ILLINOIS POLLUTION CONTROL BOARD January 10, 1985

IN RE:

CORRECTION OF 35 ILL. ADM. CODE

215.204(a)(1)

R83-36

PROPOSED RULE. SECOND NOTICE

ORDER OF THE BOARD (by B. Forcade):

On October 12, 1984, the Board proposed to amend 35 Ill. Adm. Code 215.204(a)(1) pertaining to volatile organic compound emissions. This proposal was in response to a petition by Ford Motor Company ("Ford") and was to correct a mistake of fact upon which the United States Environmental Protection Agency and in turn the Board relied in adopting the original regulation. First notice of this proposal was published at 8 Ill. Reg. 21486 on November 2, 1984. The first notice comment period expired on December 17, 1984. Two comments were received. The first was from the Administrative Code Unit pertaining to format for publication in the Illinois Register. These comments did not address any language in the regulation. The second was a one page comment filed by Ford on November 27, 1984, supporting adoption of the proposed rule as written. Consequently, the Board will move the proposed rule to second notice without change.

The Board directs that second notice of the following rule be submitted to the Joint Committee on Administrative Rules:

35 Ill. Adm. Code 215.204(a)(1) is amended as follows:

Section 215.204 Emission Limitation for Manufacturing Plants
