RECEIVED
CLERK'S OFFICE

JUL 24 2013

STATE OF ILLINOIS
Pollution Control Board

4) Statutory Authority: Implementing Section 10 of the Environmental Protection Act [415 ILCS 5/10] and authorized by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27, 28]

5) A Complete Description of the Subjects and Issues Involved: This proposal for public comment would adopt a new Subpart K of Part 106 of the Illinois Pollution Control Board (Board) procedural rules. Specifically, the proposal will provide procedural rules for establishing alternative thermal effluent limitations under Section 316(a) of the Clean Water Act and 35 Ill. Adm. Code 304.141. A complete description of the proposal can be found in the Board's R13-20 opinion and order dated July 11, 2013.

6) Published studies or reports, and sources of underlying data, used to compose this rulemaking: Existing federal regulations in 40 CFR Part 125 (2012) have been integrated with typical procedures found in the Board's procedural rules.

7) Will this rulemaking replace any emergency rulemaking currently in effect? No

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- 8) Does this rulemaking contain an automatic repeal date? No
- 9) Does this rulemaking contain incorporations by reference? No
- 10) Are there any other proposed rulemakings pending on this Part? No
- 11) Statement of Statewide Policy Objectives: This proposed rulemaking does not create or enlarge a State mandate, as defined in Section 3(b) of the State Mandates Act. [30 ILCS 805/3(b)]
- 12) Time, Place, and Manner in which interested persons may comment on this proposed rulemaking: The Board will accept written public comments on this proposal for a period of 45 days after the date of publication in the *Illinois Register*. Public comments should reference R13-20 and be addressed to:

Pollution Control Board
John Therriault, Clerk
JRTC
100 W. Randolph Street, Suite 11-500
Chicago, IL 60601

Public comments may also be filed electronically through the Clerk's Office On-Line (COOL) on the Board's Web site at www.ipcb.state.il.us.

Interested persons may obtain copies of the Board's opinion and order by downloading them from the Board's Web site at www.ipcb.state.il.us or by calling the Clerk's office at 312/814-3620. For more information, contact Hearing Officer Daniel Robertson at 312/814-6931 or email Daniel.Robertson@illinois.gov.

- 13) Initial Regulatory Flexibility Analysis:
- A) Types of small businesses, small municipalities and not for profit corporations affected: This proposal will impact any small business with a thermal effluent limit that seeks to demonstrate such effluent limit is more stringent than necessary to protect a balanced, indigenous population of fish, shellfish and wildlife. In general, the affected industry is the steam electric generating industry whether nuclear or coal fired.
- B) Reporting, bookkeeping or other procedures required for compliance: The proposal imposes new reporting requirements and will require reporting and

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

bookkeeping procedures consistent with the proposal.

C) Types of Professional skills necessary for compliance: Unknown.

- 14) Regulatory Agenda on which this rulemaking was summarized: This rulemaking was not included on either of the two most recent regulatory agendas because the need for this rulemaking was not made apparent until recently as a result of USEPA's focus on review of prior Section 316(a) relief and recent Board determinations.

181 SUBPART K: ALTERNATIVE THERMAL EFFLUENT LIMITATIONS PURSUANT TO
182 SECTION 316(a) OF THE CLEAN WATER ACT AND 35 ILL. ADM. CODE 304.141(c)

183

184 **Section 106.1100 Purpose**

185

186 This Subpart describes the factors, criteria, and standards for the establishment of alternative
187 thermal effluent limitations under 35 Ill. Adm. Code 304.141(c) and section 316(a) of the Clean
188 Water Act (33 USC 1251) and in permits issued under 35 Ill. Adm. Code 309.

189

190 (Source: Added at 37 Ill. Reg. _____, effective _____)

191

192 **Section 106.1105 General**

193

194 a) Description. This Subpart applies to any point source that discharges pollutants to
195 waters of the United States who seeks to demonstrate, pursuant to 35 Ill. Adm.
196 Code 304.141(c) and section 316(a) of the Clean Water Act, that any effluent
197 limit proposed for the control of a thermal component of any discharge from such
198 source will require effluent limitations more stringent than necessary to assure the
199 protection and propagation of a balanced, indigenous population of shellfish, fish,
200 and wildlife in and on the body of water into which the discharge is to be made.

201

202 b) Parties. The person making the demonstration must be named the petitioner. The
203 Agency must be named as a respondent. Any interested person may become a
204 participant in the alternative thermal effluent limitation demonstration proceeding
205 in accordance with 35 Ill. Adm. Code 101.110 and 101.628.

206

207 c) Filing and Service. The filing and service requirements of 35 Ill. Adm. Code
208 101.Subpart C apply to the proceedings of this Subpart.

209

210 (Source: Added at 37 Ill. Reg. _____, effective _____)

211

212 **Section 106.1110 Definitions**

213

214 In addition to these definitions, all definitions of the Illinois Environmental Protection Act [415
215 ILCS 5], and 35 Ill. Adm. Code 301, apply to this Subpart. For the purpose of this Subpart:

216 "Alternative thermal effluent limitations" means all effluent limitations or standards of
 217 performance for the control of the thermal component of any discharge that are
 218 established under 35 Ill. Adm. Code 304.141(c), Section 316(a) of the CWA and this
 219 Subpart.

