NARRATIVE INSPECTION REPORT

Date: April 7, 2009 Inspectors: Sheila Williams

Site Code: 0038545012 County: Alexander

Site Name: McClure/Mouser Time: 12:25 P.M. – 12:47 P.M.

GENERAL REMARKS

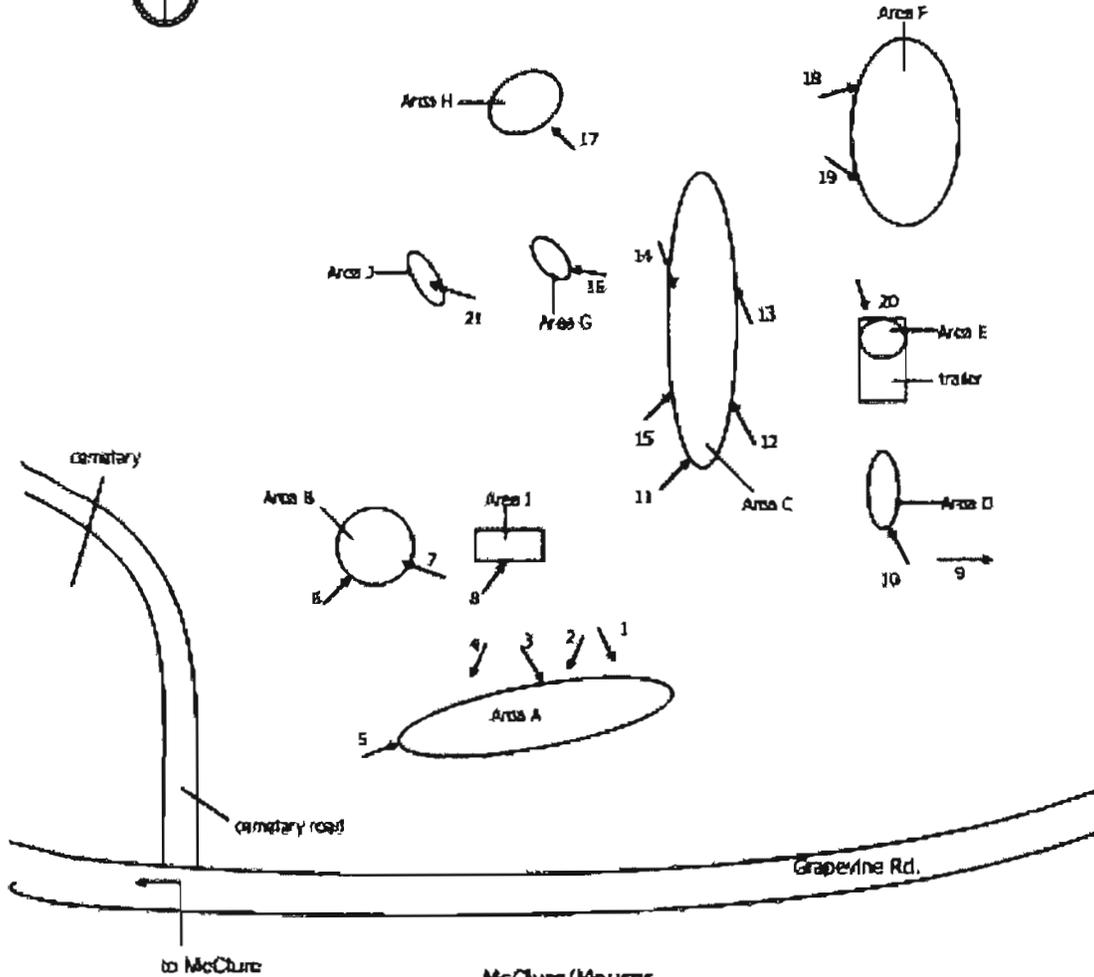

On April 7, 2009 I conducted a follow up inspection at the McClure/Mouser site. I was accompanied by Phil Fatka. There was no one else present during the inspection. The initial inspection was conducted on October 28, 2008 at which time apparent violations pertained to open dumping. It was apparent that not only was much the previously noted waste still present, but additional wastes has been brought to the site. On December 8, 2008 I spoke with Stanley Mouser. He shared the following:

- He has been a carpenter for 42 years.
- He is not trying to have a landfill at this site.
- He has a friend, Mr. Renshaw, who is a licensed waste hauler that is going to help him clean up & dispose of the waste. Mr. Renshaw's company is called Sabre.
- The wastes at the site are from houses that Mr. Mouser worked on.

Other than scattered debris, ten areas of apparent violations were observed during the current inspection. These have been designated as Area A – Area J. Among the scattered wastes were metal & plastic buckets, cardboard, roofing debris, a cooler & cans. The wastes observed were not in use, not useable in their current conditions and/or not being protected for future use. Area A did not appear to have changed since the previous inspection. Wastes included, but were not limited to a mattress,

glass, demolition wood, shingles & general refuse. Area A was estimated to be approximately 69 cubic yards (50'x15'x2.5') in size. Area B consisted of metal, demolition debris & general refuse mixed with landscape waste. Area B was estimated to be approximately 10 cubic yards (7.5'x7.5'x5') in size. Refuse in Area C included, but was not limited to a microwave oven, a glass pane, a variety of metal, a decrepit election sign, a double kitchen sink, a plastic drum, a range & a clothes washing machine. Some of the items in Area C were holding water. Area C was estimated to be approximately 21 cubic yards (37.5'x7.5'x2') in size. Among the debris in Area D were four tires (two holding water) & demolition wood. Area D was estimated to be approximately three cubic yards (10'x7.5'x1') in size. Wastes in Area E were in a mostly enclosed trailer. They consisted of gas cylinders, demolition debris, metal & what appeared to be bags of concrete mix. Leaves had accumulated among the debris. Area E was estimated to be approximately four cubic yards (7.5'x5'x2.5') in size. Among the wastes in Area F were a tire, hose, demolition debris, concrete, siding, PVC pipe, foam pad & plastics. Area F was estimated to be approximately 23 cubic yards (12.5'x12.5'x4') in size. Wastes present in Area G were siding, a tarp & a plastic bucket. Area G was estimated to be approximately three cubic yards (15'x5'x1') in size. Wastes in Area H consisted of squares of Styrofoam with landscape waste intermingled, cardboard & a variety of metal. Area H was estimated to be approximately six cubic yards (15'x10'x1') in size. Among the debris in Area I were demolition debris on a trailer & a vehicle battery. Area I was estimated to be approximately two cubic yards (5'x3.5'x2.5') in size. Wastes in Area J included, but were not limited to, siding, a variety of metal, gutters & a tarp. Area J was estimated to be approximately four cubic yards (15'x5'x1.5') in size.

According to the Alexander County Supervisor of Assessments Office, Stanley Mouser of McClure still receives the tax bill for the piece of property on which this site is situated.
