R93-27.)

NEW PROCEEDING OPENED TO REPEAL STAGE II VAPOR RECOVERY RULES FOR THE METRO-EAST AREA, R93-28

The Agency filed a rulemaking petition on October 21, 1993 to repeal the Stage II gasoline vapor recovery regulations that apply to the metropolitan East St. Louis area. The proposal would repeal Section 219.586 of the Illinois air pollution control regulations, which would have required certain gasoline dispensing facilities (service stations) in the Metro-East area (Madison, Monroe, and St. Clair Counties) to install and operate equipment for the recovery of gasoline vapors during fuel dispensing starting May 1, 1993, others service stations were to have complied by November 1, 1993. An emergency rule adopted in R93-12, on May 20, 1993, effective May 23, 1993, delayed the May 1 effective date until October 15, 1993. (*See issue 471, June 16, 1993.*) By an order dated October 21, 1993, the Board agreed to give this matter expedited consideration. Direct questions to Michelle C. Dresdow, at 815-753-0947. (Please refer to docket R93-28.)

HEARING SET FOR STEEL AND FOUNDRY INDUSTRY LANDFILL AMENDMENTS, R90-26

The Board has scheduled an additional hearing for the steel and foundry industry-proposed amendments to the landfill regulations. The date, time and location are as follows:

Friday, November 19, 1993, 10:00 a.m.
J.R. Thompson Center, Room 9-040
100 West Randolph Street
Chicago, Illinois

The hearing officer has provided for pre-filed testimony and exhibits. Direct questions to Kathleen M. Crowley, at 312-814-6929. (Please refer to docket R90-26.)

FOR YOUR INFORMATION

THE BOARD WISHES MEMBER FORCADE WELL AS HE ACCEPTS A POSITION IN THE PRIVATE SECTOR

Board Member Bill S. Forcade announced his resignation from the Board effective November 1, 1993. Mr. Forcade has joined the law firm of Jenner & Block as a partner in its Chicago office. He will practice in the area of environmental law.

Mr. Forcade had been a Member of the Board since 1983. Aside from authoring several important Board opinions, Mr. Forcade contributed significantly to the Board. He furthered the Board's interests by his frequent participation in environmental seminars and conferences as a speaker and proponent. Bill recently initiated an electronic bulletin board system (BBS) for more rapid and widespread dissemination of information about the Board. He was also recently instrumental in the assembly of a set of public information leaflets on various aspects of Board operations.

Prior to his appointment to the Board, Mr. Forcade was General Counsel to Citizens for a Better Environment, a non-profit public interest group concerned with environmental matters. He was also Chairman of the Chicago Bar Association Committee on Science, Technology and the Law and was a part-time instructor at Northeastern Illinois University, teaching courses on environmental impact statements and environmental legislation and lobbying in the graduate school. Before his appointment, Mr. Forcade worked as an attorney for the Board.

Mr. Forcade received his Bachelor of Science degree in chemistry and biology from the University of Illinois at Chicago in 1971. He received his Juris Doctor from the John Marshall Law School, also in Chicago, in 1976.

The Board and its staff will surely miss Member Bill Forcade. The Board wishes him well in his new endeavors.

RESTRICTED STATUS AND CRITICAL REVIEW LISTS FOR SEWAGE TREATMENT IN THIS ISSUE

The Illinois Environmental Protection Agency, Division of Water Pollution Control, is publishing copies of the Division's Restricted Status and Critical Review lists at the end of this issue of the Environmental Register. These lists reflect the status as of September 30, 1993.

BOARD DENIES ILLINOIS POWER COMPANY AN ADJUSTED STANDARD FROM CERTAIN WATER QUALITY STANDARDS IN THE MIDDLE FORK OF THE VERMILION RIVER

On October 7, 1993, in *In re Petition of Illinois Power Co. (Vermilion Power Station) for an Adjusted Standard from 35 Ill. Adm. Code 302.208(e), AS 92-7*, the Board denied an adjusted standard from the in-stream water quality standards for boron, sulfates, and total dissolved solids. The Board held that the petitioner had failed to present adequate proof to justify its

request for the adjusted standard. Essentially, the Board rejected assertions that the continued high quality of the receiving stream after several years of discharge at the desired levels of pollutants was sufficient justification for the requested relief. Rather, the Board looked to whether the petitioner had proven that "substantially and significantly different factors" applied to its discharge than those considered in the rulemaking proceeding that established the standards involved.

The Illinois Power Company has operated a coal-fired steam electric generating station north of Oakwood, Illinois, adjacent to the Middle Fork of the Vermilion River, since 1955. The facility has an ash pond system, the outfalls of which have discharged to the Middle Fork. In periods of low stream-flows, the discharges cause or contribute to violation of the general use water quality standards for boron, sulfate, and total dissolved solids. The Middle Fork is a Class A stream, a State Protected River, and a federal "scenic river". The river and its adjoining lands are the habitats for various aquatic and terrestrial species, including some rare and endangered species.

