

## **Board Adopts Amendments to the Volatile Organic Material Emissions Control Regulations**

On July 21, 2011, the Illinois Pollution Control Board adopted amendments to its air pollution regulations governing emissions of volatile organic material (VOM). The rulemaking is docketed as In the Matter of: Reasonably Available Control Technology (RACT) for Volatile Organic Material Emissions From Group II and Group IV Consumer & Commercial Products: Proposed Amendments to 35 Ill. Adm. Code 211, 218, and 219 (R11-23). The Illinois Environmental Protection (IEPA) filed this rulemaking on March 7, 2011 pursuant to authorities including the “fast-track” rulemaking provisions at Section 28.5 of the Environmental Protection Act (Act).

The rulemaking amends recently-promulgated regulations controlling VOM emissions from the following Group II and Group IV Consumer and Commercial Product Categories: industrial cleaning solvents, flat wood paneling coatings, flexible packaging printing materials, lithographic printing materials, letter press printing materials, miscellaneous metal and plastic parts coatings, automobile and light-duty truck coatings, miscellaneous industrial adhesives, and fiberglass boat manufacturing materials. The IEPA proposed the amendments to these regulations in response to comments by the United States Environmental Protection Agency.

Opinions and orders of the Board, hearing transcripts, and other documents in rulemaking records are posted on the Board’s Web site and may be downloaded from the Web without charge. Hard copies may be obtained from the Clerk’s office upon payment of reproduction fees as prescribed by Section 6 of the Freedom of Information Act [5 ILCS 140/6].
