Letter from the Chairman

April 22 marked the thirty-third celebration of Earth Day. The Board is also celebrating its thirty-third year. The Board recognizes the tradition of Earth Day as a strong part of our State's public commitment to protect the Earth for generations to come. In Illinois, the Board has always been linked with Earth Day. Both were created in 1970, and share a common purpose. Earth Day was created primarily as a symbol of our nation's commitment to the environment. The Board's creation and authority is found in Illinois' Environmental Protection Act, the stated purpose of which is to establish a unified, state-wide program to restore, protect and enhance the quality of the environment.

Earth Day and the Board have each been extremely successful in fulfilling their original purpose. Thirty-three years have passed, but each remains vital in its own way. Earth Day continues to raise the consciousness of the public regarding important environmental issues. The Board continues to determine, define and implement the environmental standards applicable to the State of Illinois. Although Earth Day comes but once a year, we at the Board fulfill our statutory duty on a daily basis. Currently the Board has approximately 300 pending adjudicatory cases and rulemakings. As you know, the Board must make all of its decisions in writing, after votes are taken at open meetings. In the last eighteen months, the Board has issued over 1,000 opinions and orders, after review of lengthy briefs, hearing transcripts, and public comment.

At this time of the year, perhaps more than any other, residents of Illinois are actively enjoying the pleasures of our State's environment. The continued celebration of Earth Day, and the work of the Board and other environmental state agencies are important factors in maintaining a healthy environment for all of us to enjoy. It is incumbent upon all of us to do our part. I want to thank all those involved for their valuable contributions, and I am sure that, working together, we will be able to enjoy a vital environment for years to come.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized initial 'T' followed by a horizontal line extending to the right.

Thomas E. Johnson, Chairman

Federal Update

United States Environmental Protection Agency Proposes Revisions to the Wastewater Treatment Exemptions for Hazardous Waste Mixtures Under the Resource Conservation and Recovery Act

On April 8, 2003 (68 Fed. Reg. 17233) the United States Environmental Protection Agency (USEPA) proposed revisions to its wastewater treatment exemptions for hazardous waste mixtures (Headworks Exemptions).

USEPA proposed to add benzene and 2-ethoxyethanol to the list of solvents whose mixtures with wastewater are exempted from the definition of hazardous waste under the Resource Conservation and Recovery Act (RCRA). USEPA had studied two other solvents (1,1,2-trichloroethane and 2-nitropropane), but did not propose adding them at this time to the exemption list.

Besides adding the two solvents to the exemption, USEPA also proposed to provide flexibility in the way it determines compliance with the rule by adding the option of directly measuring solvent chemical levels at the headworks of the wastewater treatment system. Finally, USEPA also proposed to make additional listed hazardous wastes (beyond discarded commercial chemical products) eligible for the de minimis exemption, as well as adding non-manufacturing facilities to those that qualify for this exemption if certain conditions are met.

Comments on this proposal must be postmarked by June 9, 2003 and should be sent to: RCRA Docket Information Center, Office of Solid Waste, Environmental Protection Agency, Mailcode: 5305W, 1200 Pennsylvania Ave., NW., Washington, DC 20460, Attention Docket ID No. RCRA-2002-0028.

For further information contact Ron Josephson by telephone at 703-308-0442; or e-mail at: josephson.ron@epa.gov, or Laura Burrell by telephone at 703-308-0005; or e-mail at: burrell.laura@epa.gov.

The Board will include any necessary amendments to Board rules resulting from this federal action in a future RCRA identical in substance rulemaking pursuant to Sections 7.2 and 22.4 of the Environmental Protection Act (415 ILCS 5/7.2, 22.4 (2002)).

