Focus On Development

Chirico first took office in 2015, succeeding longtime Mayor George Pradel. During his tenure, he's put a focus on development, noting in his post that building permit applications have reached highs "not seen since the 1990s." Some new additions during his terms have been two Amazon Fresh stores, the Mall of India, and a second Costco, the latter being part of a greater effort to help revitalize Naperville's East Ogden corridor. The mayor said it was a point of pride to have helped implement "one of the lowest property tax rates" for the city in the last 50 years.

2. Steve Chirico destroyed my hometown since 1984.
