Inspection Report Narrative

This site was inspected on September 15, 2006 between the hours of 11:30 in the morning and 12:08 in the afternoon. The inspection was conducted by Darlene K. Powell (author of report) and Sherri Ludlam, representing the Macon County Solid Waste Management Department. Weather conditions at the time of the inspection were sunny and clear, with an air temperature in the eighties. Twenty-seven photographs were taken. Follow-up interviews were conducted with Tim Walker, Gary Yaste, Rose Mary Thurman, and Dennis Ballinger. No samples were collected.

General Information/Site History

The property is located in Macon County, at 3710 Christmas Tree Road, in Whitmore Township. The property is 5.63 acres. Another 14.4 acres, at 3610 Christmas Tree Road, is owned by the same individual. The two properties are contiguous and are connected by at least one path accessible by motor vehicle. This inspection was conducted after receiving a complaint that open dumping of demolition debris was occurring on the property.

Property Ownership

This property is owned by Timothy Walker. This information was obtained from the Macon County Supervisor of Assessment's Office.

Inspection Findings

We arrived on site at 11:30 in the morning. As we approached the front door, we could see it was open. We knocked three times but received no answer. At 11:38 in the morning we began inspecting the property. Slightly to the southeast of the house we noticed a burn pile that was approximately eight feet across by three feet high. The pile consisted of landscape waste and household waste including a suitcase, articles of clothing, plastic, metal, paper, and cardboard (Photographs 1 and 2). We could smell oil in the area, but it was not possible to determine where the odor was originating from on site.

We drove back down the main driveway heading west and turned up a path that took us to another portion of Mr. Walker's property. On the east side of the path we noticed 6 piles of landscape waste consisting of woodchips (Photographs 3 and 4). Further east of the landscape was a path leading to a large pile of dimensional lumber and landscape waste, which consisted of tree trunks, stumps, and branches

(Photographs 6 – 10). On the west side of the path we observed approximately 10 piles of landscape waste, once again consisting of woodchips (Photograph 11), and further west near a tree line was a pile of aluminum siding (Photographs 12 and 13). Walking up the path toward the aluminum siding, we noticed another pile of dimensional lumber (Photograph 14). The aluminum siding was in a large pile out in the open exposed to the elements (Photographs 15 and 16).

After walking around, we drove up the path and noticed another driveway, for the 3610 Christmas Tree Road residence. From a distance, the driveway appeared to consist of gravel and dirt. Upon further investigation, we noticed a portion of the driveway had been constructed using drywall (demolition debris) (Photographs 17 – 19). Slightly to the north of the driveway we noticed garbage bags that contained empty tubes of caulk and other materials that would be used when working with drywall (Photograph 20). Another pile of garbage was on the south side of the driveway, including a bag of mufflers (Photograph 21). The driveway stretched down to Christmas Tree Road, and the portion of the driveway closest to the house appeared to be the only section that had drywall in it (Photograph 22). We concluded the inspection and left the site at 12:08 in the afternoon.

Follow-up Interviews

After completing the inspection of Mr. Walker's property, we drove to 1630 North Water Street. When we received the initial complaint regarding Mr. Walker's site, the caller indicated the demolition debris could be coming from a house on North Water Street that was being demolished. We arrived at 1630 North Water Street at 12:35 in the afternoon. We asked Mr. Walker who owned the property. Mr. Walker told us the owner was Ballinger Real Estate, and he was hired by Mr. Ballinger to do the demolition. We asked Mr. Walker where the demolition debris was being taken for disposal. Mr. Walker said the debris was going to the Clinton Landfill. We asked if the receipts for the landfill would be going to him or the owner of the property, which he indicated was Ballinger Real Estate. Mr. Walker said the receipts from the landfill would be going to him. It appeared as though the house was approximately halfway through the demolition process; two roll-off boxes (Area Disposal) and a smaller dump truck, owned by Mr. Walker, were being used to haul debris off of the property (Photographs 23 – 27).

We asked Mr. Walker how many loads of waste had been taken in his dump truck to the landfill and how many loads had been taken to the landfill in the roll-offs. Mr. Walker indicated that two trips had already been made to the landfill using his dump truck, and they were working on a third truckload when we arrived at the site. Mr. Walker said that two or three loads had already been taken to the landfill using the roll-offs. Mr. Walker asked if there was a problem. We advised him of the complaint we received regarding the dumping of demolition debris on his property. Mr. Walker insisted the debris was not being dumped on his property. We thanked him for his time and left the site at 12:44 in the afternoon.

I called the Clinton Landfill Facility Manager, Mr. Gary Yaste, on Monday, September 18, 2006. I briefly explained the situation regarding the demolition of the house located at 1630 North Water Street. I asked Mr. Yaste if there would be a way to

track how many loads Mr. Walker had already taken to the Clinton Landfill. Mr. Yaste advised me that it was not possible to track any loads brought in by Mr. Walker's dump truck as a cash paying customer. Mr. Yaste said he would check on the number of loads brought to the landfill in the roll-offs and would call me back. According to Mr. Yaste's scale tickets, two dumpsters of demolition debris were brought to the landfill as of September 18, 2006, the first on September 7, 2006 and the second on September 15, 2006. Mr. Yaste faxed me a copy of each scale ticket for 1630 North Water Street.

The demolition debris from 1630 North Water Street was being disposed of under the business name Walker Home Service. A listing for Walker's Home Service was listed in the Decatur area phone book. Walker's Home Service does not have a physical address, but the zip code associated with the business is the same as Mr. Walker's home address on Christmas Tree Road, 62521. The phone number associated with Walker's Home Service is 217-875-3418. This phone number is also connected to his 3710 Christmas Tree Road address.

I called the City of Decatur Planning and Zoning Department on September 26, 2006 to verify a demolition permit was obtained for 1630 North Water Street. I spoke with Rose Mary Thurman, Senior Clerk Typist. Mrs. Thurman verified a permit was on file with the City of Decatur, and Tim Walker was the contractor for the demolition at 1630 North Water Street. I also called Ballinger Real Estate on September 26, 2006. I spoke with Dennis Ballinger Senior regarding the demolition of the home at 1630 North Water Street. Mr. Ballinger verified that Mr. Walker was hired to tear down and dispose of the house. I tried calling Mr. Ballinger a second time to verify that Ballinger Real Estate owned the property. I left a message with the secretary to have Mr. Ballinger call me. I called again on September 27th and left another message for Mr. Ballinger.
