No. 406

June 6, 1990

## BOARD TAKES FINAL ACTION ON ELEVEN RULEMAKINGS

In the past two months the Illinois Pollution Control Board has taken final action on eleven rulemakings. Ten of the rulemakings were adopted and one was dismissed for lack of prosecution. Additional funding and an increase in the number of Board attorneys has helped move these rulemakings along. Pending rulemakings numbered as many as sixty when funding and staff shortages forced cancellation and postponement of hearings.

## BORDEN CHEMICALS SITE-SPECIFIC PROPOSED FOR SECOND FIRST NOTICE (R86-14)

The Board proposed for Second First Notice a site-specific rulemaking for the Borden Chemicals and Plastics Operating Limited Partnership facility in Illiopolis, Illinois. The proposed regulation provides relief from total dissolved solids and chloride limitations. The proposed regulatory amendments would be to 35 Ill. Adm. Code 304.211 for effluent standards and to 35 Ill. Adm. Code 303.431 for water quality standards.

## R89-11 UIC UPDATE RULES TO CORRESPOND WITH USEPA AMENDMENTS 1/1/89 THROUGH 11/30/89

At its May 24, 1990 meeting, by a vote of seven to zero, the Board adopted amendments to its underground injection control rules to incorporate federal amendments adopted during the period from January through November, 1989. These amendments impose new restrictions on Second Third and Third Third wastes and additional restrictions on First Third wastes. The result of these amendments is that several additional wastes are prohibited from underground injection. They also adopt federal technical corrections to the restrictions on injection of solvent- and dioxin-containing wastes. The result of these amendments is that the adjusted treatment standard exception no longer applies to solvent- and dioxin-containing wastes. The Board declined to adopt earlier-proposed amendments to the provision relating to well integrity testing that would have codified the essence of the federal interim approval of the water-brine interface integrity test method for Class III salt solution mining injection wells, noting the Agency's arguable authority to temporarily approve the method by permit under existing rules and in light of the federal interim approval.

## NEW PROCEDURAL RULES FOR RULEMAKINGS EFFECTIVE (R88-5(B))

The Board's new procedural rules governing rulemaking proceedings (35 Ill. Adm. Code 102), adopted in docket R88-

5(B), were recently filed with the Secretary of State and became effective on May 24, 1990. **These new rules will be applied to all pending rulemakings to the extent reasonably practicable, as well as to all rulemakings filed after May 24th.** Part 102 applies to all regulatory and informational hearings and proceedings, and should be read in conjunction with Part 101 of the Board's procedural rules. (The new rules in Part 102 completely replace the "old" Part 102 rules on rulemakings.)

The new rules clarify existing policies and establish several new procedures. The rules contain content requirements for regulatory proposals, and provide for dismissal of a deficient proposal where the proponent fails to respond to Board or hearing officer requests for additional information. Highlights of the new procedures include provision for the hearing officer to preliminarily specify the number of hearings to be held on a proposal. If the proponent or any participant wishes to request additional hearings, that person must demonstrate that failure to hold an additional hearing would result in material prejudice to the movant. (Section 102.161.) The new rules also establish procedures for Board determination of whether an economic impact study (EclS) should be ordered, and allow interested persons to comment on the advisability of ordering an EclS. (Sections 102.180 through 102.183.)

Another new procedure established by the rules is provision for a challenge to a certification by the Illinois Environmental Protection Agency (Agency) that a proposed rule is federally required pursuant to Section 28.2 of the Environmental Protection Act (Act). Please note that the timeframes in this procedure track the timeframes for EclS determinations. (Sections 102.200 through 102.202.) The new rules also provide for pre-hearing conferences, pursuant to Section 27(e) of the Act. (Sections 102.240 through 102.242.)

The new Part 102 rules also address the issue of pre-filing testimony before hearing. When filing the proposal, the proponent must provide a synopsis of all testimony to be presented by the proponent at hearing. The synopsis need not identify specific witnesses, but must provide a summary of information to be presented at hearing. (Sections 102.121 and 102.141.) The proponent must then submit all written testimony and exhibits 21 days prior to the hearing at which the witness testifies. The hearing officer may require that all participants, in addition to the proponent, pre-file testimony and exhibits if the hearing officer determines that pre-filing will provide for a more efficient hearing. Where pre-filing is required, any testimony which is not pre-filed in a timely manner will be allowed only as time permits. (Section 102.280.)