221
 222 "CWA" means the Federal Water Pollution Control Act, as amended (33 USC 1251 et
 223 seq., Public Law 92-500 enacted by Congress October 18, 1972, as amended by
 224 the Clean Water Act, Public Law 95-217, enacted December 12, 1977, as amended).

225
 226 "Representative important species" means species that are representative, in terms of their
 227 biological needs, of a balanced, indigenous community of shellfish, fish, and wildlife in
 228 the body of water into which a discharge of heat is made.

229
 230 "Balanced, indigenous community" is synonymous with the term "balanced, indigenous
 231 population" in the CWA and means a biotic community typically characterized by
 232 diversity, the capacity to sustain itself through cyclic seasonal changes, presence of
 233 necessary food chain species, and a lack of domination by pollution tolerant species.
 234 Such a community may include historically non-native species introduced in connection
 235 with a program of wildlife management and species whose presence or abundance results
 236 from substantial, irreversible environmental modifications. Normally, however, such a
 237 community will not include species whose presence or abundance is attributable to the
 238 introduction of pollutants that will be eliminated by compliance by all sources with
 239 section 301(b)(2) of the CWA; and may not include species whose presence or
 240 abundance is attributable to alternative thermal effluent limitations imposed pursuant to
 241 this Subpart or through regulatory relief from otherwise applicable thermal limitations or
 242 standards granted by the Board.

243
 244 (Source: Added at 37 Ill. Reg. _____, effective _____)

245
 246 **Section 106.1115 Early Screening**

- 247
 248 a) Prior to filing a petition for an alternative thermal effluent limitation, the
 249 petitioner must submit the following early screening information to the Agency:
 250
 251 1) A description of the alternative thermal effluent limitation requested;
 252
 253 2) A general description of the method by which the discharger proposes to
 254 demonstrate that the otherwise applicable thermal discharge effluent
 255 limitations are more stringent than necessary;
 256

- 257 3) A general description of the type of data, studies, experiments and other
258 information that the discharger intends to submit for the demonstration;
259 and
260
261 4) A proposed representative important species list and such data and
262 information as may be available to assist the Agency in approving the
263 selection of the appropriate representative important species.
264
265 b) Within 30 days after receipt of the early screening information under subsection
266 (a), the petitioner shall consult with the Agency to discuss the petitioner's early
267 screening information.
268

269 (Source: Added at 37 Ill. Reg. _____, effective _____)
270

271 **Section 106.1120 Detailed Plan of Study**
272

- 273 a) Within 60 days after the early screening information is submitted pursuant to
274 Section 106.1115, the petitioner shall submit for the Agency's approval a detailed
275 plan of study that the petitioner will undertake to support its alternative thermal
276 effluent limitation demonstration.
277
278 b) The petitioner shall specify the nature and extent of the following types of
279 information to be included in the plan of study:
280
281 1) biological, hydrographical, and meteorological data;
282
283 2) physical monitoring data;
284
285 3) engineering or diffusion models;
286
287 4) laboratory studies;
288
289 5) representative important species; and
290
291 6) other relevant information.
292
293 c) In selecting representative important species, special consideration shall be given
294 to species mentioned in applicable water quality standards.
295
296 d) The petitioner shall provide any additional information or studies that the Agency
297 subsequently determines necessary to support the alternative thermal effluent
298 limitation demonstration, including such field or other studies as may be
299 necessary to select representative important species.

- e) In making the alternative thermal effluent limitation demonstration, the petitioner shall consider any information or guidance published by USEPA to assist in making such demonstrations.
- f) Within 90 days after petitioner's submittal of its detailed plan of study, the Agency shall approve the plan or specify any recommended revisions to the plan.
- g) After obtaining Agency approval or the Agency's recommended revisions, the petitioner shall complete the plan of study prior to filing the petition for an alternative thermal effluent limitation with the Board.

(Source: Added at 37 Ill. Reg. _____, effective _____)

Section 106.1125 Initiation of Proceeding

After completion of the plan of study pursuant to Section 106.1120, the petitioner may file a petition for an alternative thermal effluent limitation with the Clerk of the Board and must serve one copy upon the Agency.

(Source: Added at 37 Ill. Reg. _____, effective _____)

Section 106.1130 Contents of Petition

A petition for an alternative thermal effluent limitation must include the following:

- a) Information providing a general plant description, including, as applicable:
 - 1) Generating capacity;
 - 2) Type of fuel used;
 - 3) Operating characteristics of the condenser cooling system;
 - 4) History of the load factor of the plant for the last 5 years;
 - 5) Projected load factors of the plant for the next 5 years;
 - 6) Estimated date of retirement for each unit at the plant and any plans for additional units at the plant;
 - 7) History of plant shutdowns for the last 5 years;

- 343 8) Planned and emergency shutdowns with frequency and duration for the
344 last 5 years; and
345
346 9) Planned and projected shutdowns with frequency and duration for the next
347 five years;
348