United States Environmental Protection Agency Adopts National Emission Standards for Hazardous Air Pollutants Under the Clean Air Act for Coke Ovens: Pushing, Quenching, and Battery Stacks

On April 14, 2003 (68 Fed. Reg. 18007) the United States Environmental Protection Agency adopted National Emission Standards for Hazardous Air Pollutants (NESHAPs) for Coke Ovens: Pushing, Quenching, and Battery Stacks.

USEPA's final rule promulgates NESHAPs for coke ovens. The standards establish emission limitations and work practice requirements for control of hazardous air pollutants (HAP) from pushing, quenching, and battery stacks at new and existing coke oven batteries. The HAP emitted from pushing, quenching, and battery stacks include coke oven emissions, as well as polycyclic organic matter and volatile organic compounds such as benzene and toluene.

Environmental Register – April 2003

Exposure to these substances has been demonstrated to cause chronic and acute health effects. These final standards will implement section 112(d) of the Clean Air Act (CAA) by requiring all major sources to meet HAP emission standards reflecting application of the maximum achievable control technology. USEPA has previously promulgated emission standards addressing emissions from coke oven charging, topside leaks, and door leaks.

The adopted rule is effective April 14, 2003.

For further information contact: Lula Melton, Metals Group (C439-02), Emission Standards Division, U.S. EPA, Research Triangle Park, NC 27711, telephone number (919) 541-2910, e-mail address, melton.lula@epa.gov.

Pursuant to Section 9.1(b) of the Environmental Protection Act (Act) (415 ILCS 5/9.1(b) (2002)), once adopted by the USEPA, NESHAP rules are applicable and enforceable under the Act without further action by the Board.

United States Department of Justice Publishes Notice of Consent Decree Under the Clean Air Act

On April 24, 2003 (68 Fed. Reg. 20171) the United States Department Of Justice published a notice that, under 218 CFR 50.7, a proposed Consent Decree was lodged with the United States District Court for the Central District of Illinois in United States v. Archer Daniels Midland Company, Civil Action No. 03-2066.

The consent decree addresses claims against Archer Daniels Midland Company (ADM) for violations, at 52 plants in 16 states including Illinois, of the Preventions of Significant Deterioration (PSD) and New Source Performance Standards (NSPS) requirements of the Clean Air Act pursuant to section 113(b) of the Clean Air Act (CAA), 42 U.S.C. 7413(b) (1983), amended by, 42 U.S.C. 7413(b) (Supp. 1991). The complaint alleges that ADM routinely underestimated its volatile organic compounds emissions from corn processing and ethanol production units and modified and expanded its oilseed plants without obtaining appropriate pre-construction permits and installing air pollution control equipment.

Under the terms of the consent decree, ADM will install state-of-the-art air pollution controls on hundreds of units, shut down older, dirty units and accept restrictive emission limits on others, for a total emission reduction of 63,000 tons per year. In addition ADM will meet the NSPS, for boilers, grain elevators, coal loading operations, and storage tanks. See 40 CFR 60, Subparts Db, Dc, DD, Kb, and VV. Finally, ADM is obligated to implement a corporate-wide environmental management system and conduct multi-media audits of each of its facilities at least twice over the life of the decree.

The injunctive relief package is expected to cost ADM \$328 million over the ten-year period of compliance. ADM will also pay a civil penalty of \$4,604,000 (\$2,505,600 paid to the United States and \$2,098,400 paid to the states) and spend \$6,363,000 on environmentally beneficial projects. The states that have filed complaints-in-intervention and executed the consent decree include Arkansas, Indiana, Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Carolina, and Texas, as well as the Iowa Counties of Linn and Polk and the Nebraska County of Lancaster.

The Department of Justice will receive comments relating to the ADM consent decree for 30 days after the publication of its notice (until May 24, 2003). Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to: United States v. Archer Daniels Midland Company, D.J. Ref. 90-5-2-1-2035/2.

The consent decree may be examined at the Office of the United States Attorney, Central District of Illinois, 201 S. Vine Street, Room 226, Urbana, IL 61802, and at U.S. EPA Region 5, 775 West Jackson 77 Blvd., Chicago, Illinois 60604-3590. During the public comment period the ADM Consent Decree may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd.open.html>.

