---

Dear Illinois Pollution Control Board,

Thank you for the opportunity to comment on the PROPOSED CLEAN CAR AND TRUCK STANDARDS: PROPOSED 35 ILL. ADM. CODE 242. **I support the proposal.** Here are my reasons:

- As a primary health care provider, I have seen the **devastating impact of air pollution** on the health of those with asthma, lung disease, heart disease and allergies, to name a few. The populations most affected are those who don't have much voice to change the conditions where they get exposed.

- Illinois is the 7th most polluting state in the nation! By adopting these three clean vehicle standards, we can join the other states who have adopted clean air standards in the interest of bettering the health and safety of their citizens.

- Advanced Clean Trucks (ACT)
- Heavy-Duty Omnibus (HDO) Low NOx
- Advanced Clean Cars II (ACCI)

- We have a chance to show that the State of Illinois can be a LEADER in clean energy and clean air solutions and NOT tolerate backward, regressive policies for the future. Illinois citizens' lives depend on **forward thinking**.

Please **listen** to the hundreds of concerned residents who've engaged in this process in hopes that Illinoisans can enjoy cleaner air. Please **adopt** the clean vehicle standards.

Sincerely yours,  
Renee McCormack
