The universal waste rules are structured in a way that allows new wastes to be added and currently, the Board's universal waste rules apply to: batteries, pesticides, mercury-containing equipment, lamps, certain household wastes, and certain very small quantity generator (VSQG) wastes. IEPA proposed to add "paint and paint-related waste" (PPRW) to list of universal wastes and to make PPRW subject to the requirements of other designated universal wastes. IEPA proposed amendments to Part 733 to incorporate PPRW as a universal waste. In addition, amendments are being proposed to Parts 703, 720, 721, 724, 725, and 728 to reflect PPRW as a universal waste.
