Subject: Re: 724.1101(c)(4)

John Therriault: Please print this e-mail and attach it as the end of the e-mail that I gave you marked PC 6 in docket R07-5/R07-14. Use the your usual designation indicating this as an e-mail and attached reply.

Deborah Connelly:

This language directly follows the federal language of corresponding 40 C.F.R. 264.1101(c)(4). The antecedent to "it must inspect and record in the facility's operating record" is "data gathered from monitoring equipment and leak detection equipment, as well as the containment building and the area immediately surrounding the containment building, to detect signs of releases of hazardous waste." Using the words "it must inspect the record" would impermissibly shift the meaning of the original USEPA provision. What may be confusing is the intervening new alternative language relating to members of the Fast Track Program.

The following change in the language, which primarily involves moving that language relating to the Fast Track Program to the end of the provision for inclusion as an exception to the general requirement, would require less effort to read clearly:

"It must inspect and record in the facility's operating record, at least once every seven days, data gathered from monitoring equipment and leak detection equipment, as well as the containment building and the area immediately surrounding the containment building, to detect signs of releases of hazardous waste, except that the owner or operator of a Performance Track member facility must inspect the record at least once each month after approval by the Agency."

Subject: Re: 35 IAC 727.170(f)(2)(C)

John Therriault: Please print this e-mail and attach it as the end of the e-mail that I gave you marked PC 6 in docket R07-5/R07-14. Use the your usual designation indicating this as an e-mail and attached reply.

Deborah Connelly:

Thanks, I will assure that the correction to "35 Ill. Adm. Code 724" is made.

Contains a reference to "35 Ill. Adm. Code 264" rather than "35 Ill.
Adm. Code 724".