349 b) Description of Method for Heat Dissipation:
350

- 351 1) Type of system used (such as once-through, mechanical, and draft cooling
352 towers) in narrative form; and
353
354 2) Summary information on temperature of discharge to receiving waters in
355 narrative form;
356

357 c) A summary of compliance or non-compliance with thermal requirements at the
358 facility in the past five years;
359

360 d) The results of the studies conducted pursuant to the detailed plan of study
361 submitted under Section 106.1120;
362

363 e) Any information or guidance published by USEPA to assist in making alternative
364 thermal effluent limitation demonstrations that the Board should consider in
365 evaluating the petition; and
366

367 f) Any additional information or studies that the petitioner judges to be appropriate
368 to support the alternative thermal effluent limitation demonstration.
369

370 (Source: Added at 37 Ill. Reg. _____, effective _____)
371

372 **Section 106.1135 Petition Notice Requirements**
373

374 a) Within 14 days after the filing of the petition, the petitioner must publish notice of
375 the filing of the petition by advertisement in a newspaper of general circulation in
376 the county where the facility is located.
377

378 b) The notice must contain the name and address of the petitioner and it must state
379 that the petitioner has filed with the Board a petition for an alternative thermal
380 effluent limitation. The notice must also provide the date on which the petition
381 was filed, the Board docket number, the regulatory standard (with appropriate
382 Administrative Code citation) from which the alternative thermal effluent
383 limitation is sought, the proposed alternative thermal effluent limitation, and the
384 location of the facility. The concluding portion of the notice must read as
385 follows:

386
387 "Any person may cause a public hearing to be held in the above-described
388 proceeding by filing a hearing request with the Illinois Pollution Control
389 Board within 21 days after the date of the publication of this notice. The
390 hearing request should clearly indicate the docket number for the
391 proceeding, as found in this notice, and must be mailed to the Clerk of the
392 Board, Illinois Pollution Control Board, 100 W. Randolph Street, Suite 11-
393 500, Chicago, Illinois 60601."

394
395 (Source: Added at 37 Ill. Reg. _____, effective _____)
396

397 **Section 106.1140 Proof of Petition Notice Requirements**

398
399 Within 30 days after the filing of the petition, the petitioner must file a certificate of publication.
400 This certification must be issued by the newspaper that published the notice and must certify
401 when the notice was published and the information the notice contained.

402
403 (Source: Added at 37 Ill. Reg. _____, effective _____)
404

405 **Section 106.1145 Recommendation and Response**

406
407 Within 45 days after the filing of a petition for an alternative thermal effluent limitation, the
408 Agency must file with the Board a recommendation as to whether the Board should grant the
409 petitioner's requested alternative thermal effluent limitation. The petitioner, any party to the
410 proceeding, or any interested person may file a response to the Agency recommendation within
411 21 days after the Agency files its recommendation.

412
413 (Source: Added at 37 Ill. Reg. _____, effective _____)
414

415 **Section 106.1150 Request for Public Hearing**

416
417 Any person can request that a public hearing be held in a proceeding under this Subpart. The
418 requests must be filed with the Clerk of the Board no later than 21 days after the date of the
419 publication of the petition notice in accordance with Section 106.1135. Requests for hearing
420 should make reference to the Board docket number assigned to the proceeding.

421
422 (Source: Added at 37 Ill. Reg. _____, effective _____)
423

424 **Section 106.1155 Notice and Conduct of Hearing**

- 425
426 a) The Board shall hold a public hearing on the petition and alternative thermal
427 effluent limitation demonstration when one is requested in accordance with
428 Section 106.1150 or when requested by the petitioner.

- 429
430 b) The hearing officer will schedule the hearing to be held in the county likely to be
431 affected by the petitioner's activity.
432
433 c) The Clerk will give notice of the hearing in accordance with 35 Ill. Adm. Code
434 101. The proceedings will be conducted in accordance with 35 Ill. Adm. Code
435 101.Subpart F.
436

437 (Source: Added at 37 Ill. Reg. _____, effective _____)
438

439 **Section 106.1160 Burden of Proof**
440

- 441 a) The burden of proof is on the petitioner.
442
443 b) The petitioner must demonstrate to the satisfaction of the Board that the otherwise
444 applicable effluent limitations under Chapter I of Subtitle C of this Title are more
445 stringent than necessary to assure the protection and propagation of a balanced,
446 indigenous community of shellfish, fish, and wildlife in and on the body of water
447 into which the discharge is made.
448
449 c) The demonstration must show that the alternative thermal effluent limitation
450 desired by the petitioner, considering the cumulative impact of its thermal
451 discharge, together with all other significant impacts on the species affected, will
452 assure the protection and propagation of a balanced indigenous community of
453 shellfish, fish, and wildlife in and on the body of water into which the discharge is
454 to be made.
455
456 d) Existing dischargers may base their demonstration upon the absence of prior
457 appreciable harm in lieu of predictive studies.
458
459 1) When the petitioner bases the alternative thermal effluent limitation
460 demonstration upon the absence of prior appreciable harm, the
461 demonstration must show:
462
463 A) That no appreciable harm has resulted from the normal component
464 of the discharge, taking into account the interaction of such
465 thermal component with other pollutants and the additive effect of
466 other thermal sources on a balanced, indigenous community of
467 shellfish, fish, and wildlife in and on the body of water into which
468 the discharge has been made; or
469
470 B) That despite the occurrence of such previous harm, the desired
471 alternative thermal effluent limitation (or appropriate modifications

