

ILLINOIS POLLUTION CONTROL BOARD  
February 9, 1995

IN THE MATTER OF: )  
 )  
PETITION OF SOLAR ) AS 94-2  
CORPORATION FOR AN ADJUSTED ) (Adjusted Standard - Air)  
STANDARD FROM 35 ILL. ADM. )  
CODE 218 SUBPART PP )

ORDER OF THE BOARD (by M. McFawn):

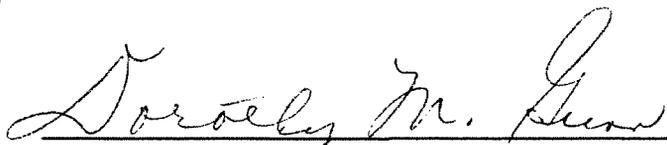

This matter is before the Board on a February 1, 1995 joint motion for extension of time for the Illinois Environmental Protection Agency (Agency) to submit its response to the amended petition filed by Solar Corporation (Solar) on January 3, 1995. The parties seek an extension until February 22, 1995 for the Agency to file its response.

In support of the motion, the parties state that Material Safety Data Sheets submitted as exhibits with Solar's amended petition revealed that Solar's specialty adhesive, Imperial Whisper Spray, has as its main solvent Methylene Chloride. This solvent is excluded from the definition of VOM contained in 35 Ill Adm. Code 211.7150(a). The parties therefore believe that Solar may not need an adjusted standard for its Specialty Adhesive usage. The parties need to further discuss the extent to which the specialty adhesive can be used for Solar's other operations, and the extent to which an adjusted standard is needed.

The motion for extension of time is hereby granted. The Agency's response is now due on or before February 22, 1995.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 9<sup>th</sup> day of February 1995, by a vote of 6-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
