The only circumstance requiring prior approval is where a registrant requests assistance of the Special Agent in Charge for disposal. 21 C.F.R. § 1317.05(a)(4) (2019). USEPA’s *Federal Register* discussion of the rule considered Consumer Product Safety Commission and Food and Drug Administration actions resulting destruction of recalled drugs, 84 Fed. Reg. at 5896-5900. USEPA intended to ensure that destruction occur in compliance with DEA requirements. 84 Fed. Reg. at 5897. **Table 5:**  
**Past Effective Dates and Implementation Dates in Open MSWLF Rules**

**October 9, 1993**

Occurrences in Rules under Amendment: In the definitions of “existing MSWLF unit,” “lateral expansion,” and “new MSWLF unit” in 35 Ill. Adm. Code 810.103.

Significance of the Date: The general effective date of the federal MSWLF rules (56 Fed. Reg. 50978 (Oct. 9, 1991)), as reflected in the Illinois statutory definitions of “lateral expansion,” “existing MSWLF unit,” and “new MSWLF unit,” (415 ILCS 5/3.275 and 3.285 (2018)), adopted by the Board in RCRA Subtitle D Amendments (Amendments to 35 Ill. Adm. Code 810, 811, and 814), R93-10 (Sep. 15, 1993), by IIS rulemaking under sections 7.2 and 22.40(a) of the Act (415 ILCS 5/7.2 and 22.40(a) (2018)).

Continuing Function of the Date: As long as any landfill unit that received household waste before October 9, 1993 continues to operate at any stage, from receiving waste through their post-closure care periods, the date is needed to distinguish those units.

Limitations on Removal: Aside from any continuing function, there may no reason to retain this date or the distinctions between “existing MSWLF unit” and “new MSWLF unit.” Such a change, however, would take extensive deliberation and work to ensure there is no reliance on the definitions in any of 35 Ill. Adm. Code 810, 811, and 814. The Board may remove by IIS rulemaking.

**September 18, 1990**

Occurrences in Rules under Amendment: In the definitions of “new facility” and “new unit” in 35 Ill. Adm. Code 810.103 (three times).

Significance of the Date: The effective date of the Board’s landfill rules, adopted by the Board in Development, Operating, and Reporting Requirements for Non-Hazardous Waste Landfills, R88-7 (Aug. 17, 1990), by general rulemaking under sections 27 and 28 of the Act (415 ILCS 5/27 and 28 (2018)). *See* the main source notes for 35 Ill. Adm. Code 810 and 811.

Continuing Function of the Date: As long as any landfill unit continues to operate at any stage, from receiving waste through their post-closure care periods that (1) was exempt from permit requirements and had not yet accepted waste before September 18, 1990; (2) was not exempt from permit requirements and had no yet received a permit before September 18, 1990; or (3) did not have an increase in design capacity or lateral extent after September 18, 1990, the date is needed to distinguish those units.

Limitations on Removal: The Board cannot use identical-in-substance rulemaking to change the rule unless the rule makes the Illinois RCRA Subtitle D program less stringent than or inconsistent with USEPA requirements. *See* 415 ILCS 5/22.4(b) (2018).

**September 18, 1991**

Occurrences in Rules under Amendment: In 35 Ill. Adm. Code 811.319(a)(1)(A) and (a)(3).

Significance of the Date: One year after the effective date of the landfill rules adopted by the Board in Development, Operating, and Reporting Requirements for Non-Hazardous Waste

Landfills, R88-7 (Aug. 17, 1990), by general rulemaking under sections 27 and 28 of the Act (415 ILCS 5/27 and 28 (2018)). *See* the main source note for 35 Ill. Adm. Code 811.

Continuing Function of the Date: The effective date for groundwater monitoring requirement. The date is likely no longer needed, since all landfills subject to the requirements have complied.

Limitations on Removal: The Board cannot use identical-in-substance rulemaking to change the rule unless the rule makes the Illinois RCRA Subtitle D program less stringent than or inconsistent with USEPA requirements. *See* 415 ILCS 5/22.4(b) (2018).

### **November 27, 2009**

Occurrences in Rules under Amendment: In 35 Ill. Adm. Code 811.320(d)(2).

Significance of the Date: Two years after the effective date of the groundwater monitoring amendments to the landfill rules adopted by the Board in Proposed Amendments to Solid Waste Landfill Rules, 35 Ill. Adm. Code 810 and 811, R07-8 (Nov. 15, 2007), by general rulemaking under sections 27 and 28 of the Act (415 ILCS 5/27 and 28 (2018)). *See* the main source note for 35 Ill. Adm. Code 811.

Continuing Function of the Date: The effective date for groundwater monitoring requirement. The date is likely no longer needed, since all landfills subject to the requirements have complied.

Limitations on Removal: The Board cannot use identical-in-substance rulemaking to change the rule unless the rule makes the Illinois RCRA Subtitle D program less stringent than or inconsistent with USEPA requirements. *See* 415 ILCS 5/22.4(b) (2018).