472 thereof) will nevertheless assure the protection and propagation of
473 a balanced, indigenous community of shellfish, fish, and wildlife in
474 and on the body of water into which the discharge is made.
475

- 476 2) In determining whether prior appreciable harm has occurred, the Board
477 shall consider the length of time during which the petitioner has been
478 discharging and the nature of the discharge.
479

480 (Source: Added at 37 Ill. Reg. _____, effective _____)
481

482 **Section 106.1165 Evidentiary Matters**
483

- 484 a) The provisions of 35 Ill. Adm. Code 101 regarding admissible evidence, written
485 narrative testimony, official notice, viewing premises, admitting business records,
486 examining adverse parties or agents and hostile witnesses and compelling them to
487 appear at hearing, and amendment and variance of pleadings and proof will apply
488 to proceedings under this Subpart.
489

- 490 b) In determining whether the protection and propagation of the affected species will
491 be assured, the Board may consider any information contained or referenced in
492 any applicable thermal water quality criteria and thermal water quality
493 information published by the USEPA under section 304(a) of the CWA, or any
494 other information the Board deems relevant.
495

496 (Source: Added at 37 Ill. Reg. _____, effective _____)
497

498 **Section 106.1170 Opinion and Order**
499

- 500 a) After an opportunity for a public hearing and upon a satisfactory alternative
501 thermal effluent limitation demonstration, the Board may order the Agency to
502 include thermal discharge effluent limitations or standards in the petitioner's
503 NPDES permit that are less stringent than those required by applicable standards
504 and limitations if the thermal component of the discharge, taking into account the
505 interaction of such thermal component with other pollutants, will assure the
506 protection and propagation of a balanced, indigenous population of shellfish, fish,
507 and wildlife in and on the body of water.
508

- 509 b) If the petitioner intends for the alternative thermal effluent limitation granted by
510 the Board pursuant to this Subpart to continue beyond the expiration of the
511 petitioner's NPDES permit, the petitioner must apply for renewal of the
512 alternative thermal effluent limitation pursuant to Section 106.1180.

Section 106.1175 Post-Hearing Procedures

- a) The provisions of 35 Ill. Adm. Code 101 regarding default, transcripts, the record, motions, briefs, and oral arguments apply to proceedings under this Subpart.

- b) In addition to the provisions of 35 Ill. Adm. Code 101.520 and 101.902, if USEPA objects pursuant to 40 CFR 123.44 to issuance in the petitioner's NPDES permit of the alternative thermal effluent limitation ordered by the Board, the Agency is given leave to file a motion for reconsideration of the Board's order granting the effluent limitation pursuant to 35 Ill. Adm. Code 101.520 within 35 days after the Agency's receipt of USEPA's objection.

(Source: Added at 37 Ill. Reg. _____, effective _____)

Section 106.1180 Renewal of Alternative Thermal Effluent Limitations

- a) The permittee may request continuation of an alternative thermal effluent limitation granted by the Board, pursuant to this Subpart, as part of its NPDES permit renewal application.

- b) Any application for renewal should include sufficient information for the Agency to compare the nature of the permittee's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife at the time the Board granted the alternative thermal effluent limitation and the current nature of the petitioner's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife. The permittee should be prepared to support this comparison with documentation based upon the discharger's actual operation experience during the previous permit term.

- c) If the permittee demonstrates that the nature of the thermal discharge has not changed and the alternative thermal effluent limitation granted by the Board has not caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency may include the alternative thermal effluent limitation in the permittee's renewed NPDES permit.

- d) If the nature of the thermal discharge has changed materially or the alternative thermal effluent limitation granted by the Board has caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency may not include the thermal relief granted by the Board in the permittee's renewed NPDES permit. The permittee must file a new petition and make the required demonstration

558 pursuant to this Subpart before the alternative thermal effluent limitation may be
559 included in the permittee's renewed NPDES permit.

Reg. 2697, effective February 16, 1999; old Part repealed, new Part adopted in R00-20 at 25 Ill. Reg. 550, effective January 1, 2001; amended in R04-24 at 29 Ill. Reg. 8817, effective June 8, 2005; amended in R10-19 at 34 Ill. Reg. 11486, effective July 23, 2010; amended in R12-21 at 36 Ill. Reg. 9236, effective June 7, 2012; amended in R12-11 at 36 Ill. Reg. 16581, effective November 5, 2012; amended in R13-20 at 37 Ill. Reg. _____, effective _____.

SUBPART K: ALTERNATIVE THERMAL EFFLUENT LIMITATIONS PURSUANT TO SECTION 316(a) OF THE CLEAN WATER ACT AND 35 ILL. ADM. CODE 304.141(c)

Section 106.1100 Purpose

This Subpart describes the factors, criteria, and standards for the establishment of alternative thermal effluent limitations under 35 Ill. Adm. Code 304.141(c) and ~~Section~~section 316(a) of the Clean Water Act (33 USC 1251) and in permits issued under 35 Ill. Adm. Code 309.