The Illinois Power Company investigated several alternatives for compliance, and finally opted to seek an adjusted standard, filing its petition on July 1, 1992. The Sierra Club and the Committee on the Middle Fork of the Vermilion River filed objections and requests for hearing in July, 1992. The Agency submitted its recommendation on August 7, 1992 and November 20, 1992, recommending a modified adjusted standard from that sought. The Illinois Power Company ultimately concurred in the Agency's modifications. The proposed adjusted standard, as modified, would have imposed water quality standards of 9.2 mg/l for boron, 800 mg/l for sulfate, and 1,400 mg/l for total dissolved solids. The existing applicable water quality standards are 1.0 mg/l, 500 mg/l, and 1,000 mg/l, respectively. The Illinois Department of Conservation submitted a letter in support of the proposed adjusted standard in August, 1992.

The Illinois Power Company presented a record that indicated the adjusted standard sought would make no change in the discharges as they have occurred, and hence, the stream water quality, since operations began in 1955. The company indicated that no known mortality or other effects have occurred in the aquatic community during this time, that there is no authorized use of the stream water for agricultural irrigation, that there is no use of the water as a potable water source, and that there is no impact on human health through recreational use of the stream. The power company argued that the record it presented indicated no support for the Board-established water quality standards for the three contaminants.

The Sierra Club and the Committee on the Middle Fork of the Vermilion River argued that the Illinois Power Company based its conclusions on incomplete and unreliable data. It asserted that the company could comply at a nominal cost per customer. It claimed that adjusted standards are appropriate only where the stream involved is more polluted and less ecologically diverse than those considered by the Board in promulgating the general use water quality standards, so an adjusted standard was inappropriate for the Middle Fork due to the greater diversity and presence of endangered species.

The Board focused on the statutorily-prescribed factors for issuance of an adjusted standard from Section 28.1 of the Act and concluded that the Illinois Power Company had failed to justify an adjusted standard by these factors. First, the utility failed to show how the burden of compliance imposed on it was different from that borne by other, similar utilities. The Board rejected the argument that the fact that the stream was still pure after many years of discharge was sufficient justification. Second, the company had failed to show that no environmental harm more adverse than that considered in the rulemaking would result. Further, the Board stated that the fact that a stream is not used in a certain way is not persuasive, since the Board did not wish to foreclose such future use.

Third, the Board observed from the record that compliance with the general use standards was technically possible. The Board rejected the argument that an adjusted standard was justified based on the costs of compliance just because the record might indicate no environmental benefits to be derived through compliance with the general rule.

Finally, the Board concluded that granting the requested adjusted standard would violate federal (and state) anti-backsliding provisions. The Board noted that the high quality of the Middle Fork and its federal- and state-protected status warranted special consideration. The Board noted that the record indicated that at no time in the past--even in periods of low flow--did the levels of

contaminants in the stream go as high as those requested. The Board felt that the proposed adjusted standard would have represented a degradation of stream water quality.

Correction:

The Article entitled, "*U.S. EPA Extends the Deadline for Compliance with Its Subtitle D Regulations in Illinois for Six Months*", in issue 475, Oct. 6, 1993, stated on page 3 that the federal Subtitle D landfill program will require certain on-site industrial landfills, formerly exempted, to have a permit for the first time in Illinois. This should have more accurately stated that the program will require that formerly exempted on-site "municipal solid waste landfills" must have a permit.

FINAL ACTIONS - October 7, 1993 BOARD MEETING

- | | | | |
|--------|---|----------|---|
| 91-173 | <u>Marathon Oil Company v. EPA</u> - In this matter on remand from the fifth district appellate court, the Board granted this Crawford County facility a variance from certain of the water pollution control requirements. | AC 93-22 | <u>IEPA v. Saline County Landfill, Inc., David Fitzpatrick and John O. Fitzpatrick</u> - The Board entered a default order finding the respondents had violated Sections 21(o)(5) and 21(o)(12) of the Act at its Saline County facility and ordered the respondents to pay a civil penalty of \$1,000.00 within 30 days of the date of this order. |
| 93-114 | <u>Leonard Carmichael v. Browning-Ferris Industries of Illinois, Inc. and Ogle County Board, for and on Behalf of the County of Ogle, State of Illinois</u> - The Board vacated the County of Ogle's decision granting siting approval to Browning-Ferris on the grounds that the County lacked jurisdiction. | AC 93-29 | <u>County of Jackson v. Patrick Cheak</u> - The Board granted county's motion to dismiss this administrative citation filed against the Jackson County respondent. |
| 93-180 | <u>Browning-Ferris Industries v. EPA</u> - Upon receipt of an Agency recommendation, the Board granted the petitioner a provisional variance that extends the hazardous waste accumulation time for 30 days at its Ogle County facility. | AC 93-36 | <u>IEPA v. Royanne Grooms and Randy Rowe</u> - The Board entered a default order finding the respondents had violated Section 21(p)(1) of the Act at their Saline County facility and ordered the respondents to pay a civil penalty of \$500.00 within 30 days of the date of this order. |
| 93-181 | <u>Amoco Oil Company v. EPA</u> - Upon receipt of an Agency recommendation, the Board granted the petitioner a provisional variance that extends the hazardous waste accumulation time for 4 days at its Tazewell County facility. | AC 93-38 | <u>County of Christian v. Waste Management, Inc., d/b/a Five Oaks RDF</u> - The Board entered a default order finding the respondent had violated Section 21(o)(5) of the Act at its Christian County facility and ordered the respondents to pay a civil |

