POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENT

1) Heading of the Part: Definitions and General Provisions

2) Code Citation: 35 Ill. Adm. Code 211

3) <u>Section Number</u>: <u>Proposed Action</u>:

211.7150 Amend

4) Statutory Authority: 415 ILCS 5/7.2, 9.1, and 27

A Complete Description of the Subjects and Issues Involved: The following briefly describes the subjects and issues involved in this rulemaking. A comprehensive description is contained in the Board's opinion and order of October 18, 2012, proposing amendments in docket R13-1 for public comment, which opinion and order is available from the address below. As is explained in that opinion, the Board will receive public comment on the proposed amendments for 45 days from the date they appear in the Illinois Register before proceeding to adopt amendments based on this proposal.

The R13-1 proceeding relates to the listings of compounds exempted from the State definition of "volatile organic material" (VOM) or "volatile organic compound" (VOC) in 35 Ill. Adm. Code 211.7150 of the Illinois air pollution control rules. These amendments would update the definition of to correspond with amendments to the corresponding definition of VOC in the federal regulations at 40 C.F.R. 51.100(s) that the United States Environmental Protection Agency (USEPA) adopted during the period January 1, 2012 through June 30, 2012. During this period, USEPA amended its definition of VOC as follows:

June 22, 2012 (77 Fed. Reg. 37610) USEPA added one compound, *trans*-1,3,3,3-tetra-fluoropropene (HFO-1234ze), to the list of chemical species that are exempt from the definition of VOM.

Tables appear in the Board's opinion and order of October 18, 2012 in docket R13-1 that list limited corrections that are not based on current federal amendments. The tables contain a deviation from the literal text of the federal amendments underlying these amendments, as well as a correction and clarification that the Board made in the base text involved. Persons interested in the details of those corrections and amendments should refer to the October 18, 2012 opinion and order in docket R13-1.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Section 5-35 of the Administrative Procedure Act [5 ILCS 100/5-35] does not apply to

SUBPART B: DEFINITIONS

Section 211.7150 Volatile Organic Material (VOM) or Volatile Organic Compound (VOC)

"Volatile organic material" (also "VOM") or "volatile organic compound" (also "VOC") means any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, that participates in atmospheric photochemical reactions.

a) This definition of VOM includes any organic compound that participates in atmospheric photochemical reactions, other than the compounds listed in this subsection (a). USEPA has determined that the compounds listed in this subsection (a) have negligible photochemical reactivity. USEPA has excluded the listed negligibly-reactive compounds from the definition of VOM for purposes of VOM limitations or VOM content requirements. However, USEPA has required that certain of these compounds be considered VOM for purposes of recordkeeping, emissions reporting, and inventory requirements, as described in subsection (e) of this Section.

- b) For purposes of determining VOM emissions and compliance with emissions limits, VOM will be measured by the test methods in the approved implementation plan or 40 CFR 60, Appendix A, incorporated by reference at 35 Ill. Adm. Code 215.105, 218.112, and 219.112, as applicable, or by source-specific test methods that have been established pursuant to a permit issued under a program approved or promulgated under Title V of the Clean Air Act; under 40 CFR 51, Subpart I or Appendix S, incorporated by reference at 35 Ill. Adm. Code 218.112 and 219.112; or under 40 CFR 52.21, incorporated by reference at 35 Ill. Adm. Code 218.112 and 219.112, as applicable. Where such a method also measures compounds with negligible photochemical reactivity, these negligibly-reactive compounds may be excluded as VOM if the amount of such compounds is accurately quantified and the exclusion is approved by the Agency.
- c) As a precondition to excluding these negligibly-reactive compounds as VOM, or

NOTICE OF PROPOSED AMENDMENT

at any time thereafter, the Agency may require an owner or operator to provide monitoring or testing methods and results demonstrating, to the satisfaction of the Agency, the amount of negligibly-reactive compounds in the source's emissions.

- d) The USEPA will not be bound by any State determination as to appropriate methods for testing or monitoring negligibly-reactive compounds if such determination is not reflected in any of the test methods in subsection (b) above.
- e) The following compound is VOM for the purposes of all recordkeeping, emissions reporting, photochemical dispersion modeling and inventory requirements that apply to VOM, and it must be uniquely identified in emission reports, but it is not VOM for the purposes of VOM emissions limitations or VOM content requirements: t-butyl acetate.

SUBPART B: DEFINITIONS

Section 211.7150 Volatile Organic Material (VOM) or Volatile Organic Compound (VOC)

"Volatile organic material" (also "VOM") or "volatile organic compound" (also "VOC") means any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, that participates in atmospheric photochemical reactions.

a) This definition of VOM includes any organic compound that participates in atmospheric photochemical reactions, other than the compounds listed in this subsection (a). USEPA has determined that the compounds listed in this subsection (a) have negligible photochemical reactivity. USEPA has excluded the listed negligibly-reactive compounds from the definition of VOM for purposes of VOM limitations or VOM content requirements. However, USEPA has required that certain of these compounds be considered VOM for purposes of recordkeeping, emissions reporting, and inventory requirements, as described in subsection (e) of this Section.

| 748 | , | limits, VOM will be measured by the test methods in the approved | | | | |
| 749 | | implementation plan or 40 CFR 60, Appendix A, incorporated by reference at 35 | | | | |
| 750 | | Ill. Adm. Code 215.105, 218.112, and 219.112, as applicable, or by source- | | | | |
| 751 | | specific test methods that have been established pursuant to a permit issued under | | | | |
| 752 | | a program approved or promulgated under Title V of the Clean Air Act; under 40 | | | | |
| 753 | | CFR 51, Subpart I or Appendix S, incorporated by reference at 35 Ill. Adm. Code | | | | |
| 754 | | 218.112 and 219.112; or under 40 CFR 52.21, incorporated by reference at 35 Ill. | | | | |
| 755 | | Adm. Code 218.112 and 219.112, as applicable. Where such a method also | | | | |
| 756 | | measures compounds with negligible photochemical reactivity, these negligibly- | | | | |
| 757 | | reactive compounds may be excluded as VOM if the amount of such compounds | | | | |
| 758 | | is accurately quantified and the exclusion is approved by the Agency. | | | | |
| 759 | | is decimally quantities and the energian is approved by the rigoney. | | | | |
| 760 | c) | As a precondition to excluding these negligibly-reactive compounds as VOM, or | | | | |
| 761 | -/ | at any time thereafter, the Agency may require an owner or operator to provide | | | | |
| 762 | | monitoring or testing methods and results demonstrating, to the satisfaction of the | | | | |
| 763 | | Agency, the amount of negligibly-reactive compounds in the source's emissions. | | | | |
| 764 | | rigency, and announced negligibly readily a compounted in the bource of childrens. | | | | |
| 765 | d) | The USEPA will not be bound by any State determination as to appropriate | | | | |
| 766 | α) | methods for testing or monitoring negligibly-reactive compounds if such | | | | |
| 767 | | determination is not reflected in any of the test methods in subsection (b) above. | | | | |
| 768 | | determination is not tenedical in any of the test inclineds in subsection (b) above. | | | | |
| 769 | e) | The following compound is VOM for the purposes of all recordkeeping, | | | | |
| 770 | ν) | emissions reporting, photochemical dispersion modeling and inventory | | | | |
| 771 | | requirements that apply to VOM, and it must be uniquely identified in emission | | | | |