The Board initiated this rulemaking proceeding (R88-5(A) & (B)) partly in response to Governor Thompson's call for a formal proceeding on Board procedures. The Board believes that these new rules address the issues raised in the Schneiderman report on the Illinois environmental regulatory system. The text of these new rules can be found in the Board's May 10, 1990 final opinion and order in R88-5(B), available upon request of the Clerk of the Board. The rules will also be published in the Illinois Register. Specific questions may be directed to Elizabeth S. Harvey at 312/814-6921.

#### **BOARD MAKES EcIS DETERMINATION IN R89-17, CALIFORNIA MOTOR VEHICLE STANDARDS**

On May 24, 1990, the Board issued an Order making the statutorily-mandated determination of whether the Board should direct the Department of Energy and Natural Resources (ENR) to prepare an economic impact study (EclS) on the proposed adoption of portions of the California motor vehicle control program in Illinois. (The Board adopted a first notice proposal on April 12, 1990, and the proposal was published at 14 Ill.Reg. 6977, on May 11, 1990.) The Illinois Environmental Protection Agency (Agency) and ENR submitted comments on the advisability of an EclS on the proposal. After considering these comments, the record in the proceeding, and the factors set forth in Section 27(a) of the Environmental Protection Act, the Board determined that an EclS should be prepared. The Board recognizes that the proposal may have far-reaching effects, both economic and environmental, and believes that these effects need further study so that the Board may make an informed decision on the proposal. The Board's Order outlines several issues to be addressed in the study.

The Order requests that ENR deliver the EclS on or before January 15, 1991, so that the Board may proceed with the docket in a timely manner. No further hearings will be held on the proposal until after the EclS is submitted, at which time the Board will hold at least two hearings on the merits and the economic impact of the proposal. The Board has extended the first notice comment period, in the hopes that interested persons will submit any information which will aid in the preparation of the EclS. Written comments may be submitted until August 1, 1990. Copies of those comments should be sent directly to ENR and the Agency, as well as to the Clerk of the Board. The Board's EclS determination Order is available upon request of the Clerk of the Board. Specific questions should be directed to Elizabeth S. Harvey at 312/814-6921.

#### **RESTRICTED STATUS AND CRITICAL REVIEW LISTS FOR SEWAGE TREATMENT IN THIS ISSUE**

The Illinois Environmental Protection Agency, Division of Water Pollution Control, is publishing copies of the Division's Restricted Status and Critical Review lists at the end of this issue of the Environmental Register. These lists reflect the status as of March 31, 1990.

#### **BOARD ISSUES FINAL OPINION AND ORDER IN MODINE MANUFACTURING COMPANY SITE SPECIFIC (R87-36)**

On May 24, 1990, the Board adopted final regulations granting site specific relief for Modine Manufacturing Company for its facility in Ringwood, McHenry County. The adopted standards at new section 304.221 include site specific effluent standards for total suspended solids and biochemical oxygen demand ("BOD<sub>5</sub>").

The adopted regulations also include a water quality fluoride exemption at Section 303.430 which applies to the unnamed tributary to Dutch Creek which receives discharges from the Modine facility, for a distance of 1200 yards downstream from the Modine outfall. The final Opinion and Order is available upon request of the Clerk of the Board. Questions may be directed to Michelle Tarallo at 815/753-0947.

#### **BOARD AND STAFF ACTIVITIES**

On May 21st, Chairman Marlin spoke to Citizens For Controlled Landfills in Belleville, Illinois and on May 29th he addressed People For A Sustainable World, in Urbana, on citizen participation.

On May 6th Board Member, Joan Anderson spoke to the Presbyterian Church of Western Springs Adult

Education group about environmental initiatives ongoing in Illinois.

Board Member Jacob Dumelle reviewed 20 years of environmental protection at a post-Earth Day conference in Arlington Heights on May 5th. On May 22nd, Mr. Dumelle represented the Board at the dedication of the new plastics recycling center in Chicago established by the DuPont Corporation and Waste Management Company.

On May 7th, Mr. Dumelle was appointed Chairman of the Oak Park Environmental and Energy Advisory Commission by Village President John Philbin. Mr. Dumelle has been a Commissioner since the Commission was established in January 1971.

**FINAL ACTIONS - MAY 24, 1990 BOARD MEETING**

**ILLINOIS POLLUTION CONTROL BOARD  
FISCAL YEAR 1989 ANNUAL REPORT  
NOW AVAILABLE**

The Illinois Pollution Control Board's Annual Report for Fiscal Year 1989 (July 1, 1988 through June 30, 1989) is now available, free, from the Clerk's Office. The 1989 Annual Report contains a special section on the history, changes, and present operations of the Board. The Report also includes a note from Chairman John Marlin, the Judicial Review section, and helpful charts in the Appendices which summarize the Board's activities.

