

Public Remarks at Board Meeting of April 16, 2020 Transcribed from AT&T Audio Conferencing Recording ID 0294635833

Jennifer Cassel:

Thank you, good morning and I appreciate the opportunity to comment. I just wanted to comment very briefly on the, I believe it's 2020-19 Rulemaking, concerning Coal Ash Impoundments in the State of Illinois.

And I just wanted to say we're really happy that the Board is promptly taking this up. It's a really important rulemaking that's of concern to many members of the public, many residents, many communities throughout Illinois and we hope that, notwithstanding the pandemic, that the Board will make sure to try to make public participation as robust and meaningful as possible throughout this process. Thank you so much.
