JULY 2014 REGULATORY AGENDA

- a) Parts (Heading and Code Citation): General Rules (35 Ill. Adm. Code 101)
- 1) Rulemaking: No docket presently reserved.
- A) Description: The Board anticipates within the next six months proposing limited amendments to the procedural rules to accomplish two primary objectives. First, the amendments would modify the procedural rule concerning motions by out-of-state attorneys for leave to appear *pro hac vice* in Board adjudicatory proceedings, to conform with recent amendments to Supreme Court Rule 707. As amended, that rule applies a uniform process out-of-state attorneys must follow to participate in court or administrative proceedings in Illinois. Second, the Board anticipates proposing clarifying changes to its rules on service of documents filed with the Board. These proposed amendments would seek to make those rules more readily understandable to a *pro se* citizen.
- B) Statutory Authority: Implementing and authorized by Sections 5, 26, and 28 of the Environmental Protection Act [415 ILCS 5/5, *et. al.*].
- C) Scheduled meeting/hearing dates: Hearings have not yet been scheduled.
- D) Date agency anticipates First Notice: The date of publication in the *Illinois Register* could not be determined at the time this regulatory agenda was filed. Please check with the Board for further information.
- E) Effect on small businesses, small municipalities or not for profit corporations: This rule could affect any person or entity that appears before the Pollution Control Board.

JULY 2014 REGULATORY AGENDA

- 1) Rulemaking: Docket number R14-21
- A) Description: On June 5, 2014, the Board proposed procedural rule amendments with two main objectives. First, the amendments codify procedural standards for remarks by members of the public at the Board's open meetings. Second, these rules will permit, with some exceptions, electronic filing in all Board proceedings, as well as service by e-mail of most types of filings.
- B) Statutory Authority: Implementing and authorized by Sections 5, 7.1, 7.2, 26, 27, 28, 29, 31, 32, 33, 35, 36, 37, 38, 40, 40.1, 40.2, 41, and 58.7 of the Environmental Protection Act [415 ILCS 5/5, *et. al.*], and authorized by Sections 26 and 27 of the Act [415 ILCS 5/26 and 27], and Section 25-101 of the Electronic Commerce Security Act [5 ILCS 175/25-101].

Permits and General Provisions (35 Ill. Adm. Code 201)
Definitions and General Provisions (35 Ill. Adm. Code 211)

- 1) Rulemaking: No docket presently reserved.
- A) Description: The Illinois Environmental Protection Agency (Agency) is in the process of developing a rulemaking proposal or proposals to file with the Board setting forth regulations that will address recently adopted legislation allowing for the Agency to issue/authorize Permit-by-Rule (PBR). The rulemaking proposal will address standard conditions for PBRs and specific conditions for boilers that are less than 100 mmBtu/hr. The proposal will also include appropriate definitions and an amendment to clarify that sources that are complying with the Registration for Smaller Sources (ROSS) requirements are exempt from the requirements in 35 Ill. Adm. Code 201 to obtain either a construction permit or an operating permit. These amendments will be submitted to USEPA as a revision to Illinois' State Implementation Plan (SIP) under the federal Clean Air Act, as the regulations that are being amended are part of the Illinois SIP.
- B) Statutory authority: Implementing Sections 10 and 39.12 of the Environmental Protection Act [415 ILCS 5/10, 39.12] and authorized by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 and 28].
- C) Scheduled meeting/hearing dates: The Agency has stated that it anticipates filing a rulemaking proposal with the Board within the next six months. No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct public hearings in accordance with the requirements established by Section 27 of the Act [415 ILCS 5/27].

d) Part (Heading and Code Citation): Definitions and General Provisions (35 Ill. Adm. Code 211)

1) Rulemaking: Docket number R15-5

A) Description: Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal “Recommended Policy on the Control of Volatile Organic Compounds” (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

The Board has reserved this docket number to accommodate any federal amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period January 1, 2014 through June 30, 2014. At this time, the Board is aware of one federal action during this update period that affected the federal definition of VOM:

March 27, 2014 (79 Fed. Reg. 17037)

Description of the USEPA action: USEPA adopted one new exclusion from the definition of VOM. The newly exempted compound is an amino-alcohol: 2-amino-2-mehtyl-1-propanol (also called AMP). USEPA exempted this compound due to its negligible reactivity to produce tropospheric ozone. This compound is similarly

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2014 REGULATORY AGENDA

photochemically reactive than the benchmark compound, ethane, which is also exempt from the definition of VOM. This compound can be used in the manufacture of pigments in water-based coatings, as an additive in metalworking fluids, as a neutralizer in personal care products, and as an intermediate in chemical synthesis.

Prospective necessary Board action in response: The Board must incorporate the exclusion into the Illinois definition of VOM at 35 Ill. Adm. Code 211.7150.

The Board will verify the existence of any other federal actions that may affect the federal definition of VOM, and propose corresponding amendments to the Illinois definition of VOM as necessary and appropriate. Section 9.1(e) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based.

- B) Statutory authority: Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].
- C) Scheduled meeting/hearing dates: None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. The Board will then schedule and conduct at least one public hearing, as required by Section 110(a) of the federal Clean Air Act (42 USC § 7410(a)) for amendment of the Illinois ozone SIP.
- D) Date agency anticipates First Notice: The Board cannot project an exact date for publication at this time.
- E) Effect on small business, small municipalities, or not-for-profit corporations: This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical compound that is the subject of a proposed exemption or proposed deletion from the USEPA list of exempted compounds.

