## SUBJECT LINE: Docket R 2024-017 PC

Case Name:

In the Matter of: Proposed Clean Car and Truck Standards:  
Proposed Section 35 Ill. Admin. Code 242

As a resident of Illinois, I ask the Illinois Pollution Control Board to adopt the three California motor vehicle emissions regulations addressing light-, medium-, and heavy-duty vehicles: the Advanced Clean Cars II (ACC II), Advanced Clean Trucks (ACT), and Heavy-Duty Low NOx Omnibus (Low NOx [Nitrogen Oxide]) regulations.

Hundreds of people submitted comments supporting these changes.

This is an opportunity for the Pollution Control Board to take action to protect our climate and health. There are numerous serious health outcomes related to tailpipe emissions that are costly to individuals and the state that pays for health care related to pollution emissions.

Our children and grandchildren deserve a better, healthier future.

Sandra Stanley
