

## **Board Proposes Non-Substantive Amendments to Public Water Supply Rules**

On June 17, 2021, the Board proposed—for public comment—amendments to Illinois’ public water supply rules. These non-substantive amendments are part of a larger undertaking by the Board to update its rules across multiple media and subject areas. The proposed amendments will remove unnecessary language, replace outdated language, update statutory references, and reorganize provisions for clarity. The amendments include proposed changes from the Illinois Environmental Protection Agency to delete outdated provisions, appropriately match incorporations by reference, eliminate redundancies, and correct citations.

The Board’s rulemaking is captioned Amendments to 35 Ill. Adm. Code Subtitle F: Public Water Supply, docket R18-26. Here are links to (1) the Board’s [opinion and order](#) and (2) the Board’s [addendum](#), which provides the text of the proposed amendments.