Write to the Clerk's Office of the Illinois Pollution Control Board for your free copy of the Annual Report.

Illinois Pollution Control Board - Clerk's Office  
State of Illinois Center  
100 W. Randolph, Suite 11-500  
Chicago, Illinois 60601

- PCB 85-95     Citizens Utilities Co. of Illinois v. IEPA and Village of Bolingbrook - The Board, on remand from the Third District Appellate Court, granted petitioner variance, with conditions, from the Board's water pollution regulations concerning the ammonia nitrogen water quality standard for its Will County facility. Board Member R. Flemal abstained and Board Member B. Forcade concurred.
  
- PCB 88-69     Scott Air Force Base v. IEPA - The Board accepted the Agency Recommendation, modified its order of April 26, 1990 and granted petitioner an extension of variance from the Board's water pollution regulations for its St. Clair County facility. Board Member J. Dumelle concurred.
  
- PCB 89-203    Walter Zyznieuski v. Springfield Public Schools, Unit District No. 186 - This matter was dismissed on complainant's motion.
  
- PCB 90-17     People of the State of Illinois v. United States Dept. of the Navy - The Board accepted the Stipulation and Settlement Agreement which set forth a full stipulation of all material facts and in which respondent agreed to pay a civil penalty of \$1,250 to the Environmental Protection Trust Fund concerning its Lake County facility. Board Member J. Theodore Meyer dissented.
  
- PCB 90-21     United City of the Village of Yorkville v. IEPA - The Board accepted the Agency Recommendation and granted petitioner variance extension, with conditions, from the Board's public water supplies regulations concerning Standards for Issuance and Restricted Status relating to combined radium-226 and radium-228 for its Kendall County facility. Board Members J. Dumelle and B. Forcade dissented.
  
- PCB 90-101    Jefferson Smurfit Corp. v. IEPA - The Board accepted the Agency Recommendation and granted petitioner provisional variance from the Board's air pollution regulations for its Madison County facility. Board Member J.D. Dumelle concurred.

- AC 89-170     IEPA v. Donald & Catherine Bouthot - The Board vacated its Default Order of September 13, 1989 and dismissed this proceeding. Board Member J. Theodore Meyer dissented.
- AC 90-7        IEPA v. Roger Smith - This matter was dismissed on the Agency's motion.
- AC 90-27       IEPA v. Johnson Blackwell - The Board found respondent violated Sections 21(q)(1), 21(q)(2) and 21(q)(5) of the Act and imposed a fine of \$1,500.
- AC 90-29       IEPA v. Harold Lowry - The Board found respondent violated Sections 21(q)(1), 21(q)(3) and 21(q)(4) of the Act and imposed a fine of \$1,500.
- AC 90-30       IEPA v. Morgan Manufacturing Co. - The Board found respondent violated Sections 21(q)(1), 21(q)(3) and 21(q)(4) of the Act and imposed a fine of \$1,500.
- AC-90-34       County of Will v. Frank Mihelich - This matter was dismissed on complainant's motion.

**NEW CASES - MAY 24, 1990 BOARD MEETING**

- PCB 90-99       The Uno-Ven Co. v. IEPA - Petitioner seeks review of the Agency's denial of its operating permit renewal application for its Cook County facility. Additional information requested.
- PCB 90-100     City of Ottawa v. IEPA - Petitioner seeks variance from the Board's public water supplies regulations concerning Standards for Issuance and Restricted Status relating to radium 226 and radium 228 at its LaSalle County facility. Additional information requested.
- PCB 90-101     Jefferson Smurfit Corp.v.IEPA - See Final Actions.
- PCB 90-102     State Oil Co. v. Dr. and Mrs. James Krone and IEPA -Petitioner seeks a well water setback exception from the provisions of the Act and Board regulations for its McHenry County facility. Accepted for hearing.

**CALENDAR \***

- June 7           A-C        Tazewell County Board of Health v. Steve Zimmerman and Waste Ltd., Inc.  
11:00 a.m.       - AC 90-23, Tazewell County Board Room, 11 South 4th Street, MacKenzie Building, Pekin.

\* Times and locations of hearings and meetings appearing in the Environmental Register are subject to cancellation or rescheduling without notice. Confirmation of that information may be obtained from the Clerk of the Board at 312/814-6931.

\*\* The Pollution Control Board meetings listed in the calendar (highlighted) are unlike the other hearings listed in that, while they are open to the public, public participation is generally not allowed, except upon the granting of a motion for oral argument.
