Subject: [External] Public Comment for Coal Ash Hearings- Sept. 29, 2020 and Oct 1, 2020
Date: Tuesday, September 29, 2020 7:39:33 PM

Dear Clerk of the IL EPA Board, Mr. Brown,

I am writing to submit a comment for the Sept. 29- Oct. 1, 2020 IL EPA Coal Ash Hearings.

1. There should be no dumping of coal ash into unlined ponds before they close.
2. There should be a definite end date for removing coal ash.
3. Capping the coal ash in place should only be allowed if the coal ash can stay dry. There should be a liner underneath the coal ash, and the coal ash storage must be a high pond, well above the water table.
4. Water contaminated from coal ash needs to be cleaned up.
5. Finally, the IL EPA needs to consider the combined effects of various sources of air and water pollution.

Sincerely,
Jenifer Garlitz
