ORDER OF THE BOARD (by A. Palivos):

On September 15, 2022, the Illinois Environmental Protection Agency (Agency) filed a recommendation on whether the Board should certify specified facilities of Malone Chemical, Inc. (Malone Chemical) as “pollution control facilities” for preferential tax treatment under the Property Tax Code. *See* 35 ILCS 200/11-5 *et seq.* (2020); 35 Ill. Adm. Code 125. The Agency recommends that the Board deny a tax certificate for Malone Chemical’s liquid fertilizer tank with synthetic membrane liner, which is located at 34691 E. 2300 North Rd. in Kempton, Livingston County.

If Malone Chemical wishes to contest the Agency’s recommendation, it must file a petition with the Clerk within 35 days after the Agency served the recommendation on Malone Chemical. *See* 35 Ill. Adm. Code 125.206(a). If Malone Chemical fails to timely file a petition, the Board may deny tax certification for the liquid fertilizer tank with synthetic membrane liner based on the Agency’s recommendation and Board’s technical review.

IT IS SO ORDERED.

I, Don A. Brown, Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on October 6, 2022, by a vote of 5-0.

Don A. Brown, Clerk  
Illinois Pollution Control Board
