Letter from the Chairman

Generally, with this letter I highlight some of the Board's work performed over the prior month; however, this month we welcome a new Board Member, Dr. Shundar Lin and honor the service of departing Board Member, Nicholas J. Melas.

We welcome the appointment, effective November 3, 2008, of new Board Member, Dr. Shundar Lin. Dr. Lin comes to the Board after serving nearly 35 years as Senior Professional Scientist at the Illinois State Water Survey. Throughout his career, he has gained extensive research experience in microbiology, lake and stream water quality, wastewater management, stream sanitation, and environmental engineering. Dr. Lin earned a B.S. in Civil Engineering from National Taiwan University, a M.S. in Sanitary Engineering from the University of Cincinnati, and a Ph.D. in Sanitary Engineering from Syracuse University.

Meanwhile we bid farewell to Board Member Melas who was first appointed to the Board in May 1998 and reappointed in 2000, 2003, and 2005. His last day at the Board was November 30. Member Melas distinguished public service career over six decades has included 30 years as Commissioner of the Metropolitan Water Reclamation District of Greater Chicago and President of its Board for the last 18 of those years. Member Melas has a deep involvement with a wide range of professional, environmental, religious, and community service organizations. From the University of Chicago, he earned an M.B.A. from the Graduate School of Business as well as a B.S. in Chemistry.

During his Board tenure, Member Melas' commitment and expertise contributed immeasurably to the Board's work. With all the time and knowledge he has generously committed to our work, he has earned the appreciation, respect, and friendship of many persons, particularly his fellow Board members and the Board's staff. He has our fond best wishes for success and happiness in all of his future endeavors.

Sincerely,

A handwritten signature in black ink that reads "G. Tanner Girard". The signature is written in a cursive, flowing style.

Dr. G. Tanner Girard

Rule Update

Board Adopts First Notice Proposal Without Comment on Merits in Amendments to 35 Ill. Adm. Code 225: Control of Emissions from Large Combustion Sources (Mercury Monitoring), R09-10

On November 5, 2008, the Illinois Pollution Control Board accepted for hearing the October 3, 2008 proposal from the Illinois Environmental Protection Agency (IEPA) to amend Part 225 of the Board's air pollution regulations. IEPA's proposal seeks to recreate certain monitoring provisions of the federal Clean Air Mercury Rule (CAMR), which was recently vacated by a federal court. The proposed rule was docketed as In the Matter of: Amendments to 35 Ill. Adm. Code 225: Control of Emissions from Large Combustion Sources (Mercury Monitoring), R09-10. In its November 5, 2008 order, the Board also granted the IEPA's motion for expedited review of the proposal. The Board directed the Clerk to cause publication of the proposal in the *Illinois Register* for first notice without commenting on its substantive merits.

The IEPA, in its statement of reasons supporting the proposal, states that CAMR provided that states must require electric generating units "to comply with the monitoring, recordkeeping, and reporting provisions of Part 75 of the *Code of Federal Regulations* with regard to monitoring emissions of mercury to the atmosphere." The current Illinois mercury rule specifically requires compliance with 40 C.F.R. Part 75. However, the United States Court of Appeals for the District of Columbia recently vacated CAMR, removing the monitoring provisions of that rule, and creating the need to amend Part 225 "to recreate certain monitoring provisions of the federal rule." The IEPA claims that "[t]he substance of Part 225 is unchanged as those regulations will continue to address the control of mercury emissions from coal-fired electric generating units beginning in July 2009."

Hearings are scheduled for:

December 17, 2008, at 9:00 am at the IEPA Office Building, Training Room 1214 West, 1021 N. Grand Avenue East, North Entrance, Springfield, Illinois; and

January 13, 2009, 11:00 am in Room 11-512 (Illinois Pollution Control Board Videoconference Room) at 100 W. Randolph Street, James R. Thompson Center, Chicago, Illinois.

Interested persons should consult the November 7, 2008 hearing officer order which sets deadlines for the pre-filing of testimony and discusses other hearing procedures.

Publication of these proposed amendments in the *Illinois Register* will begin a 45-day public comment period, during which anyone may file a public comment with the Board. The Board encourages persons to file public comments on these proposed amendments. The docket number for this rulemaking, R09-10, should be indicated on the public comment.