Environmental Register – April 2003

United States Department of Justice Publishes Notice of Lodging of Settlement Agreement Under the Comprehensive Environmental Response, Compensation and Liability Act and Chapter 11 of the United States Bankruptcy Code

On April 24, 2003 (68 Fed. Reg. 20172) the United States Department Of Justice published a notice that on April 11, 2003, a proposed settlement agreement (agreement) was lodged with the United States Bankruptcy Court for the Northern District of Illinois, Eastern Division in In re Kmart Corp., et al., Case No. 02-02474.

The agreement is between Kmart Corporation and its affiliated debtors and debtors-in-possession (collectively, the debtors) and the United States, on behalf of the United States Environmental Protection Agency (USEPA), the United States Department of the Interior, and the National Oceanic and Atmospheric Administration of the United States Department of Commerce. The agreement relates to liabilities of the debtors under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. 9601 *et seq.* Under the agreement, the United States, on behalf of USEPA, would receive allowed secured claims totaling \$579,151 for the following five sites: the Lenz Oil Services site (DuPage County, Illinois); the Beede Waste Oil site (Plaistow, New Hampshire); the Florida Petroleum Reprocessors site (Davie, Florida); the Hows Corner site (Plymouth, Maine); and the Jack Goins site (Cleveland, Tennessee).

The agreement also addresses claims in South Carolina, Florida, Louisiana, California, and Washington and a right to seek cost recovery in the future in connection with Operable Unit 2 of the Peterson Puritan site (Cumberland, Rhode Island), with up to \$506,500 of such cost recovery payable as an allowed secured claim and any amount over that payable as an allowed unsecured claim.

The agreement further provides that for debtor-owned sites, environmental claims and actions by the United States are not discharged. However, for the following nine sites, environmental claims by the United States are discharged, to the extent the claims arise from the debtors' conduct before the bankruptcy action: the Adkins Branch Tire Dump (Putnam County, West Virginia); the Bufkin Store Lead site (Tabor City, North Carolina); the Chadbourn Battery site (Chadbourn, North Carolina); the Guyton Battery site (Chadbourn, North Carolina); the Jimmy Green Metals site (Nashville, North Carolina); the Odum Bufkin Battery site (Green Sea, South Carolina); the Old Stake Road Lead site (Chadbourn, North Carolina); the Petroleum Conservation site (a/k/a the U.S. Oil, Two Rivers site) (Two Rivers, Wisconsin); and the Vinegar Hill Battery site (a/k/a the Williams store site) (Tabor City, North Carolina). For all other sites, the United States may not issue or seek environmental orders based on the debtors' conduct before the bankruptcy action, but may recover response costs and natural resource damages based on such conduct, as if the United States' claims had been allowed unsecured claims under the debtors' reorganization plan.

The Department of Justice will receive comments relating to the agreement for 30 days following the date of publication of the agreement (until May 24, 2003). Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, PO Box 7611, U.S. Department of Justice, Washington, DC 20044, and should refer to In re Kmart Corp., et al., Case No. 02-02474, D.J. Ref. No. 90-11-2-07845.

The agreement may be examined at the Office of the United States Attorney, 219 South Dearborn Street, Suite 2001, Chicago, Illinois 60604, and at the United States Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. During the public comment period, the Agreement may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/open.html>.

United States Environmental Protection Agency Adopts National Emission Standards for Hazardous Air Pollutants Under the Clean Air Act for Asphalt Processing and Asphalt Roofing Manufacturing

On April 29, 2003 (68 Fed. Reg. 22975) the United States Environmental Protection Agency (USEPA) adopted National Emission Standards for Hazardous Air Pollutants (NESHAP) for Asphalt Processing and Asphalt Roofing Manufacturing.

