Dear John,

I read with interest the decision of the hearing officer to allow ARID's comments on R2013-018.

I send this note to ensure that the comments and files submitted electronically by ARID yesterday (30 SEPT 2013) were received by you. Can you please confirm this ?

Also, with respect to ease of viewing of the infrared camera video which shows the vapor emissions generated from the refueling of a non-ORVR vehicle in the absence of Stage II at the GDF; I have included below a link to allow the reader to view this important video on youtube.

Please reference this link for video of a refueling event with a non -ORVR vehicle at a non-Stage II GDF: <http://www.youtube.com/watch?v=E8Hoj-v0W4&feature=related>

Respectfully submitted,

Ted Tiberi
