Petitioner,)
)
v.) PCB 84-70
)
ILLINOIS ENVIRONMENTAL)
PROTECTION AGENCY,)
)
Respondent.)

ORDER OF THE BOARD (by B. Forcade):

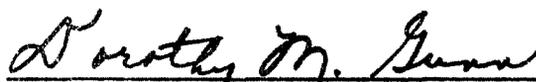

On June 6, 1984 the City of Knoxville filed a petition for variance extending their current variance from finished water standards for gross alpha particle activity and flouride found in Rules 304(B) and (C) of Chapter 6 (now recodified as 35 Ill. Adm. Code 604.301 and 604.203(a) respectively). This petition is deficient in that it fails to provide information on the following, as required by 35 Ill. Adm. Code 104.121:

1. A plan for ultimate compliance with the Board's standards including a time schedule for the implementation of all phases of such a control plan.
2. A discussion of the current availability of alternate methods of compliance, particularly such methods as purchasing water from non-contaminated sources and blending water to reduce its overall contaminated character.

Unless an amended petition is filed within 45 days curing the above noted defects, this matter will be subject to dismissal. We also encourage the petitioner to utilize the variance petition format found in 35 Ill. Adm. Code 104.121 for future pleadings before the Board.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board hereby certify that the above Order was adopted on the 14th day of June, 1984 by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
