Letter from the Chairman

During November and December, the Board acted in several rulemaking dockets, and I've summarized that activity below. As always, information about these proceedings is available through the Clerk's Office Online (COOL) at our Web site at www.ipcb.state.il.us.

On December 15, 2011, the Board adopted a second-notice opinion and order in R8-9(B), Water Quality Standards and Effluent Limitations for the Chicago Area Waterway System (CAWS) and the Lower Des Plaines River: Proposed Amendments to 35 Ill. Adm. Code 301, 302, 303 and 304. The Board proposed an effluent limit of 400 fecal coliform colony forming units per 100 mL if fewer than 10 samples are taken in a month to be applicable from March 1 through November 30 for effluent discharges to Primary Contact Recreation Use water segments of the CAWS. The effective date is March 1, 2016. The Board declined to establish an effluent limit for other segments of the CAWS and Lower Des Plaines River that are designated as Incidental Contact Recreation Use, Non-contact Recreation Use, and Non-Recreation Use waters.

On December 1, 2011, the Board in R12-10 adopted rules establishing a program for Registration for Smaller Sources (ROSS). Public Act 97-0095, effective July 12, 2011, includes a new Section 9.14 of the Environmental Protection Act providing for adoption of ROSS provisions. To implement Section 9.14, the Illinois Environmental Protection Agency (IEPA) proposed adding a new Section 201.175 to the Board's existing air pollution regulations. The IEPA projected that, based on the criteria included in its proposal, "an estimated 3,230 small emission sources, or roughly 50% of the currently permitted emission sources, will no longer have direct permitting obligations to the Illinois EPA."

In R12-12, Revision of Enhanced Vehicle Emission Inspection and Maintenance (I/M) Regulations: Amendments to 35 Ill. Adm. Code Part 240, the Board held two hearings: the first on November 17, 2011, in Chicago, and the second on November 30, 2011, in Edwardsville. Under Section 13C-20(a) of the Vehicle Emissions Inspection Law of 2005 (625 ILCS 5/13C-20(a) (2010)), the IEPA proposed to sunset the steady-state idle and evaporative system integrity test standards used in the enhanced vehicle inspection and maintenance program for the Chicago and Metro-East St. Louis nonattainment areas.

On November 17, 2011, the Board accepted for hearing an IEPA rulemaking proposal in R12-13, Proposed Amendments to Nonhazardous Special Waste Hauling and the Uniform Program (35 Ill. Adm. Code 809). The IEPA indicated that Public Act 97-220, effective July 28, 2011, effectively withdrew Illinois from the Uniform State Hazardous Materials Transportation and Registration Program and that the proposed amendments are necessary to remove references to it. Hearings on the proposal will take place on January 12, 2012, in Springfield and on February 15, 2012, in Chicago.

Please visit our website (www.ipcb.state.il.us) for more information on the rulemakings described above, as well as information on our docket of contested cases.

Sincerely,

A handwritten signature in dark ink that reads "Thomas Holbrook". The signature is written in a cursive style with a large, sweeping initial "T".

Thomas Holbrook
Chairman

Rulemaking Update

Board Adopts a Registration Program for Small Sources of Air Emissions, R10

On December 1, 2011, the Board timely adopted amendments to Part 201 of its air pollution regulations, which address permits and general provisions in In the Matter of: Registration of Smaller Sources (ROSS): New 35 Ill. Adm. Code 201.175, R12-10 (Dec. 1, 2011). Specifically, the Board adopted a new Section 201.175 establishing a registration program in place of the current permit requirements for such sources. An estimated 3,230 small emission sources, or roughly 50% of the currently permitted emission sources, will no longer have direct permitting obligations. The amendments became final upon filing with the Secretary of State, and were published at *35 Illinois Register* 19790 (Dec. 16, 2011).