This action promulgates NESHAP for existing and new asphalt processing and asphalt roofing manufacturing facilities. The USEPA has identified asphalt processing and asphalt roofing manufacturing facilities as major

Environmental Register – April 2003

sources of hazardous air pollutants such as formaldehyde, hexane, hydrogen chloride (HCl), phenol, polycyclic organic matter, and toluene. The final standards will implement section 112(d) of the Clean Air Act (CAA) by requiring all major sources to meet HAP emission standards reflecting the application of the maximum achievable control technology.

The total HAP reduction resulting from compliance with the rule is expected to be 86 megagrams per year (Mg/yr). A variety of HAP are emitted from asphalt processing and asphalt roofing manufacturing source categories. The following HAP account for the majority (approximately 98 percent, based on the emission factors developed for the final rule) of the total HAP emissions: formaldehyde, hexane, HCl (at asphalt processing facilities that use chlorinated catalysts), phenol, and toluene. The remaining two percent of the total HAP emissions is a combination of several different organic HAP, each contributing less than 0.5 percent to the total HAP emissions.

The final rule is effective April 29, 2003.

For further information contact: contact Rick Colyer, Minerals and Inorganic Chemicals Group, Emission Standards Division (C504-05), U.S. EPA, Research Triangle Park, North Carolina 27711, telephone number (919) 541-5262, e-mail address, colyer.rick@epa.gov.

Pursuant to Section 9.1(b) of the Environmental Protection Act (Act) (415 ILCS 5/9.1(b) (2002)), once adopted by the USEPA, NESHAP rules are applicable and enforceable under the Act without further action by the Board.

Rule Update

Board Adopts Proposed Second Notice in Noise Rule Update: Amendments to 35 Ill. Adm. Code 900-903 (R03-08)

On April 3, 2003, the Board adopted a proposed second notice opinion and order in Noise Rule Update: Amendments to 35 Ill. Adm. Code 900-903 (R03-08). The Board will accept comments on the proposal for an additional 45 days (until May 18, 2003) before sending the rulemaking, pursuant to the Illinois Administrative Procedure Act (5 ILCS 100/1-1 *et seq.* (2002)), to the Joint Committee on Administrative Rules. The Board did not make any substantive changes to the rules it proposed at first notice (27 Ill. Reg. 1889 and 1909 (February 7, 2003)).

The noise rules involved are 35 Ill. Adm. Code Parts 900 and 903. These are general provisions dealing with the definitions of acoustical terminology, prohibition against noise pollution, and sound measurement procedures. The proposed changes to Part 900 involve the updating of definitions and sound measurement procedures, which were adopted in 1973 and have not been amended or changed since. The basis for these changes is the American National Standards Institute updates from the years 1998-2001.

The Board is also proposing to repeal Part 903, which specifies rules and regulations for the control of noise from motor racing facilities, in response to legislative changes since the Part was adopted.

The Board has held two hearings in this rulemaking in Chicago on November 7, 2002 and in Springfield on November 21, 2002. A third hearing is scheduled for May 15, 2003 in Chicago to address the Department of Commerce and Community Affairs' decision not to perform an economic impact study on the Board's proposal.

This rulemaking should be read in conjunction with the companion implementing rules proposed in Proposed New and Updated Rules for Measurement and Numerical Sound Emissions Standards; Amendments to 35 Ill. Adm. Code 901 and 910, R03-09, (February 20, 2003). See February 3, 2003 Environmental Register at p. 5. Hearings in this proceeding are scheduled for May 1 (Springfield) and May 15, 2003 (Chicago).

Copies of the Board's opinion and order may be obtained by calling Dorothy Gunn at 312-814-3620, or by

Environmental Register – April 2003

downloading copies from the Board's Web site at www.ipcb.state.il.us.

