ORDER OF THE BOARD (by C. A. Manning):

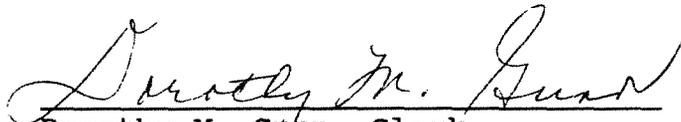

On November 10, 1993, Highland Park School District #108 (School District) filed a status report in response to a Board order. The status report indicates that the School District intends to file a Reimbursement Eligibility and Deductibility Application with the Illinois Office of the State Fire Marshal (OSFM).

The Board finds that the status report contains insufficient information and orders the School District to submit a new status report. The status report does not state how the parties intend to proceed in this matter. For instance, the Board queries whether this case should be dismissed or stayed during the pendency of the application before the OSFM. The status report should also indicate an expected date for completion of this matter before the Board. The Board also notes a certificate of service was not provided with the status report to indicate that the petition was properly served on the respondent or the hearing officer (who must be served with each filing in this case).

Therefore, the Board directs the School District to file a new status report in this matter. The School District shall submit a complete status report to the Board on or before December 27, 1993. The Environmental Protection Agency is also directed to file a status report by that date.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above order was adopted on the 18<sup>th</sup> day of November, 1993, by a vote of 5-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