- penalty of \$500.00 within 30 days of the date of this order.
- AS 92-7 In the Matter of: Petition of Illinois Power Company (Vermilion Power Station for Adjusted Standard From 35 Ill. Adm. Code 302.208(e) - The Board denied Illinois Power's request for an adjusted standard for its Vermilion Power Station in Vermilion County from certain of the general use water quality standards.
- AS 92-14 In the Matter of: Joint Petition of Quantum Chemical Corporation, USI Division and the Illinois Environmental Protection Agency for an Adjusted Standard from Parts of 35 Ill. Adm. Code 218.966 and 218.986 - The Board granted Quantum Chemical an adjusted standard from certain of the volatile organic
- emissions control requirements otherwise applicable to Quantum's facility located in Aux Sable Township, Grundy County.

NEW CASES - October 7, 1993 BOARD MEETING

- 93-147 Village of Grantfork v. EPA - The Board accepted the amended petition for a variance from certain of the public water supplies regulations involving a Madison County facility and held it for the Agency's recommendation.
- 93-161 Joseph A. Schrantz, Charles Hulihan, Frank Owoc, and Elizabeth Stearns v. Village of Villa Park, DuPage County Division of Transportation, Villa Park Rotary Club, Kiwanis Club, and Masonic Lodge - The Board held this citizens' noise enforcement action against a DuPage County facility for a frivolous and duplicitous determination.
- 93-171 Leo G. Fore et al. v. Midstate Kart Club - The Board requested additional information and held this citizens' noise enforcement action against a Sangamon County facility for a frivolous and duplicitous determination.
- 93-177 SuperAmerica Group, Inc. v. EPA - The Board accepted this underground storage tank reimbursement determination appeal involving a Knox County facility for hearing.
- 93-178 General Chemical Corporation (Chemical Manufacturing Plant) v. EPA - The Board requested an amended petition in this air variance proceeding involving a St. Clair County facility.
- 93-179 IBP, inc. v. EPA - The Board requested an amended petition in this NPDES permit appeal involving IBP's facility in Joslin, Henry County.
- 93-180 Browning-Ferris Industries v. EPA - ***See Final Actions.***
- 93-181 Amoco Oil Company v. EPA - ***See Final Actions.***
- 93-182 People of the State of Illinois v. Hybrid Service Company - Upon receipt of a proposed stipulation and settlement agreement, and an agreed motion to request relief from the hearing requirement, in this air enforcement action against a LaSalle County facility, the Board ordered publication of the required newspaper notice.
- 93-183 Edgewater Beach Apartments Corp. v. EPA - The Board requested an amended petition in this underground storage tank reimbursement determination appeal involving a Cook County facility.
- R93-26 In the Matter of: Amendments to the New Source Review Rules, 35 Ill. Adm. Code 203 - ***See Rulemaking Update.***

