Date: Thursday, May 15, 2025 3:06:01 AM

Dear Illinois Pollution Control Board,

Thank you for the opportunity to comment on the PROPOSED CLEAN CAR AND TRUCK STANDARDS: PROPOSED 35 ILL. ADM. CODE 242. **I support the proposal.** Here are three compelling reasons:

- Illinoisans from all walks of life agree that it is crucial to improve our emission standards to protect our public health.
- By accelerating the transition to carbon-free transportation now, we still have the chance to avoid devastating climate change tipping points.
- Illinois holds the potential to become an even stronger clean energy leader and further improve its position in clean energy business and investment nationally and internationally.

Hundreds of people submitted comments in support of these rules, including teachers, students, public health professionals, parents, people with lung conditions like asthma and COPD, ev owners, and more. I am disappointed that the Illinois EPA failed to acknowledge the people who shared why and how these rules would make their lives better. **Please listen** to the hundreds of concerned residents who've engaged in this process in hopes that Illinoisans can enjoy cleaner air. **Please adopt** the clean vehicle standards.

Sincerely,

Bruce Murray
