Pollution Control Board

PC# 9

Ok, after discussing this with you and then with Heather, we both agree that the language for the NFR would mirror what I put in our most recent responses. That language was as follows: "For a school, the site owner/operator shall notify the Agency, the school board, and every parent or legal guardian for all enrolled students when a building control technology is rendered inoperable for a period of five consecutive days during the school year when a school is in session." Thus, in an NFR Letter I would envision the language to include all but the "For a school." This means it would read: "The site owner/operator shall notify the Agency, the school board, and every parent or legal guardian for all enrolled students when a building control technology is rendered inoperable for a period of five consecutive days during the school year when a school is in session."

Do you still feel I should do a motion and supplement, or does this give enough clarification? Please let me know and I will act accordingly. Thanks, Richard.

Kim

It appears that the Agency's responses (PC 8, filed 9/14/12) do not address question #1 on pp. 4-5 (Notice Language in BCT Maintenance Conditions) of the 8/28/12 hearing officer order. If this is correct and the Agency wishes to respond to that question, you may file a motion for leave to file instant a supplement to your responses, along with the supplement. Thanks

Attached is the 8/28/12 hearing officer order in R11-9, which is posted on the Board's website.

I have spoken with Heather, and we think Sept 17 is a doable date. Thank you, and I will watch for your order via email after lunch.

Kim
