## BOARD MODIFIES RCRA UPDATE (R90-2)

July 3, 1990, the Board entered a Final Order which updated the RCRA rules to include USEPA amendments during the period July 1 through December 31, 1990. On August 9, 1990, in R90-2, pursuant to a motion by Big River Zinc, the Board modified the Order to add 35 Ill. Adm. Code 731.104(b)(7)(A)(vi). This adds a temporary exclusion, through June 30, 1991, for certain wastes from primary zinc production. The status of these wastes is in question pending USEPA action on the remand of listing K066 in American Mining Congress v. USEPA, U.S. Court of Appeals for the District of Columbia, July 10, 1990. The modified rules will appear in the Illinois Register shortly.

There are currently three other RCRA Dockets pending:

R90-10 RCRA Update (Proposed 5/24/90) (1/1 through 3/30/90, including TCLP)

R90-11 RCRA Update (4/1 through 6/30/90)

R90-17 RCRA Delistings (Proposed 7/19/90) (3/1/90 Federal Register)

Questions should be directed to Morton Dorothy or Anne Manly at 217/333-5575.

## BOARD MODIFIES SDWA RULES (R88-26)

On May 24, 1990, the Board adopted an Opinion and Order in R88-26, which is the rulemaking to adopt regulations which are "identical in substance" to USEPA rules under the Safe Drinking Water Act. On August 9, 1990, pursuant to post-adoption comments from the Agency, USEPA and others, the Board withdrew the May 24 Opinion and Order, and substituted a new Opinion and Order.

R88-26 involves the repeal of much of 35 Ill. Adm. Code 604 through 607, and its replacement with a new 35 Ill. Adm. Code 611, which closely parallels the USEPA rules in 40 CFR 141.

Most of the post adoption comment was directed at language which was present in the October 5, 1989, Proposal, and raised by way of specific requests for comment, which were not answered during the initial comment period. However, the Board has made several changes in response to this late comment. These changes include the following:

The Agency will utilize a "special exception permit" as a vehicle for the numerous decisions which it must make in

applying the new rules. (Section 611.110) the "MCL" and "revised MCL" tables have been consolidated. (Section 611.300 et seq.) The applicability of the "no method of measuring HPC" determination in the USEPA rules has been limited in line with USEPA's apparent intent. (Section 611.213 and 611.241 et seq.) And, the references to ASTM and Standard Methods for the Analysis of Water and Wastewater have been changed to cite out-of-date methods.(Section 611.102)

The revised rules will appear in the Illinois Register shortly. Questions should be directed to Morton Dorothy or Anne Manly at 217/333-5575.

## SANITARY DISTRICTS/WASTEWATER TREATMENT RESTRICTED STATUS AND CRITICAL REVIEW LISTS

The Illinois Environmental Protection Agency, Division of Water Pollution Control, is publishing copies of the Division's Restricted Status and Critical Review lists in this issue of the Environmental Register. The lists are being published here as part of the quarterly notification to the public. The lists may have been slightly modified to reflect changes made since the previous publication.
