---

Dear Don Brown,

Please docket this email as a public comment for R2024-017 in the Matter of Proposed Clean Car and Truck Standards: Proposed Section 35 III. Admin Code 242.

My public comment is in response to the IL EPA.

I support the Illinois Pollution Control Board adopting the Proposed Clean Car and Truck Standards! These standards are essential because:

- People's health should not be put over polluting interests.
- Many trucks driving in and through Illinois. There are so many warehousea across the State and we are exposed to more diesel pollution at an increasing and alarming rate.
- These standards will protect Illinoisians health from dangerous pollutants that impact our air quality negatively.
- In an unpredictable federal policy climate, we need to be uplifting the most protective federal vehicle emission standards to protect the health of everyone.

Thank you for your time.  
Charlie Espedido