(Source: Added at 37 Ill. Reg. _____, effective _____)

Section 106.1105 General

- a) Description. This Subpart applies to any point source that discharges pollutants to waters of the United States who seeks to demonstrate, pursuant to 35 Ill. Adm.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

Code 304.141(c) and ~~Section~~section 316(a) of the Clean Water Act, that any effluent limit proposed for the control of a thermal component of any discharge from such source will require effluent limitations more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is to be made.

- b) Parties. The person making the demonstration must be named the petitioner. The Agency must be named as a respondent. Any interested person may become a participant in the alternative thermal effluent limitation demonstration proceeding in accordance with 35 Ill. Adm. Code 101.110 and 101.628.
- c) Filing and ~~service~~Service. The filing and service requirements of 35 Ill. Adm. Code 101.Subpart C apply to the proceedings of this Subpart.

(Source: Added at 37 Ill. Reg. --- ---, effective ---)

Section 106.1110 Definitions

In addition to these definitions, all definitions of the Illinois Environmental Protection Act [415 ILCS 5], and 35 Ill. Adm. Code 301, apply to this Subpart. For the purpose of this Subpart:

“Alternative thermal effluent limitations” means all effluent limitations or standards of performance for the control of the thermal component of any discharge that are established under 35 Ill. Adm. Code 304.141(c), Section 316(a) of the CWA and this Subpart.

“CWA” means the Federal Water Pollution Control Act, as amended, (33 U.S.C. USC 1251 et seq., Public Law 92-500 enacted by Congress October 18, 1972, as amended by the “Clean Water Act”, Public Law 95-217, enacted December 12, 1977, as amended).

“Representative important species” means species that are representative, in terms of their biological needs, of a balanced, indigenous community of shellfish, fish, and wildlife in the body of water into which a discharge of heat is made.

“Balanced, indigenous community” is synonymous with the term “balanced, indigenous population” in the CWA and means a biotic community typically characterized by diversity, the capacity to sustain itself through cyclic seasonal changes, presence of necessary food chain species, and by a lack of domination by pollution

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

tolerant species. Such a community may include historically non-native species introduced in connection with a program of wildlife management and species whose presence or abundance results from substantial, irreversible environmental modifications. Normally, however, such a community will not include species whose presence or abundance is attributable to the introduction of pollutants that will be eliminated by compliance by all sources with ~~Section~~section 301(b)(2) of the CWA; and may not include species whose presence or abundance is attributable to alternative thermal effluent limitations imposed pursuant to this Subpart or through regulatory relief from otherwise applicable thermal limitations or standards granted by the Board.

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1115 Early Screening

- a) Prior to filing a petition for an alternative thermal effluent limitation, the petitioner must submit the following early screening information to the Agency:
 - 1) A description of the alternative thermal effluent limitation requested;
 - 2) A general description of the method by which the discharger proposes to demonstrate that the otherwise applicable thermal discharge effluent limitations are more stringent than necessary;
 - 3) A general description of the type of data, studies, experiments and other information that the discharger intends to submit for the demonstration; and
 - 4) A proposed representative important species list and such data and information as may be available to assist the Agency in approving the selection of the appropriate representative important species.
- b) Within 30 days ~~from~~after receipt of the early screening information under subsection (a) ~~of this Section~~, the petitioner shall consult with the Agency to discuss the petitioner's early screening information.

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1120 Detailed Plan of Study

~~POLLUTION CONTROL BOARD~~

~~NOTICE OF PROPOSED AMENDMENTS~~

- a) Within 60 days after the early screening information is submitted pursuant to Section ~~106.1115 of this Part~~ 106.1115, the petitioner shall submit for the Agency's approval a detailed plan of study that the petitioner will undertake to support its alternative thermal effluent limitation demonstration.
- b) The petitioner shall specify the nature and extent of the following types of information to be included in the plan of study:
- 1) biological, hydrographical, and meteorological data;
 - 2) physical monitoring data;
 - 3) engineering or diffusion models;
 - 4) laboratory studies;
 - 5) representative important species; and
 - 6) other relevant information.
- c) In selecting representative important species, special consideration shall be given to species mentioned in applicable water quality standards.
- d) The petitioner shall provide any additional information or studies that the Agency subsequently determines necessary to support the alternative thermal effluent limitation demonstration, including such field or other studies as may be necessary to select representative important species.
- e) In making the alternative thermal effluent limitation demonstration, the petitioner shall consider any information or guidance published by USEPA to assist in making such demonstrations.
- f) Within 90 days ~~of~~ after petitioner's submittal of its detailed plan of study, the Agency shall approve the plan or specify any recommended revisions to the plan.

~~POLLUTION CONTROL BOARD~~

~~NOTICE OF PROPOSED AMENDMENTS~~

g) After obtaining Agency approval or the Agency's recommended revisions, the petitioner shall complete the plan of study prior to filing the petition for an alternative thermal effluent limitation with the Board.

