

## ILLINOIS EMERGENCY MANAGEMENT AGENCY

JB Pritzker  
Governor

Alicia Tate-Nadeau  
Director

June 9, 2022

Clerk's Office  
Illinois Pollution Control Board  
100 W. Randolph St., Suite 11-500  
Chicago, IL 60601

SUBJECT: Case number R2018-028  
Title 35: Subtitle I: Atomic Radiation  
35 Ill. Adm. Code Parts 1000 and 1010

To Whom It May Concern:

The Illinois Emergency Management Agency (IEMA) is providing these comments to the First Notice published in the Illinois Register on May 6, 2022, regarding amendments to 35 Ill. Adm. Code Parts 1000 and 1010.

Using the line numbers from the marked-up version on the Pollution Control Board's case site, IEMA recommends the following:

### Part 1000

Line 111-112 ~~"Department" means the Illinois Department of Emergency Management Services Bureau of Nuclear Facility Safety.~~

IEMA recommends adding the definition of "IEMA" as follows: "IEMA" means the Illinois Emergency Management Agency, Division of Nuclear Safety. The definition of "Department" should be deleted and the references to the "Department" within the rule should be replaced with "IEMA".

Line 425 at ~~(217)782-7860, 1-800-782-7860, or, if calling from outside Illinois, 1-217-782-7860.~~

### Part 1010

Line 135-136 2) Reports to IEMA must be given by telephone and electronically. IEMA's telephone number for reporting emergencies is (217)782-7860, 1-800-782-7860, or, if 1-37 calling from outside Illinois, 1-217-782-7860.

| Line 239 ~~Bureau of Environmental Safety~~

If you have any questions concerning these suggested changes, please contact Louise Conway, Staff Attorney, at (217)785-9876.

Sincerely,

Louise Conway, Staff Attorney  
Illinois Emergency Management Agency