For additional information contact William Murphy at 312/814-6062; e-mail address murphyw@ipcb.state.il.us

Board Adopts Second Notice Opinion and Order in Petition of Central Illinois Light Company (E. D. Edwards Generating Station) for a Site Specific Air Regulation: 35 Ill. Adm. Code 214.561 (R02-21)

On April 17, 2003, the Board adopted a second notice opinion and order in Petition of Central Illinois Light Company (E. D. Edwards Generating Station) for a Site Specific Air Regulation: 35 Ill. Adm. Code 214.561 (R02-21). The Board did not make any substantive changes to the first notice proposal adopted on January 23, 2003 and published in the *Illinois Register* at 27 Ill. Reg. 2578 (February 14, 2003). Pursuant to the Illinois Administrative Procedure Act (5 ILCS 100/1-1 *et seq.* (2002)), the Joint Committee on Administrative Rules will review and consider the rules at its May 13, 2003 meeting.

The site-specific proposal affects the Central Illinois Light Company (CILCO) E.D. Edwards Generating Station (facility) located near Peoria in Peoria County. The facility consists of three coal-fired boilers. CILCO previously received a variance from 35 Ill. Adm. Code 214.141. *See Central Illinois Light Company v. IEPA*, PCB 99-80 (Apr. 15, 1999). The variance is effective through July 31, 2003. Boilers 1 and 3 are subject to a sulfur dioxide emission limit under a site-specific rule at 35 Ill. Adm. Code 214.561. Boiler 2 is subject to the sulfur dioxide emissions limit under 35 Ill. Adm. Code 214.141.

CILCO seeks to make permanent the relief it was granted in PCB 99-80 by amending 35 Ill. Adm. Code 214.561 to apply to the operation of Boiler 2. CILCO requested that the Board repeal the text of 35 Ill. Adm. Code 214.561 and replace it verbatim with text from the variance order of April 15, 1999. CILCO asserts that this language has already been reviewed, approved by the United States Environmental Protection Agency, and incorporated into the approved Illinois State Implementation Plan pursuant to the Clean Air Act. *See* 42.U.S.C. Section 7401, *et seq.*

This petition replaces CILCO's earlier-filed petition for adjusted standard seeking the same relief. This petition was dismissed as unnecessary. In the Matter of: Petition of Central Illinois Light Company (E.D. Edwards Generating Station) for an Adjusted Standard from 35 Ill. Adm. Code 214.141, AS 02-4 (May 5, 2002).

A hearing in this rulemaking was held on October 11, 2002 in Peoria, Illinois.

Copies of the Board's opinion and order may be obtained by calling Dorothy Gunn at 312-814-3620, or by downloading copies from the Board's Web site at www.ipcb.state.il.us.

For more information contact John Knittle at (217) 278-3111 or email at knittlej@ipcb.state.il.us.

Board Accepts Proposal for Hearing in Amendments to 35 Ill. Adm. Code 602.105, 602.106, 602.108, and 602.115 (R03-21)

On April 17, 2003, the Board accepted for hearing a proposal filed on April 7, 2003 by the Illinois Environmental Protection Agency (IEPA) to amend the Board's public water supply (PWS) regulations at 35 Ill. Adm. Code 602. The proposal would allow the IEPA to continue issuing permits to PWS that do not meet the federal radionuclide standard for drinking water, but only if the PWS is bound by order or agreement to a compliance schedule for meeting the federal standard. The current exemption in Part 602 that allows such permit issuance "sunsets" December 8, 2003, which is the compliance deadline of the new federal radionuclide standard (adopted at 65 Fed. Reg. 76707, December 7, 2000). This proposal would not exempt PWS from the final radionuclide standard, but would continue the existing State exemption that keeps certain PWS from being placed on "restricted status" (*i.e.*, an Illinois-only list of PWS banned from receiving construction permits).