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1125 Initiation of Proceeding

After completion of the plan of study pursuant to Section 106.1120, the petitioner may file a petition for an alternative thermal effluent limitation with the Clerk of the Board and must serve one copy upon the Agency.

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1130 Contents of Petition

A petition for an alternative thermal effluent limitation must include the following:

- a) Information providing a general plant description, including, as applicable:
- 1) Generating capacity;
 - 2) Type of fuel used;
 - 3) Operating characteristics of the condenser cooling system;
 - 4) History of the load factor of the plant for the last 5 years;
 - 5) Projected load factors of the plant for the next 5 years;
 - 6) Estimated date of retirement for each unit at the plant and any plans for additional units at the plant;
 - 7) History of plant shutdowns for the last 5 years;
 - 8) Planned and emergency shutdowns with frequency and duration for the last 5 years;
- and

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- 9) Planned and projected shutdowns with frequency and duration for the next five years;
- b) Description of Method for Heat Dissipation:
 - 1) Type of system used (such as once-through, mechanical, and draft cooling towers) in narrative form; and
 - 2) Summary information on temperature of discharge to receiving waters in narrative form;
- c) A summary of compliance or non-compliance with thermal requirements at the facility in the past five years;
- d) The results of the studies conducted pursuant to the detailed plan of study submitted under Section 106.1120 of this Part;
- e) Any information or guidance published by USEPA to assist in making alternative thermal effluent limitation demonstrations that the Board should consider in evaluating the petition; and
- f) Any additional information or studies that the petitioner judges to be appropriate to support the alternative thermal effluent limitation demonstration.

(Source: Added at 37 Ill. Reg. , effective)

Section 106.1135 Petition Notice Requirements

- a) Within 14 days after the filing of the petition, the petitioner must publish notice of the filing of the petition by advertisement in a newspaper of general circulation in the county where the facility is located.
- b) The notice must contain the name and address of the petitioner and it must state that the petitioner has filed with the Board a petition for an alternative thermal effluent limitation. The notice must also provide the date on which the petition was filed, the Board docket number, the regulatory standard (with appropriate Administrative Code citation) from which the alternative thermal effluent

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

limitation is sought, the proposed alternative thermal effluent limitation, and the location of the facility. The concluding portion of the notice must read as follows:

“Any person may cause a public hearing to be held in the above-described proceeding by filing a hearing request with the Illinois Pollution Control Board within 21 days after the date of the publication of this notice. The hearing request should clearly indicate the docket number for the proceeding, as found in this notice, and must be mailed to the Clerk of the Board, Illinois Pollution Control Board, 100 W. Randolph Street, Suite 11-500, Chicago, Illinois 60601.”

(Source: Added at 37 Ill. Reg. —, effective —)

Section 106.1140 Proof of Petition Notice Requirements

Within 30 days after the filing of the petition, the petitioner must file a certificate of publication. This certification must be issued by the newspaper that published the notice and must certify when the notice was published and the information the notice contained.

(Source: Added at 37 Ill. Reg. —, effective —)

Section 106.1145 Recommendation and Response

Within 45 days after the filing of a petition for an alternative thermal effluent limitation, the Agency must file with the Board a recommendation as to whether the Board should grant the petitioner's requested alternative thermal effluent limitation. The petitioner, any party to the proceeding, or any interested person may file a response to the Agency recommendation within 21 days after the Agency files its recommendation.

(Source: Added at 37 Ill. Reg. —, effective —)

Section 106.1150 Request for Public Hearing

Any person can request that a public hearing be held in a proceeding under this Subpart. The requests must be filed with the Clerk of the Board no later than 21 days after the date of the publication of the petition notice in accordance with Section ~~106.1135 of this Part~~ 106.1135. Requests for hearing should make reference to the Board docket number assigned to the proceeding.

~~POLLUTION CONTROL BOARD~~

~~NOTICE OF PROPOSED AMENDMENTS~~

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1155 Notice and Conduct of Hearing

- a) The Board shall hold a public hearing on the petition and alternative thermal _____ effluent limitation demonstration when one is requested in accordance with _____ Section 106.1150 ~~of this Part~~ or when requested by the petitioner.
- b) The hearing officer will schedule the hearing to be held in the county likely to be _____ affected by the petitioner's activity.
- c) The Clerk will give notice of the hearing in accordance with 35 Ill. Adm. Code _____ 101. The proceedings will be conducted in accordance with 35 Ill. Adm. Code _____ 101.Subpart F.

