Illinois Pollution Control Board: A rule breaker like General Iron does not deserve one single shortcut when it comes to the Illinois EPA's pollution rules. Please REJECT General Iron's appeal to get out of the pollution control requirements. I live near General Iron now. It is a horrible neighbor that spews toxic fluff on my backyard and street. A company like this should have tighter controls. Again, vote against General Iron's request. Sincerely, Current General Iron Neighbor

Good morning

A rule-breaker like General Iron does not deserve one more shortcut when it comes to the Illinois EPA's pollution rules.

REJECT General Iron's appeal to get out of the pollution control requirements.

General Iron has made cosmetic changes and touted the millions they've spent to "clean up their act" in Lincoln Park-- but nothing has changed. Air quality remains the same. Emission particles continues to collect throughout the neighborhood. Auto Shredder Fluff continues to clog home air intake systems.

Your vote to approve their permits in an area oversaturated already with serial pollution issues, is a death sentence to not only the residents living downwind and nearby, but to Lake Michigan to the east as well. Make the right call: reject their permits.

Sincerely,

Current General Iron Neighbor
