To Whom it May Concern:

I am a Chicagoan, and I am writing with regard to the case currently before the Pollution Control Board to get Illinois to adopt Clean Vehicle Standards. These standards would help improve public health here in Illinois. As a parent, I am very concerned that all Illinois children have access to clean air, and current lax pollution regulation threatens that.

I am disappointed that the Illinois EPA chose to oppose the proposed rules and that they didn't acknowledge the hundreds of community members who shared how and why these rules would make their lives better and prevent or reduce continued harm.

I urge the Illinois Pollution Control Board to listen to the hundreds of concerned residents who've engaged in this process in hopes that Illinoisans can enjoy cleaner air. Please adopt the clean air standards so that my and all Illinois children can be outside without risk to their health.

Sincerely,
Sarah Farbman