Section 17.6 of the Illinois Environmental Protection Act (Act) provides that the Illinois radiological quality standards must be the same as the federal standards adopted by the United States Environmental Protection Agency (USEPA). 415 ILCS 5/17.6 (2002). That standard, as codified in the Board's rules, is 5 pico curies per liter (pCi/l)

Environmental Register – April 2003

for combined radium-226 and radium –228 and 15 pCi/l for gross alpha particle activity. 35 Ill. Adm. Code 611.330. Compliance is required effective December 8, 2003.

The IEPA anticipates that approximately 50 to 60 PWS may fail to meet the December 8, 2003 deadline and be subject to the pre-enforcement processes of Section 31 of the Act. However, the IEPA maintains that those PWS meeting compliance dates of Compliance Commitment Agreements (CCAs) or court orders should be able to avoid restricted status without having to individually petition the Board for variance relief, expending PWS, Board, and IEPA resources. Accordingly, the IEPA has requested that the Board adopt final regulations in this rulemaking by the December 8, 2003 deadline.

Additionally, the IEPA's proposal contains language that would require each person signing a construction permit application for a PWS to certify that the information in the application is complete and accurate and that the text has not been altered from the IEPA's permit application form or template.

The Board has scheduled hearings in this rulemaking in Springfield on May 8, 2003 in Room 403, 600 S. Second Street, and in Chicago on May 15, 2003 in Suite 11-500 in the James R. Thompson Center, 100 W. Randolph Street.

Copies of the IEPA's proposal may be obtained by downloading from the Board's Web site at www.ipcb.state.il.us.

For more information contact Richard McGill at (312) 814-6983 or email at mcgillr@ipcb.state.il.us.

New Cases

April 3, 2003 Board Meeting

- 03-153** People of the State of Illinois v. C&F Packing Company, Inc. – The Board accepted for hearing this water enforcement action involving a Lake County facility.
- 03-154** Rosignol Marathon v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Wabash County facility.
- 03-155** Rosignol Marathon v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this McHenry County facility.
- 03-156** Swearingin Amoco v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Jersey County facility.
- 03-157** Swearingin Amoco v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Jersey County facility.
- 03-158** Swearingin Amoco v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Jersey County facility.
- 03-159** Franklin T. Fowler and Franklin D. Fowler v. Remington Hybrid Seed Company, Inc. – The Board held for a later duplicative/frivolous determination this citizen’s air noise enforcement action involving a Henry County facility.
- 03-160** Wareco Service, Inc. v. IEPA – The Board accepted for hearing this underground storage tank appeal involving a Knox County facility.
- 03-161** Solid Waste Agency of Northern Cook County v. City of Des Plaines, Illinois – No action taken.
- 03-162** Tasim Fejza v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Jersey County facility.
- 03-163** Ameren Energy Generating Company (Selective Catalytic Reduction System for No_x Emissions, Unit #2; Property Tax Identification Number 04-000-172-00) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Ameren Energy Generating Company located in Montgomery County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).
- 03-164** Ameren Energy Generating Company (Flue Gas Conditioning, SO₃ System-Opacity Unit #1; Property Identification Number 83-11-24-100-01) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Ameren Energy Generating Company located in Jasper County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).
- 03-165** Ameren Energy Generating Company (Flue Gas Conditioning, SO₃ System-Opacity Unit #2; Property Identification Number 83-11-24-100-01) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s