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1160 Burden of Proof

- a) The burden of proof is on the petitioner.
- b) The petitioner must demonstrate to the satisfaction of the Board that the otherwise applicable effluent limitations under Chapter I of Subtitle C of this Title are more stringent than necessary to assure the protection and propagation of a balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is made.
- c) The demonstration must show that the alternative thermal effluent limitation desired by the petitioner, considering the cumulative impact of its thermal discharge, together with all other significant impacts on the species affected, will assure the protection and propagation of a balanced indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is to be made.
- d) Existing dischargers may base their demonstration upon the absence of prior appreciable harm in lieu of predictive studies.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- 1) When the petitioner bases the alternative thermal effluent limitation demonstration upon the absence of prior appreciable harm, the demonstration must show:
 - A) That no appreciable harm has resulted from the normal component of the discharge, taking into account the interaction of such thermal component with other pollutants and the additive effect of other thermal sources ~~to~~ on a balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge has been made; or
 - B) That despite the occurrence of such previous harm, the desired alternative thermal effluent limitation (or appropriate modifications thereof) will nevertheless assure the protection and propagation of a balanced, indigenous community of shellfish, fish, and wildlife in and on the body of water into which the discharge is made.
- 2) In determining whether ~~or not~~ prior appreciable harm has occurred, the Board shall consider the length of time during which the petitioner has been discharging and the nature of the discharge.

(Source: Added at 37 Ill. Reg. , effective)

Section 106.1165 Evidentiary Matters

- a) The provisions of 35 Ill. Adm. Code 101 regarding admissible evidence, written narrative testimony, official notice, viewing premises, admitting business records, examining adverse parties or agents and hostile witnesses and compelling them to appear at hearing, and amendment and variance of pleadings and proof will apply to proceedings under this Subpart.
- b) In determining whether ~~or not~~ the protection and propagation of the affected species will be assured, the Board may consider any information contained or referenced in any applicable thermal water quality criteria and thermal water quality information published by the USEPA under section 304(a) of the CWA, or any other information the Board deems relevant.

(Source: Added at 37 Ill. Reg. , effective)

~~POLLUTION CONTROL BOARD~~

~~NOTICE OF PROPOSED AMENDMENTS~~

Section 106.1170 Opinion and Order

- a) After an opportunity for a public hearing and upon a satisfactory alternative thermal effluent limitation demonstration, the Board may order the Agency to include thermal discharge effluent limitations or standards in the petitioner's NPDES permit that are less stringent than those required by applicable standards and limitations if the thermal component of the discharge, taking into account the interaction of such thermal component with other pollutants, will assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water.
- b) If the petitioner intends for the alternative thermal effluent limitation granted by the Board pursuant to this Subpart to continue beyond the expiration of the petitioner's NPDES permit, the petitioner must apply for renewal of the alternative thermal effluent limitation pursuant to Section 106.1180.

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1175 Post-Hearing Procedures

- a) The provisions of 35 Ill. Adm. Code 101 regarding default, transcripts, the record, motions, briefs, and oral arguments apply to proceedings under this Subpart.
- b) In addition to the provisions of 35 Ill. Adm. Code 101.520 and 101.902, if USEPA objects pursuant to 40 ~~C.F.R.~~ [§CFR](#) 123.44 to issuance in the petitioner's NPDES permit of the alternative thermal effluent limitation ordered by the Board, the Agency is given leave to file a motion for reconsideration of the Board's order granting the effluent limitation pursuant to 35 Ill. Adm. Code 101.520 within 35 days after the Agency's receipt of USEPA's objection.

(Source: Added at 37 Ill. Reg. ~~—~~ _____, effective _____)

Section 106.1180 Renewal of Alternative Thermal Effluent Limitations

- a) The permittee may request continuation of an alternative thermal effluent limitation granted by the Board, pursuant to this Subpart, as part of its NPDES permit renewal application.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- b) Any application for renewal should include sufficient information for the Agency to compare the nature of the permittee's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife at the time the Board granted the alternative thermal effluent limitation and the current nature of the petitioner's thermal discharge and the balanced, indigenous population of shellfish, fish, and wildlife. The permittee should be prepared to support this comparison with documentation based upon the discharger's actual operation experience during the previous permit term.
- c) If the permittee demonstrates that the nature of the thermal discharge has not changed and the alternative thermal effluent limitation granted by the Board has not caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency may include the alternative thermal effluent limitation in the permittee's renewed NPDES permit.
- d) If the nature of the thermal discharge has changed materially or the alternative thermal effluent limitation granted by the Board has caused appreciable harm to a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is made, the Agency may not include the thermal relief granted by the Board in the permittee's renewed NPDES permit. The permittee must file a new petition and make the required demonstration pursuant to this Subpart before the alternative thermal effluent limitation may be included in the permittee's renewed NPDES permit.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENT

- 1) Heading of the Part: Effluent Standards
- 2) Code Citation: 35 Ill. Adm. Code 304
- 3) Section Number: 304.141 Proposed Action: Amend
- 4) Statutory Authority: Implementing Section 10 of the Environmental Protection Act [415 ILCS 5/10] and authorized by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27, 28]
- 5) A Complete Description of the Subjects and Issues Involved: This proposal will update Section 304.141 of the Illinois Pollution Control Board (Board) regulations to include a cross-reference to the newly proposed Subpart K of Part 106 of the Board's procedural rules and to update language to reflect the United States Environmental Protection Agency (USEPA) delegation of permitting authority to the Illinois Environmental Protection Agency.
- 6) Published studies or reports, and sources of underlying data, used to compose this rulemaking: None
- 7) Will this proposed rulemaking replace an emergency rule currently in effect? No
- 8) Does this rulemaking contain an automatic repeal date? No
- 9) Does this proposed rulemaking contain incorporations by reference? No
- 10) Are there any other proposed rulemaking pending on this Part? No
- 11) Statement of Statewide Policy Objectives: This proposed rulemaking does not create or enlarge a State mandate, as defined in Section 3(b) of the State Mandates Act. [30 ILCS 805/3(b)]
- 12) Time, Place, and Manner in which interested persons may comment on this proposed rulemaking: The Board will accept written public comments on this proposal for a period of 45 days after the date of publication in the *Illinois Register*. Public comments should reference R13-20 and be addressed to:

