STATE OF ILLINOIS
Pollution Control Board

1. Car in this picture was towed for a customer. Customer has not paid the bill on it. Found out that local finance company holds the title and customer occasionally pays a little on the bill.
2. All house hold goods have been hauled away. The "white good" in the picture is a soda machine that works and is for sale.
3. The car in this picture is mine. It needs an engine. I hope to repair it and drive it someday.
4. Car is a rust free 1966 Chevy Impala. I hope to be able to restore it some day.
5. I'm keeping this van for the engine and transmission. It will fit in my pick-up and tow truck.
6. I own 3 Ford pick-up trucks. I use this one for parts to fix the other ones. It still has a lot of parts left on it that I can use.
7. The first truck is a Nissan that I use around the farm. The truck runs and drives, we use the truck weekly. The second truck is a Ford Ranger. I have another one I use in the oilfield. This truck is for parts. I had 3 other Ford Rangers that I got rid of per Mr. Garrison's request.
8. This car was going to be repaired and sold. It needed a new fuel pump. The windows were rolled down I rolled them back up.

9. The first car in the picture runs, I not sure what I'm going to do with it right now. The second car in the picture is a Bomber class race car and I plan on racing it this summer or next. The truck in this picture runs and is a back up truck.
10. This is the same truck that is in picture # 9. I use it as a back up truck.
11. This is a Pontiac Fiero that I use for parts. I have another Fiero that I race in the Hornet Class and the race track.
12. This truck runs all it needs is a new transmission. There is a lien on it at The Clay City Banking Company.
13. This car was wrecked in October of 2008. Hite a deer with it. I have purchased all the parts to fix it plan on doing it this summer.