Public comments must be filed with the Clerk of the Board. Public comments may be filed at the following address:

Pollution Control Board
James R. Thompson Center
100 W. Randolph Street, Suite 11-500
Chicago, IL 60601

In addition, public comments may be filed electronically through the Clerk's Office On-Line (COOL) at www.ipcb.state.il.us. Any questions about electronic filing through COOL should be directed to the Clerk's Office at (312) 814-3629

Environmental Register – November 2008

Opinions and orders of the Board, hearing officer orders, hearing transcripts, and other documents in rulemaking records are posted on the Board's Web site and may be downloaded from the Web without charge. Hard copies may be obtained for \$.75 per page from the Clerk's office.

Board Adopts Rules “Identical in Substance” to Federal Rules in Wastewater Pretreatment Update, USEPA Amendments (January 1, 2007 through June 30, 2007) R08-5

On November 20, 2008, the Board adopted final rules in Wastewater Pretreatment Update, USEPA Amendments (January 1, 2007 through June 30, 2007 and June 3, 2008), R08-5, amending Illinois regulations that are “identical in substance” to wastewater pretreatment regulations adopted by the United States Environmental Protection Agency (USEPA). The amendments incorporate into the Illinois wastewater pretreatment amendments in response to one USEPA action that occurred during the identical-in-substance update period of January 1, 2007 through June 30, 2007. On March 12, 2007, USEPA adopted amendments relating to analytical methods approved under the wastewater pretreatment and drinking water programs.

The R08-5 docket includes federal pretreatment amendments that USEPA adopted in the consecutive time period January 1, 2007 through June 30, 2007, and amends the Board's rules at 35 Ill. Adm. Code Parts 307 and 310.

March 12, 2007 (at 72 Fed. Reg. 11200)

USEPA modified the testing procedures approved for sampling an analysis in programs established under the Clean Water Act (CWA) and SDWA. The wastewater pretreatment rules are established under the CWA, and the Primary Drinking Water Regulations are established under SDWA. The amendments updated the versions allowed for existing methods and approved new methods for use. The Board adopted this proposal for public comment on August 7, 2008, as part of consolidated docket R08-5, R08-7; and R08-13. R08-5 was separated from the other dockets September 4, 2008. The R08-5 proposal was published in the *Illinois Register* at 32 Ill. Reg. 14032 (Part 307), 14054 (Part 310) (August 29, 2008). Only one relevant public comment was received during the public comment period that ran from August 29, 2008 through October 13, 2008. The adopted amendments are substantively unchanged from the proposal.

The Board will file the adopted amendments with the Office of the Secretary of State (SOS) and submit them for publication in the *Illinois Register*. The rules are effective upon filing with the SOS.

The Board's opinions and orders in this docket are posted on the Board's Web site and may be downloaded from the Web without charge. Hard copies may be obtained for \$.75 per page from the Clerk's office.

For more information contact Michael McCambridge at 312-814-6924 or email at mccambm@ipcb.state.il.us.

Board Adopts Final Rules in RCRA Subtitle Update USEPA Amendments (January 1, 2008 through June 30, 2008) (R09-3)

On November 20, 2008, the Board adopted final rules in RCRA Subtitle Update USEPA Amendments (January 1, 2008 through June 30, 2008) (R09-3), updating the Illinois hazardous waste regulations to incorporate revisions to the federal regulations. The United States Environmental Protection Agency (USEPA) adopted the federal hazardous waste amendments that prompted this update during the time periods of January 1, 2008 through June 30, 2008. This rulemaking amends 35 Ill. Adm. Code 721, 721, 724, 725, 726, and 728. The docket also includes amendments responding to comments submitted by USEPA after the conclusion of the prior update docket: RCRA Subtitle C Update, USEPA Amendments (March 5, 2005, September 8, 2005, January 1, 2006 through June 30, 2006) R07-5, RCRA Subtitle C Update (July 1, 2006 through December 31, 2006), R07-14 (June 5, 2008) (consolidated).

USEPA amended the federal hazardous waste regulations three times during the period January 1, 2008 through June 30, 2008, as follows:

January 2, 2008 (at 73 Fed. Reg 57)

USEPA broadened an existing exclusion from the definition of solid waste for oil-bearing secondary materials that are reinserted into the refining process. The exclusion now embraces the gasification of oil-bearing secondary materials when processed in a gasification system at a refinery for production of synthesis gas.

