Narrative

On July 9, 2008 [10:50 AM to 11:00 AM], this author (Robert J. Wagner) conducted an open dump re-inspection of property owned by George R. Ford. The property is located approximately 1 1/4 miles south of Illinois Route 9 on Smithfield Road (see attached site map).

History

This site was originally inspected on April 19, 1989, as an open dump because of a citizen complaint. A Pre-Enforcement letter was sent to George R. Ford for open dumping violations. These violations were subsequently resolved during a June 9, 1989 inspection. On June 17, 1991, George R. Ford received an Administrative Warning Notice for open dumping at the property. On July 17, 1991, George R. Ford adequately responded to the letter.

On September 18, 2007, an inspection took place at the Ford Property. On October 12, 2007, the property owner, George R. Ford was sent an Administrative Citation Warning Notice (ACWN) for the following violations: Section 9(a), 9(c), 21(a), 21(d)(1), 21(d)(2), 21(e), 21(p)(1), 21(p)(3), 21(P)(7), 55(a)(1), and 55(a)(2) of the Act and Section 812.201(a) of the Regulations. Mr. Ford did not respond to the ACWN.

Inspection

This author arrived at the property at 10:50 AM. This author knocked on the door to the house located on the property. The house was abandoned. Since the area in question was in clear site from the road and there was no expectation of privacy this author proceeded with the inspection. This author observed the charred remains of vinyl siding, processed wood fragments, tire beads, and metal debris dumped in a burn pile with a fence around the area. Photographs 1, 2, 3, and 4 show the charred remains of vinyl siding, processed wood fragments, tire beads, and metal debris. The size of the burn pile was approximately 5 feet long by 5 feet wide by 1 foot high (1 yd³).

Photographs 7, 8, 9, and 10 show a pile of waste material located northeast of the original pile sited in the October 12, 2008 ACWN (see site sketch). The waste pile consisted of trees branches tree trunks, and the charred remains of vinyl siding. The size of the new pile was approximately 10 feet long by 10 feet wide by 14 foot high (51 yd³). This author departed the site at 11:00 AM.

George R. Ford is the property owner. This author spoke to George R. Ford via telephone. According to George R. Ford, he was responsible for the open burning of the waste materials. Mr. Ford is a general contractor who travels the area doing construction work. He on occasion brings back waste material generated from these job sites and disposes of them by open burning. The second waste pile according to Mr. Ford was generated from cleaning debris from around the property.

The following alleged violations were observed and indicated on the open dump inspection checklist:

1. Pursuant to Section 9(a) of the {Illinois} Environmental Protection Act (415 ILCS 5/9(a)), no person shall cause or threaten or allow the discharge or emission of any contaminant into the environment in any State so as to cause or tend to cause air pollution in Illinois, either alone or in combination with contaminants from other sources, or so as to violate regulations or standards adopted by the Board under this Act.

A violation of Section 9(a) is alleged for the following reason: **Evidence of open burning which would cause or tend to cause air pollution in Illinois was observed during the inspection.**

2. Pursuant to Section 9(c) of the {Illinois} Environmental Protection Act (415 ILCS 5/9(c)), no person shall cause or allow the open burning of refuse, conduct any salvage operation by open burning, or cause or allow the burning of any refuse in any chamber not specifically designed for the purpose and approved by the Agency pursuant to regulations adopted by the Board under this Act.

A violation of Section 21(d)(1) is alleged for the following reason: **Waste was disposed without a permit granted by the Illinois EPA.**

A violation of Section 55(a)(2) is alleged for the following reason: **Evidence of open burning of used or waste tires was observed during the inspection.**

12. Pursuant to 35 Ill. Adm. Code 812.101(a), all persons, except those specifically exempted by Section 21(d) of the {Illinois} Environmental Protection Act, shall submit to the Agency an application for a permit to develop and operate a landfill.

A violation of 35 Ill. Adm. Code 812.101(a) is alleged for the following reason: **A waste disposal site was operated without submitting to the Illinois EPA an application for a permit to develop and operate a landfill.**