Environmental Register – April 2003

recommendation, the Board found and certified that specified facilities of Ameren Energy Generating Company located in Jasper County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-166 Ameren Energy Generating Company (Low NO_x Burners, Unit #2; Property Identification Number 83-11-24-1001-01) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Ameren Energy Generating Company located in Jasper County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-167 Holland Energy, L.L.C. (Dry Low NO_x Combustion System; Property Identification Number 0825-16-00-300-003) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Holland Energy, L.L.C. located in Shelby County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-168 Holland Energy, L.L.C. (Selective Catalytic Reduction System; Property Identification Number 0825-16-00-300-003) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Holland Energy, L.L.C. located in Shelby County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-169 Holland Energy, L.L.C. (General Electric Turbine; Property Identification Number 0825-16-00-300-003) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Holland Energy, L.L.C. located in Shelby County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-170 Holland Energy, L.L.C. (Continuous Emissions Monitoring System; Property Identification Number 0825-16-00-300-003) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Holland Energy, L.L.C. located in Shelby County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-171 Dynegy Midwest Generation, Inc. (Refurbished Electrostatic Precipitator Unit 1 & 2; Property Identification Number 01-27-100-000) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Dynegy Midwest Generation, Inc. located in Shelby County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-172 Dynegy Midwest Generation, Inc. (Refurbished Electrostatic Precipitator Unit 1; Property Identification Number 17-20-300-006-0080) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Dynegy Midwest Generation, Inc. located in Vermilion County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-173 Dynegy Midwest Generation, Inc. (Refurbished Electrostatic Precipitator Unit 2; Property Identification Number 17-20-300-006-0080) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Dynegy Midwest Generation, Inc. located in Vermilion County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-174 Dynegy Midwest Generation, Inc. (Electrostatic Precipitator Unit 5; Property Identification Numbers 9-1-08-19-00-000-002, 9-1-08-19-00-000-006, 19-1-08-20-00-000-010) v. IEPA – Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Dynegy Midwest Generation, Inc. located in Madison County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-175 Dynegy Midwest Generation, Inc. (Refurbished Flue Gas Conditioning SO₃ System Unit 2; Property Identification Number 01-27-100-00) v. IEPA - Upon receipt of the Illinois Environmental Protection Agency’s recommendation, the Board found and certified that specified facilities of Dynegy Midwest Generation, Inc. located in Putnam County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

Environmental Register – April 2003

03-176 Dynergy Midwest Generation, Inc. (Refurbished Low NO_x Burner Unit 3/Separated Overfire Air System; Property Identification Number 02-10-100-001) v. IEPA - Upon receipt of the Illinois Environmental Protection Agency's recommendation, the Board found and certified that specified facilities of Dynergy Midwest Generation, Inc. located in Randolph County are pollution control facilities for the purpose of preferential tax treatment under the Property Tax Code (35 ILCS 200/11-10 (2002)).

03-177 Cady Oil Co. v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Peoria County facility.

AC 03-024 IEPA v. Arrowhead Tree Removal, Inc. – The Board accepted an administrative citation against this Jersey County respondent.

AC 03-025 IEPA v. Milton Hampton – The Board accepted an administrative citation against this White County respondent.

AC 03-026 IEPA v. Larry Beam – The Board accepted an administrative citation against this Henry County respondent.

AC 03-027 IEPA v. Vince Harvey – The Board accepted an administrative citation against this Henry County respondent.

April 17, 2003 Board Meeting

03-178 Bill's Full Service v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this McLean County facility.

03-179 Freedom Oil Company v. IEPA – The Board accepted for hearing this underground storage tank appeal involving an Edgar County facility and granted petitioner's motion to consolidate this matter with PCB 03-54, PCB 03-56, and PCB 03-105.

03-180 Royer Oil Company v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Bond County facility.

03-181 Gary Lewis v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Clinton County facility.

03-182 People of the State of Illinois v. Reilly Industries, Inc. – The Board accepted for hearing this Resource Conservation and Recovery Act, air, and water enforcement action involving a Madison County facility.

03-183 People of the State of Illinois v. Passavant Area Hospital – The Board accepted for hearing this air enforcement action involving a Morgan County facility.

03-184 Northrup Oil Company v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Bureau County facility.

03-185 Swif-T-Food Mart v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Lake County facility.

03-186 Royer Oil Company v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Bond County facility.

03-187 Royer Oil Company v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Bond County facility.

03-188 Prime Time Citgo v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this Kane County facility.

