

Buscher, Bill to: Maria Race

10/26/2011 02:25 PM

History: This message has been forwarded.

Maria, Waukegan was moved down into the priority two category (it was just put in the wrong location in previous reports) and the following were added to the priority one and two categories respectively .

Will County Station- A hydrogeologic assessment plan has been submitted and approved. Groundwater sampling results have been received indicating potential groundwater impacts. Additional sampling data is being collected to establish background water quality at the site. The initial monitoring indicates that groundwater flow is primarily towards the river. No private wells appear to have the potential for impact. Confirmation of elevated levels of contaminants will require will require further investigation and appropriate remedial activities where necessary.
