This follow-up was made as the result of a complaint received by this office and a May 31, 2009 deadline for cleanup. The site is located at ~402 E. Yung Road (approximation given by Franklin County Tax Assessor) in Sesser, Illinois. The site was easily accessed by a field road next to Burlington Northern Railroad. According to the Franklin County Tax Assessor, the property is owned by Gary J and James R. Szczeblewski of 411 E. Franklin Street in Sesser. The tax bill is being sent to Gary J. and James R. Szczeblewski at P.O. Box 564 in Sesser, Illinois. The parcel number is 01-12-402-001, lot 3 of SE Yung Road.. Phil Fatka accompanied this inspector on the follow-up. Twelve pictures were taken of the waste, which consisted of metals, shingles, construction/demolition debris (CDD), furniture, burned debris, and general refuse. Open burning had occurred at the site and was noted during the previous inspection.

We arrived at the site to find the gate onto Yung Road still open (picture 001). A field road led through the gate and semi-parallel with the railroad tracks. The field road was extremely muddy and the truck we were driving had to put in 4-wheel drive in order to access the area of open dumping. We drove down the field road and spotted several areas of open dumping that were still visible even with the weeds now overgrown (pictures 002-005 and 007-012). Picture 006 shows the amount of weed growth since the March 31, 2009 initial inspection. It was apparent from the debris on site that the waste had been brought in from off-site and continued to be brought in as pictures 008 and 009 show new waste (a cigarette sorter from a store) having been added since the last inspection. We were able to go over the running waster (creek bed or field tile area) but the field had been planted just north of the water and we were unable to access any area having to do with the mine (AMLRP). The noted open dumping is approximately 1/8 to 1/4 mile from any mine related structures or shafts.

Pictures 0550455034~03312009-012 through 013 show the gate open and CDD as you enter the gate. The same remains for this inspection as shown in picture 0550455034-06112009-001. The debris is obscured by the overgrowth between the field road and the railroad tracks. Picture 0550455034~06112009-002 shows the presence of CDD and a tire not noted during the previous inspection. Pictures 0550455034~06112009-003 and 004 show the same debris present in pictures 0550455034~03312009-003 and 004. The tires are now hidden due to the weed overgrowth in the area. Picture 0550455034~06112009-005 shows the same plastic (teal colored) slide, shingles, and a white garden hose hidden by overgrowth as in picture 0550455034~03312009-005. Pictures 0550455034~06112009-007 through 010 shows waste (55-gallon drums and commercial debris) not noted during the

previous inspection. Pictures 0550455034~06112009-011 is the same waste pile noted in picture 0550455034~03312009-010 with more CDD added since the previous inspection. Picture 0550455034~06112009-012 shows the same waste (including a couch) as noted in picture 0550455034~03312009-006 during the previous inspection. Some waste noted during the initial inspection was no longer visible due to the vegetation overgrowth now on the site.

It is still unknown at this time if waste is also being dumped on railroad right-of-way property.
