**Case Number PCB2010-103 – 500 acre expansion of DeKalb County landfill and acceptance of waste from 16 other Illinois Counties**

**To Whom It May Concern:**

**I am writing to let you know that I am 100 percent against the plan to enlarge the DeKalb County landfill and the acceptance of waste from 16 other Illinois counties.**

**This does not meet with my approval and most of the people that I talk with on a day to day basis.**

**This is short-sighted and furthermore, it is a means that cannot be justified as in the best interest of the people of DeKalb County.**

**The County Board should be ashamed of what they have done, railroading this through as though it was an honest attempt to serve their constituents.**

**This proposal must be stopped. I implore you to do so.**

Sincerely,

**Hank Brooks

DeKalb, IL 60115**
