Please find attached a conversation with a UN Diplomat from the Country of Qatar where I apologize for the Netflix Fifa Documentary because of what a joke you all are.

All certified mail sent to me will be returned to the sender.

Kind Regards,

Paul Pratapas

Kristine,

Here is the drainage plan for the site. See all the arrows leaving the driveways? The water will move that way with gravity. If all the curbs are flat, which they are, a curbside BMP would be necessary until that area is stabilized. Or you get all the sediment laden water/pollutants going into the existing inlets, and retention pond which has not been seeded to filter via infiltration. This plan should never have been approved.

Kind Regards,

Paul Pratapas

Kristine,

Thank you for putting the public materials required to properly petition the government online. I couldn't have found any of this without the regulatory sign, too. Its actually called Lexington Trace Unit 3, not Lexington Trace 2 as advertised. Super common, and only googling LT Unit 3 pulls up the posted info.

The City of Batavia hung up on me twice. Horizon told me to contact their legal department in WI. Lisle doesn't know what a SWPPP is. Pulte Homes threatened me and ignored requests for 5+ sites. And more...

Quick issues:

1. Why was a concrete washout area approved next to an inlet without tech specs or any curbside protections and flat curbs?
2. These roads are at grade. Nowhere near flat and the only sediment control is perimeter silt fence. The minimum. All those curbs are flat to the ground, so all sediment and sediment laden water should have be known tombe uncontrolled.
3. Fake news sequence plan
4. This was 1,000% predictable from the plans and SWPPP and ignored why?
5. Zero curbside protection again

Just so you know, if you search public records for the Illinois Pollution Control Board online, I have filed 22 formal complaints because construction in the US is one of our biggest polluters.

And not only does nobody follow the rules, the government doesn't make them.

My family and I have been getting threatened. By contractors who signed something saying they understood the rules...

I am reporting Clean Water Act violations as a certified inspector and getting threatened. Ignore the Fifa documentary please. No joke, even former mafia figures have spoken in favor of what Im doing and against my treatment. I come