- G) Related rulemakings and other pertinent information: No other rulemaking that would affect 35 Ill. Adm. Code 211 is planned at this time. Receipt of a rulemaking proposal pursuant to 415 ILCS 5/27 and 28, however, could cause the Board to initiate a rulemaking at any time.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

- e) Part (Heading and Code Citation): Regulation Of Coke Or Coal Bulk Terminals (35 Ill. Adm. Code 213)(New Part)

1) Rulemaking: Docket number R14-20

A) Description: On January 16, 2014, the Illinois Environmental Protection Agency (IEPA) filed a motion and proposal for emergency rulemaking pursuant to Section 27(c) of the Environmental Protection Act (Act) (415 ILCS 5/27(c) (2012)), Section 5-45 of the Illinois Administrative Procedure Act (IAPA) (5 ILCS 100/5-

45 (2012)), and Section 102.612 of the Board's rules (35 Ill. Adm. Code 102.612). IEPA proposed an emergency rule applicable statewide to govern the handling of coal and coke, including petroleum coke (or "petcoke"), at bulk terminals and other specified facilities. The proposed emergency rules required immediate measures that included road paving, use of dust suppression systems, setback requirements, containment of stormwater, and disposal of coke and coal that have been on site for more than one year.

On January 23, 2014, the Board denied the IEPA's motion and declined to adopt an emergency rule; however, the Board agreed to proceed with the proposal as a general rulemaking. The Board directed the hearing officer to enter an order asking IEPA to amend its proposal to include the information required in 35 Ill. Adm. Code 102. Emergency Rulemaking Regarding Regulations of Coke/Bulk Terminals: New 35 Ill. Adm. Code 213, R14-20, slip op. at 1 (Jan. 23, 2014).

On March 20, 2014, the Board granted a request to stay the proceedings until June 23, 2014.

- B) Statutory authority: Implementing and authorized by Sections 27 of the Environmental Protection Act [415 ILCS 5/27].
- C) Scheduled meeting /hearing date: The Board is awaiting a proposal for regular rulemaking and will schedule hearings when that proposal arrives.
- D) Date agency anticipates First Notice: The Board will consider this rulemaking for first notice publication in the *Illinois Register* within the next six months.

- h) Part (Heading and Code Citation): Air Quality Standards (35 Ill. Adm. Code 243)

- 1) Rulemaking: Docket number R15-4

- A) Description: P.A. 97-945 added Section 10(H) to the Environmental Protection Act [415 ILCS 5/10(H)] effective August 10, 2012. This new provision mandates that the Board adopt ambient air quality standards that are identical-in-substance to the National Ambient Air Quality Standards (NAAQS) adopted by USEPA pursuant to section 109 of the federal Clean Air Act (42 USC § 7409). USEPA has codified the primary and secondary NAAQS at 40 CFR 50, including provisions relative to methods for monitoring ambient air quality for the several contaminants (particulate matter, nitrogen oxides, sulfur oxides, ozone, carbon monoxide, and lead). Various other federal regulations relate to aspects of the NAAQS, such as 40 CFR 53 prescribing the procedure for approval of equivalent and reference methods and 40 CFR 81 designating air quality monitoring regions and setting forth their attainment/non-attainment status.

The Board has reserved docket number R15-4 to accommodate any federal amendments to the NAAQS that USEPA may make during the period January 1, 2014 through June 30, 2014. At this time, the Board is not aware of any federal amendments to the federal NAAQS that occurred during this update period.

Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Measurable parameters such as dissolved oxygen will be used to identify cultural eutrophication. The proposed standard would prohibit cultural eutrophication and the presence of such would trigger a technology-based phosphorus limit on dischargers that would significantly contribute to cultural eutrophication. The technology based phosphorus limits applicable to such dischargers would be proposed by updating 35 Ill. Adm. Code 304.123. - j) Part (Heading and Code Citation): Water Use Designations and Site Specific Water Quality Standards (35 Ill. Adm. Code 303)
- 1) Rulemaking: Docket number R08-9 Subdocket D
- A) Description: On November 1, 2007, the Board accepted a proposal for hearing in Water Quality Standards and Effluent Limitations for the Chicago Area Waterway System and the Lower Des Plaines River: Proposed Amendments to 35 Ill. Adm. Code 301, 302, 303, and 304 (R08-9). The proposal filed by the Illinois Environmental Protection Agency (Agency) on October 26, 2007, seeks to amend the Board's water quality standards for the "Chicago Area Water Way System" (CAWS) and the Lower Des Plaines River. On November 15, 2007, after the response time to the motion had run out, the Board granted the Agency's request to hold the hearings in this rulemaking in Chicago and Joliet.
- In this rulemaking, the Agency proposes amendments to update the designated uses and criteria necessary to protect the uses for the waters currently designated for Secondary Contact and Indigenous Aquatic Life Uses. These specific designations were for those waters not suited for General Use activities. All waters in Illinois that carry these designations are water bodies that were a part of the engineering effort that reversed the flow of the Chicago River and are known as the CAWS and the Lower Des Plaines River. In 2000 and 2002, the Agency began pilot programs for the Lower Des Plaines River and CAWS to develop use attainability analysis (UAA) for these waters. These proposed rule changes incorporate the findings of the pilot programs.
- On March 18, 2010, the Board split this rulemaking into four subdockets. Subdocket D will address the issues dealing with water quality standards and criteria which are necessary to meet the aquatic life use designations.
