ORDER OF THE BOARD (by T.A. Holbrook):

On October 31, 2012, the Office of the Attorney General, on behalf of the People of the State of Illinois (People), filed a nine-count complaint against Sheridan-Joliet Land Development, LLC (SJLD) and Sheridan Sand & Gravel Co. (SSG). The complaint concerns SJLD's clean construction and demolition debris (CCDD) facility, operated by SSG, at 2679 North 4201 Road, Sheridan, LaSalle County. For the reasons below, the Board accepts the complaint for hearing.

Under the Environmental Protection Act (Act) (415 ILCS 5 (2010)), the Attorney General and the State's Attorneys may bring actions before the Board to enforce Illinois' environmental requirements on behalf of the People. *See* 415 ILCS 5/31 (2010); 35 Ill. Adm. Code 103. In this case, the People allege that SJLD and SSG violated Sections 21(k), 22.51(a), 22.51 (b)(3)(i) and(ii), 22.51(f)(2)(A)(i), 22.51(f)(2)(B), 22.51(f)(2)(C) of the Act, 415 ILCS 5/21(k), 22.51(a), (b)(3)(i) and(ii), (f)(2)(A)(i), (f)(2)(B), (f)(2)(C) (2010), 35 Ill. Adm. Code 1100.201(a), 1100.205(a), (b), and (c), 1100.205(b)(1), (c)(3), 1100.205(h), 1150.210(b),(c), 1150.215(b),(c), 1150.300(a) and permit condition I.1 of Permit No. CCDD2007-040-DE/OP. The People allege SJLD and SSG violated these provisions by failing:

- 1) to implement and document a load checking program,
- 2) to identify the site of origin and address from which the uncontaminated soil was removed
- 3) to identify the name of the owner or operator of the site of origin of the uncontaminated soil,
- 4) to obtain a soil certification from the owner or operator of the site of origin or from a licensed professional engineer that the soil is uncontaminated,
- 5) to maintain any documentation confirming that the soil accepted at the CCDD facility was not removed from a site as part of a cleanup or removal of contaminants,
- 6) to conduct a random daily discharge inspection,

- 7) to document the results of the random daily discharge inspection for September 2, 2010,
- 8) to maintain and calibrate the photoionization device,
- 9) to submit monthly fill records to the Illinois Environmental Protection Agency (Agency) by October 15, 2010, January 15, 2011, and April 15, 2011,
- 10) to submit Quarterly Fill Summaries to the Agency by October 15, 2010, January 15, 2011, and April 15, 2011, and by failing to submit quarterly fee payments.

The People ask that the Board order SJLD and SSG to cease and desist from any further violations of the Act, regulations, or Permit No. CCDD2007-040-DE/OP and pay civil penalties of \$50,000 for each violation and \$10,000 for each day during which each violation continued, and that the Board award the People their costs expended in pursuit of this action including attorney, expert witness, and consultant fees.

The Board finds that the complaint meets the content requirements of the Board's procedural rules and accepts the complaint for hearing. *See* 35 Ill. Adm. Code 103.204(c), (f), 103.212(c). A respondent's failure to file an answer to a complaint within 60 days after receiving the complaint may have severe consequences. Generally, if SJLD and SSG fail within that timeframe to file an answer specifically denying, or asserting insufficient knowledge to form a belief of, a material allegation in the complaint, the Board will consider SJLD and SSG to have admitted the allegations. *See* 35 Ill. Adm. Code 103.204(d).

The Board directs the hearing officer to proceed expeditiously to hearing. Among the hearing officer's responsibilities is the "duty . . . to ensure development of a clear, complete, and concise record for timely transmission to the Board." 35 Ill. Adm. Code 101.610. A complete record in an enforcement case thoroughly addresses, among other things, the appropriate remedy, if any, for the alleged violations, including any civil penalty.

If a complainant proves an alleged violation, the Board considers the factors set forth in Sections 33(c) and 42(h) of the Act to fashion an appropriate remedy for the violation. *See* 415 ILCS 5/33(c), 42(h) (2010). Specifically, the Board considers the Section 33(c) factors in determining, first, what to order the respondent to do to correct an on-going violation, if any, and, second, whether to order the respondent to pay a civil penalty. The factors provided in Section 33(c) bear on the reasonableness of the circumstances surrounding the violation, such as the character and degree of any resulting interference with protecting public health, the technical practicability and economic reasonableness of compliance, and whether the respondent has subsequently eliminated the violation.

If, after considering the Section 33(c) factors, the Board decides to impose a civil penalty on the respondent, only then does the Board consider the Act's Section 42(h) factors in determining the appropriate amount of the civil penalty. Section 42(h) sets forth factors that may mitigate or aggravate the civil penalty amount, such as the duration and gravity of the violation, whether the respondent showed due diligence in attempting to comply, any economic benefit that the respondent accrued from delaying compliance, and the need to deter further violations by the respondent and others similarly situated.

With Public Act 93-575, effective January 1, 2004, the General Assembly changed the Act's civil penalty provisions, amending Section 42(h) and adding a new subsection (i) to Section 42. Section 42(h)(3) now states that any economic benefit to respondent from delayed compliance is to be determined by the "lowest cost alternative for achieving compliance." The amended Section 42(h) also requires the Board to ensure that the penalty is "at least as great as the economic benefits, if any, accrued by the respondent as a result of the violation, unless the Board finds that imposition of such penalty would result in an arbitrary or unreasonable financial hardship."

Under these amendments, the Board may also order a penalty lower than a respondent's economic benefit from delayed compliance if the respondent agrees to perform a "supplemental environmental project" (SEP). A SEP is defined in Section 42(h)(7) as an "environmentally beneficial project" that a respondent "agrees to undertake in settlement of an enforcement action . . . but which the respondent is not otherwise legally required to perform." SEPs are also added as a new Section 42(h) factor (Section 42(h)(7)), as is whether a respondent has "voluntary self-disclosed . . . the non-compliance to the [Illinois Environmental Protection] Agency" (Section 42(h)(6)). A new Section 42(i) lists nine criteria for establishing voluntary self-disclosure of non-compliance. A respondent establishing these criteria is entitled to a "reduction in the portion of the penalty that is not based on the economic benefit of non-compliance."

Accordingly, the Board further directs the hearing officer to advise the parties that in summary judgment motions and responses, at hearing, and in briefs, each party should consider: (1) proposing a remedy for a violation, if any (including whether to impose a civil penalty), and supporting its position with facts and arguments that address any or all of the Section 33(c) factors; and (2) proposing a civil penalty, if any (including a specific total dollar amount and the portion of that amount attributable to the respondent's economic benefit, if any, from delayed compliance), and supporting its position with facts and arguments that address any or all of the Section 42(h) factors. The Board also directs the hearing officer to advise the parties to address these issues in any stipulation and proposed settlement that may be filed with the Board.

IT IS SO ORDERED.

I, John T. Therriault, Assistant Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on November 15, 2012 by a vote of 4-0.

John T. Therriault, Assistant Clerk
Illinois Pollution Control Board
