LEGALS

ILLINOIS POLLUTION CONTROL BOARD

NOTICE OF PROPOSED STIPULATION AND PROPOSAL FOR SETTLEMENT OF ENFORCEMENT CASE

The Attorney General has brought a case against the Crop Production Services, a Delaware corporation for violation of State pollution control rules. The alleged violations occurred at three agricultural and fertilizer retail facilities: one in Sinclair, Morgan County; another in White Hall, Greene County; and a third southwest of Galesburg and east of Highway 41 in Knox County. On April 6, 2016, the parties filed a stipulation and proposal for settlement. The parties agree that a hearing is unnecessary, and in accordance with State law, have requested that the settlement be adopted without holding a public hearing. Any person desiring that a hearing be held may demand a public hearing in this case by filing a written hearing request with the Illinois Pollution Control Board within 21 days after the publication of this notice. The hearing request should refer People of the State of Illinois v. Crop Production Services, a Delaware corporation, PCB 09-60 and should be mailed to the Clerk of the Illinois Pollution Control Board, 100 West Randolph Street, Suite 11-500, Chicago, Illinois 60601. Additional information can be obtained through the Office of the Clerk at 312/814-3461 and the Board's website at <http://www.ipcb.state.il.us>.

LEGALS

from the electric revenue requirement last ordered by the ICC in Docket No. 15-0305. The revenue requirement change by Rate Zone results in overall annual decreases of \$3.9 million, \$5.5 million, and \$5.0 million for Rate Zones I, II and III, respectively, prior to implementing single tariff pricing measures among certain Rate Classes and Rate Zones. Proposed rates which will become effective beginning January 2017 due to this proceeding will generate revenues different from these revenue requirement targets due to movement towards rate uniformity among the Rate Classes and Rate Zones. For the DS-1 Residential Delivery Service classification, the proposed decreases in electric delivery service and Electric Distribution Tax (EDT) cost recovery revenue are 2.8, 2.6 and 2.7 percent for Rate Zones I, II and III, respectively. The rates for delivery service and EDT cost recovery constitute only a portion of the total bill of a customer currently taking bundled electric service from Ameren Illinois or taking supply service from a third-party supplier. The following compares the Company's proposal to the bundled bill (delivery service charges that are in effect today and purchased power charges effective through May 2016) for residential customers:

- 1) For a residential customer using 5,000 kWh annually (or average of 417 kWh monthly), the effect of the delivery service bill changes being proposed by the Company produces an average monthly decrease of \$0.94, \$0.90 and \$0.93 (or -1.5%, -1.5% and -1.5% monthly bill changes for bundled service) in Rate Zones I, II and III, respectively.
- 2) For a residential customer using 10,000 kWh annually (or average of 833 kWh monthly), the effect of the delivery service bill changes being proposed by the Company produces an average monthly decrease of \$1.29 \$1.21 and \$1.28 (or -1.2%, -1.2% and -1.2% monthly bill changes for bundled service) in Rate Zones I, II and III, respectively.
- 3) For a residential customer using 18,000 kWh per year (or average of 1,500 kWh monthly), the effect of the delivery service bill changes being proposed by the Company produces an average monthly decrease of \$1.74, \$1.61 and \$1.72 (or -1.1%, -1.0%, and -1.1% monthly bill changes for bundled service) in Rate Zones I, II and III, respectively.

For non-residential customers, the proposed changes in electric delivery service and EDT cost recovery revenue for each of the three Rate Zones are as follows:

- For DS-2 Small General Delivery Service classification, 3.9, 4.2 and 3.9 percent increases for Rate Zones I, II and III, respectively;
- For DS-3 General Delivery Service classification, -7.2, and -6.8 percent changes for Rate Zones I, and II, respectively, with Rate Zone III negligibly impacted;
- For DS-4 Large General Delivery Service classification, 11.1, 6.9 and 6.1 percent increases for Rate Zones I, II and III, respectively;
- For DS-5 Lighting Service classification, -3.3, -6.5 and -6.0 percent changes for Rate Zones I, II and III, respectively; and
- For DS-6 Temperature Sensitive Delivery Service classification (customers otherwise eligible for DS-3) -6.0, -5.6 and -5.7 percent changes for Rate Zones I, II and III, respectively;
- For DS-6 Temperature Sensitive Delivery Service classification (customers otherwise eligible for DS-4) -5.7, -5.9 and -6.4 percent changes for Rate

LEGALS

Zones I, II and III, respectively;

Customers should be advised that the Commission may alter or otherwise amend the rates or conditions of service after hearings are held pursuant to 83 Ill. Adm. Code Part 200, and may increase or decrease individual rates in amounts other than those requested by Ameren Illinois. Additionally, Ameren Illinois hereby gives notice to the public that it has filed with the Illinois Commerce Commission evidence (direct testimony) proposing the reduction of the Power Smart Pricing Charge from its current level of \$0.08 per month, as referenced in Ameren Illinois' Rider PSP - Power Smart Pricing tariff, to \$0.06 per month, to be contained in Ameren Illinois' Supplemental Customer Charges tariff.

A copy of the proposed change in schedule(s) may be inspected at the Ameren Illinois offices at 300 Liberty Street, Peoria, Illinois or online at www.icc.illinois.gov/e-docket/.

All parties interested in this matter may obtain information with respect thereto either directly from Ameren Illinois or by addressing the Chief Clerk of the Illinois Commerce Commission, 527 East Capitol Avenue, Springfield, Illinois 62706.