FINAL ACTIONS - October 21, 1993 BOARD MEETING

- 91-84 Indian Refining Limited Partnership and Indian Refining Company v. EPA - The Board granted voluntary withdrawal of this RCRA permit appeal involving a Lawrence County facility.
- 91-157 People of the State of Illinois v. The Grigoleit Company - The Board accepted a stipulation and settlement agreement filed by the parties in this land enforcement action against a Macon County facility, ordered the respondent to pay a civil penalty of \$20,000, and ordered the respondent to cease and desist from further violation.
- 92-90 The Robertson-Ceco Corporation v. EPA - The Board denied this RCRA land variance from a Board order in a prior RCRA permit appeal, PCB 86-180, involving a Cook County facility.
- 92-208 Safety-Kleen Corporation (Dolton Recycle Center) v. EPA - The Board granted voluntary withdrawal of this RCRA permit appeal involving a Cook County facility.
- 93-2 Jay Aguilar v. Venus Laboratories, Inc. - The Board granted complainant's motion to voluntarily dismiss this citizen's land enforcement complaint involving a DuPage County facility.
- 93-74 M. S. Carver Lumber Company v. EPA - The Board granted voluntary dismissal of this underground storage tank reimbursement determination appeal involving a Peoria County facility.
- 93-108 Fiatallis North America, Inc. v. EPA - The Board reversed the Agency's final determination in this underground storage tank reimbursement determination appeal involving a Sangamon County facility and remanded it back to the Agency.
- 93-157 People of the State of Illinois v. Lisle Park District, and R.L. Smith Construction, Inc. - The Board accepted a stipulation and settlement agreement filed by the parties in this land enforcement action against a DuPage County facility, ordered the respondent to pay a civil penalty of \$3,000, and ordered the respondent to cease and desist from further violation.
- 93-194 City of Monmouth v. EPA - Upon receipt of an Agency recommendation, the Board granted the petitioner a provisional variance that extends the hazardous waste accumulation time for 14 days at its Warren County facility.
- AC 92-33 St. Clair County v. James Alexander, President, Alexander Development Co., Inc. - The Board entered an order directing the respondent to pay hearing costs of \$558.99

- within 30 days.
- AC 92-79 Sangamon County v. Lee Hsueh - The Board entered an order directing the respondent to pay hearing costs of \$1304.25 within 30 days.
- AC 93-13 County of Will v. Arthur Hammel - The Board granted a joint motion to dismiss this administrative citation filed against a Will County respondent.
- AS 91-12 Petition of the Illinois American Water Company for an Adjusted Standard from 35 Ill. Adm. Code 304.124 (Iron and TSS only) for the Water Company's Cairo Public Water Supply Facility - The Board granted the joint motion to voluntarily dismiss this petition involving an Alexander County facility for an adjusted standard from certain of the wastewater effluent limitations.
- AS 93-6 Petition of the City of Sycamore for Adjusted Standard from 35 Ill. Adm. Code Sections 306.305(b) and 304.121 - The Board dismissed this petition for an adjusted standard involving a DeKalb County facility from certain of the wastewater treatment requirements.

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
 DIVISION OF WATER POLLUTION CONTROL
 RESTRICTED STATUS LIST

In order to comply with 35 Illinois Administrative Code Section 306.401 Illinois Pollution Control Board Regulations, the Illinois EPA has prepared the following list of facilities which are on Restricted Status. Restricted Status is defined as the Agency determination that a sewer or lift station has reached hydraulic capacity or that a sewage treatment plant has reached design capacity, such that additional sewer connection permits may no longer be issued without causing a violation of the Act or Regulations. Please note that the list is continually being revised to reflect the current situation. Therefore, if you have any questions on the capability of a treatment facility or transport system, please contact this Agency for a final determination. This listing reflects the status as of September 30, 1993.

Facility names followed by an asterisk (*) indicates that construction is underway to ultimately alleviate problems which resulted in imposition of Restricted Status. Facilities followed by a double asterisk (**) are additions to the list.

<u>FACILITY NAME</u>	<u>RESPONSIBLE AUTHORITY</u>	<u>COUNTY</u>	<u>REMAINING CAPACITY</u>

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
 DIVISION OF WATER POLLUTION CONTROL
 CRITICAL REVIEW LIST

In order to comply with 35 Illinois Administrative Code Section 306.401, Illinois Pollution Control Board Regulations, the Illinois Environmental Protection Agency has prepared the following list of facilities which are on Critical Review. Critical Review as defined as the Agency determination that a sewer or lift station is approaching hydraulic capacity or that a sewage treatment plant is approaching design capacity such that additional sewer connection permit applications will require close scrutiny to determine whether issuance would result in a violation of the Act or Regulations. Please note that these lists are continually being revised to reflect the current situation. Therefore, if you have any questions on the capability of a treatment facility or transport system, please contact the Agency for a final determination. This listing reflects the status as of September 30, 1993.

Facility names followed by a double asterisk are additions to the list.

The Illinois Pollution Control Board is an independent seven member board which adopts the environmental control standards for the State of Illinois and rules on enforcement actions and other environmental disputes. The Board Members are:

Claire A. Manning, Chairman
Springfield, Illinois

Joan G. Anderson
Western Springs, Illinois

Ronald C. Flemal
DeKalb, Illinois

G. Tanner Girard
Grafton, Illinois

J. Theodore Meyer
Chicago, Illinois

Michael L. Nardulli
Chicago, Illinois

(Vacant Seat)

The Environmental Register is a newsletter published by the Board after every Board meeting. The Register provides updates on rulemakings and other information, lists final actions, and contains the Board's hearing calendar. The Register is provided free of charge.
