Subject: HW Technical Corrections: Clarification of Partial Withdrawal

I would like confirmation that I fully understand what EPA withdrew in the June 4, 2010 partial withdrawal of the March 18, 2010 technical corrections. Please confirm whether my understanding is correct, as I will need to begin the process of making revisions in the Illinois rules to correspond with the March 18, 2010 technical corrections.

As I read the partial withdrawal, EPA withdrew items 14.a., 21.a., 21.b., 21.c., 21.e., and 41. All other amendments are valid, including 14.b., 14.c., 14.d., 14.e., 21.d., 21.f. 21.g., 21.h., 21.i., 21.j., and 21.k., correct?
