Subject: [External] Public Comment: AS 2021-03: Adjusted Standard for the Waukegan Station
Date: Tuesday, March 26, 2024 4:54:58 PM

Hello, my name is Bruce D Wright,

I have been a resident of Lake County, specifically the Waukegan area for over 15 years. I am also a business owner in the Waukegan area, specifically a health and wellness retail store. When brought to my attention that the coal ash from the Waukegan coal plant is sitting on the shores of Lake Michigan, causing groundwater contamination. I was shocked, mortified and appalled to think that this is something that would require a written statement. This should be addressed and should be at the top list of not only environmental issues but top priorities for the next incoming mayor to address, find a resolution and hold all parties accountable who do not feel that this is something that should be rectified. I can only hope that some form of empathy is applied to the residents of the Tri City Lake County area.

Best regards, Bruce Wright
