My name is Mercedes Cervantes and I am a resident of IL.

I am writing in regards to the docket listed in the subject line. This is very important because we need to lower climate pollution and clean up our air. It is disappointing that the Illinois EPA chose to oppose rules regarding clean vehicle standards and ignored hundreds of community members who shared why and how these rules would make their lives better. I urge the Illinois Pollution Control Board to listen to the hundreds of concerned residents who have engaged in this process to advocate for cleaner air. Please adopt the clean vehicle standards.

Thank you for your time,
Mercedes Cervantes
