Richard -

Attached are suggested first notice changes for the PCB rules published in Issue 20 of the *Illinois Register*. A few notes:

- 1. USC vs. U.S.C. Kim changed these to U.S.C. at publication to comply with the style guide. I understand that we've been changing U.S.C. to USC for years now and that the Board can't turn on a dime and easily reverse all of those earlier changes. JCAR's position is that we should make sure that the references in current and future rulemakings say U.S.C. but that having several residual USCs hanging about in the Code until their Sections are reopened shouldn't cause too much confusion.
- 2. IAC citations: We appreciated the initiative to make IAC citations more precise. Citations to other Parts should be preceded by "35 Ill. Adm. Code". However, across the Code the convention is for internal cross-references to refer to Section ###.### rather than to use the longer format. In the changes proposed, we did our best to standardize this.
- 3. Subsection headings: Although the convention in the CFR is for a subsection heading to capitalize only the first word and end with a period, the convention in the IAC is to use title case and no punctuation (unless the text of the subsection starts on the same line of the heading, in which case a period is added).
- 4. We've made a number of suggested changes to further clarify and simplify the language in these Parts in the spirit of the Board's initiative. Many of these would have been unilaterally made by Vicki at publication, but JCAR's current approach is much more collaborative. If we have been too aggressive in our proposals, please don't feel obliged to accept them.

Electronic Filing: Received, Clerk's Office 05/27/2022

P.C.#2

5. Moving forward, especially on the really big rulemakings, would it be possible for the Board to submit revisions in predraft form first? That would enable changes to phrases that occur quite frequently without the need for individually written amendments (the number of proposals we've made for Part 307 is somewhat exceptional, and I imagine neither agency really relishes the prospect of similar lists...).

Thanks in advance for your consideration. Please let me know if you have any questions or concerns.

All the best,

Jonathan