Pollution Control Board
John Therriault, Clerk

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENT

JRTC
100 W. Randolph Street, Suite 11-500
Chicago, IL 60601

Public comments may also be filed electronically through the Clerk's Office On-Line (COOL) on the Board's Web site at www.ipcb.state.il.us.

Interested persons may obtain copies of the Board's opinion and order by downloading them from the Board's Web site at www.ipcb.state.il.us or by calling the Clerk's office at 312/814-3620. For more information, contact Hearing Officer Daniel Robertson at 312/814-6931 or email Daniel.Robertson@illinois.gov.

- 13) Initial Regulatory Flexibility Analysis:
- A) Types of small businesses, small municipalities and not for profit corporations affected: This proposal will impact any small business with a thermal effluent limit that seeks to demonstrate such effluent limit is more stringent than necessary to protect a balanced, indigenous population of fish, shellfish and wildlife. In general, the affected industry is the steam electric generating industry whether nuclear or coal fired.
 - B) Reporting, bookkeeping or other procedures required for compliance: The proposal imposes new reporting requirements and will require reporting and bookkeeping procedures consistent with the proposal.
 - C) Types of Professional skills necessary for compliance: Unknown
- 14) Regulatory Agenda on which this rulemaking was summarized: This rulemaking was not included on either of the two most recent regulatory agendas because the need for this rulemaking was not made apparent until recently as a result of USEPA's focus on review of prior Section 316(a) relief and recent Board determinations.

105
 106 SUBPART A: GENERAL EFFLUENT STANDARDS

107
 108 **Section 304.141 NPDES Effluent Standards**

- 109
- 110 a) No person to whom an NPDES Permit has been issued may discharge any
 111 contaminant in his effluent in excess of the standards and limitations for that
 112 contaminant which are set forth in his permit.
 113
 - 114 b) No person may discharge any pollutant subject to, or which contributes or
 115 threatens to cause a violation of, any applicable federal or state water quality
 116 standard, effluent standard, guideline or other limitation, promulgated pursuant to
 117 the CWA or the Act, unless limitation for such a pollutant has been set forth in an
 118 applicable NPDES Permit. However, the Agency may, by permit condition,
 119 provide that the permittee may discharge pollutants present in its water supply
 120 intake sources in concentrations not greater than the concentrations in the intake
 121 sources, or which are added in trace amounts by normal domestic water usage.¹
 122
 - 123 c) The standards of this Chapter shall apply to thermal discharges unless, after
 124 public notice and opportunity for public hearing, in accordance with
 125 section 316 of the CWA, and applicable federal regulations, and
 126 procedures in 35 Ill. Adm. Code 106.Subpart K, the Agency Administrator and the
 127 Board have determined that different standards shall apply to a particular thermal
 128 discharge.
 129

130 ¹ Section 304.141(b) was declared invalid in Peabody Coal Co. v. PCB, 3 Ill. App. 3d 5 (5th
131 District, 1976) and declared valid in U.S. Steel v. PCB, 52 Ill. App. 3d 1 (2d District, 1977).

SUBPART A: GENERAL EFFLUENT STANDARDS

Section 304.141 NPDES Effluent Standards

- a) No person to whom an NPDES Permit has been issued may discharge any contaminant in his effluent in excess of the standards and limitations for that contaminant which are set forth in his permit.
- b) No person may discharge any pollutant subject to, or which contributes or threatens to cause a violation of, any applicable federal or state water quality standard, effluent standard, guideline or other limitation, promulgated pursuant to the CWA or the Act, unless limitation for such a pollutant has been set forth in an

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENT

applicable NPDES Permit. However, the Agency may, by permit condition, provide that the permittee may discharge pollutants present in its water supply intake sources in concentrations not greater than the concentrations in the intake sources, or which are added in trace amounts by normal domestic water usage.¹

- c) The standards of this Chapter shall apply to thermal discharges unless, after public notice and opportunity for public hearing, in accordance with ~~Section~~[section](#) 316 of the CWA, ~~and~~ applicable federal regulations, and procedures in 35 Ill. Adm. Code ~~106-106~~. Subpart K, the ~~Agency Administrator~~[Agency](#) and the Board have determined that different standards shall apply to a particular thermal discharge.

¹ Section 304.141(b) was declared invalid in Peabody Coal Co. v. PCB, 3 Ill. App. 3d 5 (5th District, 1976) and declared valid in U.S. Steel v. PCB, 52 Ill. App. 3d 1 (2d District, 1977).