03-189 Brock Oil Company v. IEPA – The Board granted this request for a 90-day extension of time to file an underground storage tank appeal on behalf of this McLean County facility.

03-190 People of the State of Illinois v. Village of Cherry Valley – The Board accepted for hearing this public water supply enforcement action involving a Winnebago County facility.

Environmental Register – April 2003

R03-021 In the Matter of: Amendments to 35 Ill. Adm. Code 602.105, 602.106, 602.108, and 602.115 – The Board accepted for hearing the Illinois Environmental Protection Agency’s April 7, 2003 proposal to amend the Board’s permitting rules for Illinois public water supplies.

Illinois Environmental Protection Agency

Division of Public Water Supplies

Restricted Status List -- Public Water Supplies

The Restricted Status List was developed to give additional notification to officials of public water supplies which are in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

The Restricted Status List will include all Public Water Supplies for which the Agency has information indicating a violation of any of the following requirements: Finished water quality requirements of 35 Ill. Adm. Code, Part 604, Subparts B and C; maintenance of adequate pressure on all parts of the distribution system under all conditions of demand; meeting raw water quantity requirements of 35 Ill. Adm. Code 604.502; or maintenance of treatment facilities capable of providing water "assuredly adequate in quantity" as required by Section 18 of the Illinois Environmental Protection Act.

A public water supply on the Restricted Status List will not be issued permits for water main extensions, except for certain limited situations, or unless the supply has been granted a variance from the Illinois Pollution Control Board for the violation, or from permit issuance requirements of Section 39 of the Act.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of April 1, 2003.

* Indicates public water supplies that have been added to the list since the previous publication.

Illinois Environmental Protection Agency

Division of Public Water Supplies

Critical Review List -- Public Water Supplies

The Critical Review List was developed to give additional notification to officials of public water supplies which may be close to being in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

A supply will be placed on the Critical Review List when Agency records indicate that it is approaching any of the violations which would place it on the Restricted Status List.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of April 1, 2003.

* Indicates public water supplies, which have been added to the list since the previous publication.

NAME OF PUBLIC WATER SUPPLY/COUNTY/FACILITY	EPA #RGN	NATURE OF PROBLEM	POP. SERVED	LISTING DATE
Arenzville (Cass Co - 0170050)	5	Inadequate Pres Tank	492	03/14/01
Beecher (Will Co - 1970050)	2	Inadequate Storage Capacity	2,032	03/14/01
Bluford (Jefferson Co - 0810100)	7	Low System Pressure	465	03/20/81
Browning (Schuyler Co - 1690050)	5	Inadequate Source	495	03/15/98
Clayton Camp Point Wtr Cmsn (Adams Co - 0015200)	5	Inad Pumping Capacity	1,200	09/15/98
Clinton (DeWitt Co - 0390050)	4	Inad Plant Capacity	7,437	06/14/91
Columbia (Monroe Co - 1330050)	6	Inad Pumping Capacity	5,893	03/15/98
DePue (Bureau Co - 0110300)	1	Inad Treatment Plant	1,930	12/15/93
Elizabeth (Jo Daviess Co - 0850150)	1	Low System Pressure	700	06/15/99
Evansville (Randolph Co - 1570250)	6	Low System Pressure	1,838	05/25/81
Galena (Jo Daviess Co - 0850200)	1	Low System Pressure	3,790	06/15/99
Georgetown (Vermilion Co - 1830350)	4	Inadequate Water Plant	3,678	06/15/93
Highland Hills Sndst (DuPage Co - 0435560)	2	Inadequate Pres Tank	1,100	09/17/92
Joy (Mercer Co - 1310100)	1	Low System Pressure	495	06/15/99
LaMoille (Bureau Co - 0110500)	1	Inadequate Plant Capacity	750	06/15/99
Mahomet (Champaign Co - 0190450)	4	Inadequate Plant Capacity	4,877	10/15/02