Public Act 97-0095, effective July 12, 2011, includes a new Section 9.14 of the Environmental Protection Act providing for expedited adoption of ROSS provisions. To implement Section 9.14, the Illinois Environmental Protection Agency (IEPA), on August 15, 2011, proposed adding a new Section 201.175 to the Board's existing air pollution regulations. Based on that filing date, Board adoption of final rules was required no later than December 1, 2011.

The Board held expedited hearings on October 5, 2011 in Chicago and on October 27, 2011 in Springfield.

Opinions and orders of the Board, hearing transcripts, and other documents in rulemaking records are posted on the Board's Web site and may be downloaded from the Web without charge. Hard copies may be obtained from the Clerk's office upon payment of reproduction fees as prescribed by Section 6 of the Freedom of Information Act [5 ILCS 140/6]. The Clerk's Office address is Pollution Control Board, James R. Thompson Center, 100 W. Randolph Street, Suite 11-500, Chicago, IL 60601.

For more information contact Tim Fox at 312-814-6085 or email at foxt@ipcb.state.il.us.

Board Adopts Second Notice Opinion and Order Setting Fecal Coliform Effluent Limit for Certain Primary Contact Recreation Use Waters, R08-9 (B)

The Illinois Pollution Control Board, on December 15, 2011, adopted a second-notice opinion and order for a rule establishing an effluent limit for fecal coliform colony forming (CFU) for effluent discharges to Primary Contact Recreation Use water segments of the Chicago Area Waterway System (CAWS) and Lower Des Plaines River (LDPR). Since this rulemaking, docketed as In the Matter of: Water Quality Standards and Effluent Limitations for the Chicago Area Waterway System (CAWS) and the Lower Des Plaines River: Proposed Amendments to 35 Ill. Adm. Code 301, 302, 303 and 304, R08-09 (B), was opened in response to a proposal by the Illinois Environmental Protection Agency, the Board has held over 40 hearings. The Joint Committee on Administrative Rules has scheduled these rules for second notice review under the Administrative Procedure Act at its January 10, 2012 meeting.

The Board rules would establish an effluent limit from March 1 through November 30 of 400 CFU per 100 ml if less than 10 samples are taken in a month for effluent discharges to Primary Contact Recreation Use water segments of the CAWS. The effective date is proposed as March 1, 2016. The Board declined to establish an effluent limit for other segments of the CAWS and Lower Des Plaines River that are designated as Incidental Contact Recreation Use, Non-contact Recreation Use, and Non-Recreation Use waters at this time.

The proposed rule would apply to the following segments of the CAWS: 1) Lower North Shore Channel from North Side Water Reclamation Plant to confluence with North Branch of the Chicago River; 2) North Branch of the Chicago River from its confluence with North Shore Channel to its confluence with South Branch of the Chicago River and Chicago River; 3) Chicago River; 4) South Branch of the Chicago River; 5) Little Calumet River from its confluence with Calumet River and Grand Calumet River to its confluence with Calumet-Sag Channel; and 6) Calumet-Sag Channel.

The Board, in consideration of comments received, will adopt bacterial water quality standards in R08-9 (B) for CAWS and LDPR but only as to those waters designated as Primary Recreation waters. The Board cannot propose bacterial standards at second notice as the sections of the rule that need to be amended to adopt bacterial standards were not proposed in the *Illinois Register* for first notice. Those sections will be amended in Subdocket C to reflect the Board's findings on the bacterial water quality standards in the Board's December 15, 2011 opinion and order.

Opinions and orders of the Board, hearing transcripts, and other documents in rulemaking records are posted on the Board's Web site www.ipcb.state.il.us and may be downloaded from the Web without charge. Hard copies may be obtained from the Clerk's office upon payment of reproduction fees as prescribed by Section 6 of the Freedom of Information Act [5 ILCS 140/6]. The Clerk's Office address is Pollution Control Board, James R. Thompson Center, 100 W. Randolph Street, Suite 11-500, Chicago, IL 60601.