Environmental Register – November 2008

The Board has incorporated the limited federal amendments into the Illinois rules. As required, the Board added a new definition of “gasification” to 40 C.F.R. 720.110 and amended the existing exclusion from the definition of solid waste in 35 Ill. Adm. Code 721.104.

April 8, 2008 (at 73 Fed. Reg. 18970)

USEPA amended the October 12, 2005 (70 Fed. Reg. 59402) Hazardous Waste Combustor Rule. The body of hazardous waste combustor rules is codified as an air rule, at subpart EEE of 40 C.F.R. 63, and the major portion of the April 8, 2008 amendments involved subpart EEE. The HWM facility standards of 40 C.F.R. 264 through 266 include limited segments that describe the interplay between the hazardous waste combustor rule and the HWM facility standards. The April 8, 2008 amendments included limited amendments to the HWM facility standards.

The Board incorporated the federal hazardous waste combustor rule amendments into the Illinois rules. As required, the Board updated the incorporation of subpart EEE of 40 C.F.R. 63 by reference in 35 Ill. Adm. Code 720.111 to include the amendments. The Board was also required to amend 35 Ill. Code 724.440 and 726.200.

June 4, 2008 (at 73 Fed. Reg. 31756)

USEPA amended the F019 hazardous waste listing to exempt wastewater treatment sludges from zinc phosphating when generated by a motor vehicle manufacturing process, subject to limitations. F019 waste is wastewater treatment sludge from the chemical conversion of coating of aluminum.

The Board amended the F019 waste listing in 35 Ill. Adm. Code 721.131 to correspond with the federal amendments. The amendments involved reliance on non-hazardous waste landfill requirements.

The Board will delay the filing of the adopted amendments with the Office of the Secretary of State (SOS) for 30 days, specifically to allow final USEPA review of the amendments. The Board requested that USEPA comment on the Board’s handling of the June 4, 2008 exception from the F019 hazardous waste listing. The Board has significantly altered the USEPA language of the exception, in order to tailor it to Illinois-specific regulation of non-hazardous waste landfills. The Board may have to make changes to the adopted rules prior to filing, to respond to USEPA comments.

The adopted rules are effective upon filing with the SOS. The due date for final Board action to adopt any amendments and cause them to be filed and become effective is January 2, 2009. *See* 415 ILCS 5/7.2 (2006)

The Board’s opinions and orders in this docket are posted on the Board’s Web site and may be downloaded from the Web without charge. Hard copies may be obtained for \$.75 per page from the Clerk’s office.

For more information contact Michael McCambridge at 312-814-6924 or email at mccambm@ipcb.state.il.us.

Board Actions

November 5, 2008

Chicago, Illinois

Rulemakings

R09-10	<u>In the Matter of: Amendments to 35 Ill. Adm. Code 225: Control of Emissions From Large Combustion Sources (Mercury)</u> – The Board accepted for hearing the petitioners’ October 3, 2008 proposal to amend the Board’s air pollution control regulations. The Board also granted the motions to waive copy requirement and for expedited consideration, directing first notice publication of the proposal in the <i>Illinois Register</i> without comment on its merits.	4-0 Air
---------------	---	------------

Adjusted Standards

- AS 07-6** In the Matter of: Petition of Cabot Corporation for an Adjusted Standard from 35 Ill. Adm. Code Part 738, Subpart B – The Board granted petitioner’s motion to amend the petition for an adjusted standard, but reserved ruling on petition sufficiency until the stay is lifted. 4-0
Land
- AS 08-3** In the Matter of: Petition for Adjusted Standard from 35 Ill. Adm. Code 620.420 for Nobel Risley's Landfill #2 – The Board granted an adjusted standard, subject to conditions to Nobel Risley for the closed landfill site in South Central Illinois, near the City of Benton, in rural Franklin County. 4-0

The Illinois Pollution Control Board is an independent five-member board that adopts environmental control standards, rules on enforcement actions, and other environmental disputes for the State of Illinois.

The *Environmental Register* is published monthly by the Board, and contains updates on rulemakings, descriptions of final decisions, the Board's hearing calendar, and other environmental law information.
