

ILLINOIS POLLUTION CONTROL BOARD
August 4, 1977

IN THE MATTER OF)
PROPOSED INDIRECT (COMPLEX))
SOURCE REGULATIONS) R 73-9

ORDER OF THE BOARD (by Mr. Dumelle):

On July 10, 1975 the Board postponed indefinitely any further proceedings in this matter. During the intervening 24 months, Federal involvement in this area has been withdrawn; and the only state which had similar regulations (Connecticut) has announced its intention to withdraw them as well.

These proceedings were tabled before economic impact studies were required. The information contained in the record would not be valuable without scheduling new hearings to bring it up to date. Consequently the Board finds that this matter should be dismissed and all proceedings terminated.

If this subject is ever reintroduced, for regulatory consideration, portions of the present record may be incorporated into the future record if the need arises.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 4th day of August, 1977 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
